[Miss Julia Delivers the Goods](#) Penguin

Spanning more than two centuries in Ireland, *Castle on the Rise* unites the legacy of three women who must risk mending their broken places for life, love, and the belief that even through the depths of our pain, a masterpiece of a story can emerge. When Laine Forrester travels overseas to attend her best friend's vineyard wedding, she expects to find the bride on the brink of a fairy-tale life. But after a series of unforeseen setbacks, it seems the storybook lives they'd imagined are suddenly ripping apart. With hopes of resurrecting a happy ending, Laine agrees to accompany the newlyweds to the groom's home in Ireland—never expecting she'd be the one drawn in by its wide-open moors, backroads bordering the Irish Sea, and a mysterious castle that dares to keep its secrets hidden. From the storied streets of Dublin to the shores of the Emerald Isle, Laine is drawn in to the land and its rich history. The castle ruins whisper stories of Issy—a photojournalist battling through the 1916 Easter Rising, and Maeve—the castle's lady of legend, fighting for survival through the 1798 rebellion that started it all. Praise for *Castle on the Rise*: "Enchanting and mesmerizing!" —PATTI CALLAHAN, New York Times bestselling author of *Becoming Mrs. Lewis* "Castle on the Rise perfectly showcases rising star Kristy Cambron's amazing talent! Perfect pacing, lovely prose, and an intricate plot blend together in a delightful novel I couldn't put down. Highly recommended!" —Colleen Coble, USA TODAY bestselling author of *Secrets at Cedar Cabin* and the *Rock Harbor* series "Cambron's latest is one of her best. Gripping and epic, this intricately woven tale of three generations seeking truth and justice will stay with you long after the last page." —Rachel Hauck, New York Times bestselling author *Second in the Lost Castle* series (*The Lost Castle*, *Castle on the Rise*, *The Painted Castle*) Can be read as a stand-alone, but best if read in order *Sweet romance* set in three time periods: present day, World War I/Easter Rising, and late 1700s Full-length novel (over 110,000 words)

[Star with Rainbow](#) Claudia Burgoa

The project *Baja Moda* (Low Fashion) explores two key aspects of contemporary Latin American culture: identity and resistance. While working on a previous project across Latin America, I began documenting store fronts and shoe shops still standing unaltered through the passage of time, unconcerned with the tendencies of modern globalized culture, seemingly opposing the economic transition to overseas manufacturing.

[The Bad Boy Series Collection](#) Rm

The *Bad Boy Series Collection* I've been in love with Hunter Saint my entire life. He was my first love and the one I could never forget. Then Fate intervened and we became enemies. Now, I must go to Hunter on my hands and knees to beg him to save my brother's life. I'll pay any price to save him. I'll do anything Hunter wants. Anything... The *Bad Boy Series* by S. E. Lund's is a sexy new novella series, featuring a bad boy with a heart of gold and a heroine who can't get him out of her life or her heart. When Fate forces them back together again, can they deny what has long simmered between them?

[Europ production](#) New York : Simon and Schuster

An international team of experts describes the optical and electronic properties of semiconductors and semiconductor nanostructures at picosecond and femtosecond time scales. The contributions cover the latest research on a wide range of topics. In particular they include novel experimental techniques for studying and characterizing nanostructure materials. The contributions are written in a tutorial way so that not only researchers in the field but also researchers and graduate students outside the field can benefit.

[Do Travel Writers Go to Hell?](#) Penguin

To Mr. Tate Howard, You are quite possibly the most infuriating, annoying and grumpy man I've ever met in my life. I know you think that you're God's gift to women, but I have a secret to let you in on: you're not. You're God's gift to yourself. Get over your wanna-be cool surfer self and grow up. I thought it was time that someone addressed your big head and told you straight to your face that you're not all that. Just because you have an Ivy league education doesn't mean you're the smartest man in the world. In fact, I'm not even sure if you would have gotten in if you didn't have rich parents. Yes, I went there. Every woman doesn't want to sleep with you and I'm sure you're not even good in bed. And I'm someone that would know. From, *Your Secret Not Admirer*

