This study of the Sree Narayana Dharma Paripalana Yogam (SNDP Yogam), one of the earliest social reform movements in Kerala, investigates the relationship of social reform, religion, and caste. The Yogam drew inspiration from the ideas of Narayana Guru, which suited the aspirations of the upwardly mobile Ezhava middle class, who were the main benefactors of the movement. In both religious and social matters, the Guru was a traditionalist who strove to create a modern outlook among the masses. He conceived of the temple as a social space where everybody could meet and exchange ideas. While pursuing his spiritual mission, he advocated education, industrialization, and abolition of caste as necessary prerequisites for social regeneration. This work demonstrates that the SNDP was an organization of an emerging Ezhava middle class, which worked as both its strength and weakness. It focused on such issues as education, employment in government service, industrialization, abolition of cyclical rituals and caste, anti-alcoholism and the demand for a new law of inheritance. However, some disjunction between principles and practice led to the decline of the SNDP movement. Ironically, since the movement was largely focused on the interests of the privileged section of the Ezhava community, it achieved Ezhava solidarity only around caste. This study is a significant example of how a social reform movement turned into a caste solidarity movement.

Hinduism is neither an organized religion nor a proselytising one. It is often described as a way of life, which gently

nudges its followers—through its scriptures, mythologies, rituals and practices—to question deeply, live fully and grow wholesomely in compassion and universal acceptance. Hinduism believes whatever inspires one to stay truly unselfish, be it a vocation, an ideology or a faith, can lead one towards greater self-realization and ultimate freedom. Living Hinduism by Samarpan encapsulates this essence of Hinduism in a language that can be understood and appreciated by all, especially the younger generation, who need to know and understand what it means to be a Hindu, in an age of strident opinions and changing values.

Shri Mataji writes that "India is a very

ancient country and it has been blessed by many seers and saints who wrote treatises about reality and guidelines on how to achieve it." This is just such a book. This book is both an introduction to Sahaja Yoga, describing the nature of the subtle reality within each of us, and a step-by-step handbook on how to be a good Sahaja Yogi, the nature of Sahaj culture, how to be a leader and how to raise children. "The knowledge of Sahaja Yoga cannot be described in a few sentences or one small book, but one should understand that all this great work of creation and evolution is done by some great subtle organization, which is in the great divine form."

In fact, yoga is a sophisticated system of self-

complexity. It is identified by its ancient scriptures called Vedas, Upanishads, Puranas and Epics, its iconography and temple culture visible in India and abroad. The popular epics Ramayana and

Mahabharata attract interest all over the world for their thematic stories. Many books publicise the spiritual symbolism of these facets of Hinduism. Author of this book deviates from this general trend and

analyses Hindu symbolism in the light of sociological perspectives and scientific parallels visible in the ever changing Indian society in the form of cultural expressions.
