singer-songwriters, Ian Johnston's *BAD SEED* offers a superb overview of Nick Cave's career to date. Through Cave's fronting of the incendiary bands *The Birthday Party* and *The Bad Seeds*, producing music of unfettered expression and explosive intensity, to his creative collaborations outside of the rock industry in film and literature, *BAD SEED* illustrates a life lived in barely controlled chaos: and unravels the motivation and unique appeal of a reluctant icon whose songs, according to the Rolling Stones, possess "the authority of the most primal kind of myth."

Can Somebody Please Scratch My Back? Penguin

Examines the complexities and contradictions that arise when the monsters in the movies are children. Since the 1950s, children have provided some of horror's most effective and enduring villains, from dainty psychopath Rhoda Penmark of *The Bad Seed* (1956) and spectacularly possessed Regan MacNeil of *The Exorcist* (1973) to psychic ghost-girl Samara of *The Ring* (2002) and adopted terror Esther of *Orphan* (2009). Using a variety of critical approaches, including those of cinema studies, cultural studies, gender studies, and psychoanalysis, *Bad Seeds and Holy Terrors* offers the first full-length study of these child monsters. In doing so, the book highlights horror as a topic of analysis that is especially pertinent socially and politically, exposing the genre as a site of deep ambivalence toward—and even hatred of—children. “This is impeccably well researched and presented. It holds its own at the top of film studies scholarship. Sprightly in its survey across key areas of cultural anxiety and able to draw on a range of lucid examples, Lennard produces sophisticated and complex extended analyses where necessary. A pleasure to read.” — Linda Ruth Williams, University of Southampton, United Kingdom

Goodnight Already! Schwartz & Wade

From award-winning musician and composer Warren Ellis comes the unexpected and inspiring story of a piece of chewing gum. Featuring an introduction from Nick Cave. 'Warren has turned this memento, snatched from his idol's piano in a moment of rapture, into a genuine religious artefact.' NICK CAVE 'In praise of meaning-rich relics and magical things. Totally heartwarming project.' MAX PORTER 'A unique study of a fan's devotion, of transcendence and of the artistic vocation - it's got depth and great warmth. It's a beautiful piece of work.' KEVIN BARRY On Thursday 1 July, 1999, Dr Nina Simone gave a rare performance as part of Nick Cave's Meltdown Festival. After the show, in a state of awe, Warren Ellis crept onto the stage, took Dr Simone's piece of chewed gum from the piano, wrapped it in her stage towel and put it in a Tower Records bag. The gum remained with him for twenty years; a sacred totem, his creative muse, growing in significance with every passing year. In 2019, Cave - his collaborator and great friend - asked Warren if there was anything he could contribute to display in his *Stranger Than Kindness* exhibition. Warren realised the time had come to release the gum. Together they agreed it should be housed in a glass case like a holy relic. Worrying the gum would be damaged or lost, Warren decided to first have it cast in silver and gold, sparking a chain of events that no one could have predicted, one that would take him back to his childhood and his relationship to found objects. *Nina Simone's Gum* is about how something so small can form beautiful connections between people. It is a story about the meaning we place on things, on

experiences, and how they become imbued with spirituality. It is a celebration of artistic process, friendship, understanding and love.
