When his father's
bankruptcy lands him,
at age 9, in an
orphanage in
Springfield,

Massachusetts, Dan McCall escapes to live in a hotel room with his dad, and of necessity to learn independence. He follows his natural curiosity about people into ceaseless adventures - exploring ethnically-mixed city streets, hitchhiking New England roads, hiking the Appalachian Trail, and enrolling in Depression-era summer military programs. Along the way, Dan discovers and nurtures his own deep love of learning; he haunts public libraries, engages teachers and school friends, and rebels against his Irish Catholic heritage. Lacking money for college, he rides the rails across country to harvest crops and falls in with a series of down-and-outers

scrambling to make a living. He flirts with communism and socialism, and stays briefly on a farm with intellectuals creating their own institution of learning. Dan is ultimately caught up in World War II, where his experience as a hospital orderly places him in the South Pacific as a medic slated to go ashore in battle. This often-rollicking and always fascinating coming-of-age story, which ends as Dan enters college, is in the category of adventures too amazing to be fiction.

In Craig Stewart's, *One Thing for Certain, Two Things for Sure* he reminds us that there are no mistakes or accidents in life—that everything happens as it should. Through the dissolution of a sordid affair with a married man, friendships, and personal setbacks he teaches us the art of letting go, and adapting to whatever comes our way. Stewart allows us, the

reader, an intimate look into his personal life through stories that center on dating, love, fear, fate and destiny. "I hope my story, these words, will help navigate the lives of men and women everywhere." Craig Stewart's groundbreaking debut memoir, *Words Never Spoken* transcended race, gender and sexuality. Dubbed a literary piece of artwork, *Words Never Spoken* gave voice to men and women who are conflicted sexually, and frustrated by the complexities of being gay, bisexual or trans. Stewart returns with the long awaited sequel, *One Thing for Certain, Two Things for Sure, A Memoir* continued. "I promised myself years ago that I wouldn't be the kind of

writer, artist, who puts out a project because people want to hear more from me. Rather, I'd be the kind of artist that only puts out a work because I have something to say, and I've kept that promise."

One Big Idea
Organizations have to be good at lots of things, but the way to win is to become differentiatingly great at One Thing. The one thing every executive team must decide is, "What is your One Thing?" Four Typical Responses Based on our experience, we know that the Decide One Thing concept will get four different responses. Some organizations will categorically reject the idea that they need to become great at One Thing. Some will think it is cool, but get distracted by the next cool idea or fad that

comes along. Some will embrace the concept for a time, but give up because implementing it is too hard. A few executive teams will fully commit to the Decide One Thing. Align Everything. Win! model. Over the past four decades, policy makers and stakeholders have struggled with the challenge of promoting industrial development in low and middle-income economies in general, and in sub-Saharan African (SSA) in particular. With the rise of the Asian Drivers (China and India) and their increase in demand for raw materials to fuel growth, the turn of the millennium saw a commodity price super-cycle emerge, benefiting a number of resource rich countries in SSA. Faced with the

specter of the Resource Curse, this book examines an industrial pathway where countries can Make the Most of Commodities. Bringing together ground-breaking research in the commodity sectors, this book uses case-studies to explore conduits for industrial development, focusing on backward and forward linkages, with policy advice for both governments and corporate sectors.
