Mr. Quinlan, a product of a hellish vampiric ritual gone wrong, seeks to destroy the Master, the powerful vampire who sired him. After he is forced into hiding in the ancient Roman hillsides, he is captured and raised in the arenas as a gladiator. Winning his freedom as a champion against the will of the emperor, Mr. Quinlan is smuggled to Africa to battle foreign hordes. He must survive long enough to carry out his mission—but then his target begins hunting him. Acclaimed comics writer David Lapham traces the dark origin tale of the popular character from the television series *The Strain*. This volume collects issues #1-#5 of *The Strain*: Mr. Quinlan.

The Hollow Ones Tor Books

From the author of *The Strain* comes a tense, psychologically gripping, Hammet award-winning thriller. Four masked men—thieves, rivals, and friends from the tough streets of Charlestown—take on a Boston bank at gunpoint. Holding bank manager Claire Keesey hostage and cleaning out the vault were simple. But career criminal Doug MacRay didn't plan on one thing: falling hard for Claire. When he tracks her down without his mask and gun, their mutual attraction is undeniable. With a tenacious FBI agent following his every move, he imagines a life away from his gritty, dangerous work—a life centered around Claire. But before that can happen, Doug and his crew learn that there may be a way to rob Boston's venerable baseball stadium, Fenway Park. Risky yet utterly irresistible, it would be the perfect heist to end his criminal career and begin a new life. But, as it turns out, pursuing Claire may be the most dangerous act of all. Racing to an explosive climax, *Prince of Thieves* is a brash tale of robbery in all its forms—and an unforgettable odyssey of crime, love, ambition, and dreams.

After the End of the World by Jonathan L. Howard brings the H.P. Lovecraft mythos into the twenty-first century. The Unfolded World is a bitter and unfriendly place for Daniel Carter and Emily Lovecraft. In this world, the Cold War never happened because the Soviet Union ceased to exist in 1941. In this world the Nazi Großdeutschland is the premier superpower, and is not merely tolerated but indulged because, in this world, the Holocaust happened behind the ruins of the Iron Curtain and consumed only Bolsheviks, Communists, and others the West was glad to see gone. In this world, there are monsters, and not all of them are human. But even in the Unfolded World, there are still bills to pay and jobs to do. Carter finds himself working for the German secret security service to uncover the truth behind a major scientific joint project that is going suspiciously well. The trail takes Lovecraft and him to a distant, abandoned island, and a conspiracy that threatens everything. To fight it, Lovecraft must walk a perilously narrow path between forbidden knowledge and soul-destroying insanity. Fortunately, she also has a shotgun.
