A fascinating study of Edward Hopper's iconic Nighthawks painting and its deep significance for understanding American culture. Staying up Much Too Late discusses the painting Nighthawks and the painter Edward Hopper and their central importance to twentieth-century American culture. Topics include individualism, New York City, Arthur "Weegee" Fellig, diners, pornography, capitalism, advertising, cigarettes, American philosophy, World War II, Gravity's Rainbow, Blade Runner, Pulp Fiction, Russ Meyer, R. Crumb, David Lynch, and film noir What links these together is the painting's pessimistic take on American culture, which it also seems to epitomize. Despite its desolate feel, Nighthawks has become a familiar icon, reproduced on posters and postcards, in movies and on television shows. But Nighthawks is more than just a masterful painting. It is a portal into that rarely acknowledged but pervasive dark side of the American psyche.

Poultry Production MCD x FSG Originals Control: Either you have it--or you don't. Two words, "Either Or," are particularly appropriate when describing, owning, and handling the great majority of horses that buck. Either they do it because they're scared or because they're defiant. Either you're the type of person who takes on the challenge with a gleam in your eye or you have a bad stomach over the very idea. Either your barn friends think you should sell the animal because they feel embarrassed for you and your odd excuses for why you exercise it via hand walks and turnout and never a ride on the trail -- or they're pretty sure you don't realize the risk you take each time you hop aboard and they're considering an equestrian intervention. And either you've got a plan to fix it--or you do not. Make that "did not." "Did not have a plan." Because now you do. You've got this guide and so you've got a plan and with it a solution. This book, "Crow Hopper's Big Guide to Buck Stopping," falls into four sections: Section I: Learn the ground work required to begin snuffing out this deep-

rooted issue. Given that "you ride the horse you lead," you'll begin your fix with your feet planted safely on terra firma. You'll gain confidence--and control. Section II: Learn to see a buck coming and what to do if it happens, then get back in the saddle for exercise after exercise designed to put you in charge and prevent future problems. Section III: Perform exercises geared to address immediate and specific bucking issues: Bucking into the canter, how to deal with your own fear, crossing obstacles, the horse that crow hops when first introduced to the saddle. Section IV: Training appropriate for every horse and rider--and an absolute must for those schooling the bucking horse. (See the Table of Contents for a complete listing.) Your horse isn't going to buck if you have control. Your task, then, becomes gaining that control, understanding when you have it, knowing when you don't, working to get it. Table of Contents: Section I, Ground Training - When You Really Lose It: If your horse went ballistic last week, it didn't just "happen." Spot the signals. - Where I'd Start: Bucking horse owners, here's something you can do with your horse that advances his training, is low risk, and fun. - Whoever Moves First, Loses (Or, "How to Get Respect"): Secure your rightful spot as leader in your "herd of two." - Bridle Work from the Ground: Develop control over your horse's individual body parts and gain respect - Reverse of Respect: Backing your horse is an excellent way to affirm (or establish) your position as leader - Lungeing a Horse for Added Control: With added training for the bucking horse, here is the how, when, and why of lunge-line training Section II, Fixes from the saddle and preventative medicine - Your Individual Prescription - Ride Where You Can, Not Where You Can't - Core Exercises (Introduced) - Despooring: Scary Things - Despooring: Scary Moments - Getting Back On: What to Do If the Horse Bucks - Hip Control - Classic Serpentine - Softening - Calm Down Now: Drop Your Horse's Head on Command - Speed Control for Mind Control - Shoulder Control - Train Your Horse to Travel Straight Section III, Questions answered: Specific and immediate fixes for the bucking horse

owner - Horses that Buck When First Introduced to the Saddle - How Can I Overcome My Fear After Being Bucked Off? - My horse wants to buck or crow hop when going from a trot to a canter. - Crossing Creeks and Scary Stuff Section IV, Training for every horse and rider--and an absolute must for those schooling the bucking horse - Each Time You Mount Up, Do This First - How to Pick Up Your Reins Like a Pro - Training Magic: Release on the Thought - Reins Tell Direction, Legs Tell Speed - Talking Horse - Perfect the First Time - How Do I Keep My Horse's Attention? - Is the Cinch Strap Causing the Trouble? - Is My Horse Hard to Train... *Nixon at the Movies* Keith Hosman A playful tale about friendship and home "What," Hopper asks his little friend Wilson, "do you think it's like at the end of the world?" Hopper, the blue elephant, imagines a staircase to the moon, while Wilson, the yellow mouse, hopes for an endless supply of lemonade. So the two sail off in a boat made of paper . . . only to discover they already have everything they could wish for in each other, and at home. Maria van Lieshout's adorable new picture book tugs at heartstrings, inspires discussion, and reminds us all how good returning home can feel. Praise for HOPPER AND WILSON "...van Lieshout's story is filled with adventure, emotion, and imagery that supplies lots of effervescent warmth."--Publisher's Weekly "Winsomely ambiguous and otherworldly, this sweet, quirky story offers fantastic footholds for dizzying discussion."--Kirkus Reviews [The Canadian Patent Office Record and Register of Copyrights and Trade Marks NorthSouth \(NY\)](#)

"Jessica Hopper's criticism is a trenchant and necessary counterpoint not just on music, but on our culture at large."  
—Annie Clark, *St. Vincent* An acclaimed, career-spanning collection from a fiercely feminist and revered contemporary rock critic, reissued with new material Throughout her career, spanning more than two decades, Jessica Hopper, a revered and pioneering music critic, has examined women recording and producing music, in all genres, through an intersectional feminist lens. *The First Collection of Criticism by a Living Female Rock Critic* features oral histories of bands like Hole and Sleater Kinney, interviews with the women editors of 1970s-era *Rolling Stone*, and intimate conversations with iconic musicians such as Björk, Robyn, and Lido Pimienta. Hopper journeys through the truths of Riot Grrrl's empowering insurgence; decamps to Gary, Indiana, on the eve of Michael Jackson's death; explodes the grunge-era mythologies of Nirvana and Courtney Love; and examines the rise of emo. The collection also includes profiles and reviews of some of the most-loved, and most-loathed, women artists making music today: Fiona Apple, Kacey Musgraves, M.I.A., Miley Cyrus, Lana Del Rey. In order for the music industry to change, Hopper writes, we need "the continual presence of radicalized women . . . being encouraged and given reasons to stay, rather than diminished by the music which glues our communities together." *The First Collection of Criticism by a Living Female Rock Critic*—published to acclaim in 2015, and reissued now with new material and an introduction by Samantha Irby—is a rallying cry for women-centered history and storytelling, and a groundbreaking, obsessive, razor-sharp panorama of music writing crafted by one of the most influential critics of her generation.

During confined flow of bulk solids in silos some characteristic phenomena can be created, such as: sudden and significant increase of wall stresses, different flow patterns, formation and propagation of wall and interior shear zones, fluctuation of pressures and, strong autogenous dynamic effects. These phenomena have not been described or explained in detail yet. The main intention of the experimental and theoretical research presented in this book is to explain the

above mentioned phenomena in granular bulk solids and to describe them with numerical FE models verified by experimental results.

Hopper: A Name for a Friend is based on a true story! When my younger son, Miles, was about five years old, his aunt presented him an Easter basket with a soft white floppy-eared bunny rabbit. Well, over the past twenty-one years, Hopper has gone on numerous vacations, to sleepaway camps, and has served as a constant companion to Miles. Even today, with his ears held on with large safety pins, Hopper still has a place in our home.  
*Hang On, Hopper!* Rowman & Littlefield "People will be arguing over Nixon at the Movies as much as, for more than half a century, the country at large has been arguing about Nixon."—Greil Marcus Richard Nixon and the film industry arrived in Southern California in the same year, 1913, and they shared a long and complex history. The president screened Patton multiple times before and during the invasion of Cambodia, for example. In this unique blend of political biography, cultural history, and film criticism, Mark Feeney recounts in detail Nixon's enthusiastic viewing habits during his presidency, and takes a new and often revelatory approach to Nixon's career and Hollywood's, seeing aspects of Nixon's character, and the nation's, refracted and reimagined in film. *Nixon at the Movies* is a "virtuosic" examination of a man, a culture, and a country in a time of tumult (Slate). "By Feeney's count, Nixon, an unabashed film buff, watched more than 500 movies during the 67 months of his presidency, all carefully listed in an appendix titled 'What the President Saw

and When He Saw It.' Nixon concentrated intently on whatever was on the screen; he refused to leave even if the picture was a dud and everyone around him was restless. He was omnivorous, would watch anything, though he did have his preferences...Only rarely did he watch R-rated or foreign films. He liked happy endings. Movies were obviously a means of escape for him, and as the Watergate noose tightened, he spent ever more time in the screening room."—The New York Times

From the dawn of the studio system to the decade it all came crashing down, Hedda Hopper was one of the Queens of Hollywood. Although she made her name as a star of the silent screen, she found her calling as a gossip columnist, where she had the ear of the most powerful force in show business: the public. With a readership of 20,000,000 people, Hopper turned nobodies into stars, and brought stars to their knees. And in this sensational memoir, she tells all. In her career, Hopper crossed some of Hollywood's biggest bold-faced names, from Spencer Tracy and Katherine Hepburn to Charlie Chaplin and Joseph Cotten, and her feud with rival gossip columnist Louella Parsons became the stuff of legend. In *The Whole Truth and Nothing But*, we get Hedda's side of the story—and what a story it is. Hedda Hopper is portrayed by Judy Davis in the Ryan Murphy TV series *Feud* about Joan Crawford and Bette Davis.