[Of Men and Music](#) Scholarly Title

"A sweet, sexy read, featuring a couple that feels both true-to-life and aspirational." Kirkus Review, Starred Review American Angie Donovan has never wanted much. When you grow up getting bounced from foster home to foster home, you learn not to become attached to anything, anyone, or any place. But it only took her two days to fall in love with Australia. With her visa clock ticking, surely she can fall in love with an Australian—and get hitched—in two months. Especially if he's as hot and funny as her next-door neighbor... Jace Walters has never wanted much—except a bathroom he didn't have to share. The last cookie all to himself. And solitude. But when you grow up in a family of seven, you can kiss those things goodbye. He's finally living alone and working on his syndicated comic strip in privacy. Sure, his American neighbor is distractingly sexy and annoyingly nosy, but she'll be gone in a few months... Except now she's determined to find her perfect match by checking out every eligible male in the town, and her choices are even more distracting. So why does it suddenly feel like he—and his obnoxious tight-knit family, and even these two wayward dogs—could be exactly what she needs? Each book in the *Patterson's Bluff* series is STANDALONE: * *The Aussie Next Door* * *Her Aussie Holiday*

One cowboy, one bar, one hell of a holiday! Praise for Carolyn Brown's country music romances: "You won't want to miss this boot scootin' contemporary full of sexy cowboys and sassy women."—The Romance Studio (*My Give a Damn's Busted*) She means business... Sharlene Waverly is determined to have the "new and improved" Honky Tonk up and running before the holiday. For that, she'll need Holt Jackson, the best darn carpenter in the state. But his warm, whisky-colored eyes make her insides melt, and before she knows it, she's sharing her darkest secrets and talking about the nightmares... He's determined to keep things professional... Holt Jackson needs the job at the Honky Tonk, but is completely unprepared to handle the beautiful new bar owner he's working for. Sharlene and Holt try like crazy to deny the sparks flying between them, but their love may just be the best Christmas present either one of them ever got. Praise for *I Love This Bar*:

"Heart...sass...a lot of sparks and romance...country music. What more can I say? I really had fun with this book."—Red-Headed Book Child "Guaranteed to leave you countrified and satisfied!"—Love Romance Passion

How To Be A Complete and Utter Blunt Becca Jameson Publishing

This book presents the latest advances in ultrafast science, including both ultrafast optics technology and the study of ultrafast phenomena. It covers picosecond, femtosecond, and attosecond processes relevant to physics, chemistry, biology, and engineering applications. Ultrafast technology has a profound impact in a wide range of applications, among them biomedical imaging, chemical dynamics, frequency standards, materials processing, and ultrahigh-speed communications. This book summarizes the results presented at the 13th International Conference on Ultrafast Phenomena and provides an up-to-date view of this important and rapidly advancing field.

Process Validation in Manufacturing of Biopharmaceuticals, Third Edition delves into the key aspects and current practices of process validation. It includes discussion on the final version of the FDA 2011 Guidance for Industry on Process Validation Principles and Practices, commonly referred to as the Process Validation Guidance or PVG, issued in final form on January 24, 2011. The book also provides guidelines and current practices, as well as industrial case studies illustrating the different approaches that can be taken for successful validation of biopharmaceutical processes. Case studies include Process validation for membrane chromatography Leveraging multivariate analysis tools to qualify scale-down models A matrix approach for process validation of a multivalent bacterial vaccine Purification validation for a therapeutic monoclonal antibody expressed and secreted by Chinese Hamster Ovary (CHO) cells Viral clearance validation studies for a product produced in a human cell line A much-needed resource, this book presents process characterization techniques for scaling down unit operations in biopharmaceutical manufacturing, including chromatography, chemical modification reactions, ultrafiltration, and microfiltration. It also provides practical methods to test raw materials and in-process samples. Stressing the importance of taking a risk-based approach towards computerized system compliance, this book will help you and your team ascertain process validation is carried out and exceeds expectations.

A compassionate and illuminating enquiry into the reclusive Himalayan country of Nepal and its famous Living Goddess. Written after twelve years of research, this book is emotionally engaging and deeply felt.

Ultrafast Dynamical Processes in Semiconductors Thomas Nelson

China is the world's fastest-growing economic powerhouse. Everybody knows this. But behind the headlines a once-in-a-generation sexual and cultural revolution is taking place - all in the bars, cafes and streets of China's growing mega-cities. Welcome to this new China. Writer and journalist Jemimah Steinfeld meets the young people behind the world's fastest-moving nation to unveil their attitudes towards love, life and sexuality. Young Chinese have new words to describe the world they live in: 'little emperors' - single men who have grown up under the one child policy - they're bossy and selfish; 'bare branches' - those without children; 'leftovers' - women over twenty-six who aren't married; 'comrade' - how the gay community identifies itself; 'love markets' - weekend gatherings across China where parents attempt to find husbands and wives for their children, and others show up to match-make young singles and even offer boyfriends for hire. Jemimah Steinfeld introduces the people at the heart of this world, from the woman starting China's first online dating agency to the mistresses of the rich and powerful; from the company trying to sell sex toys to China's middle-classes to the sino-punks of Beijing's bar scene. *Little Emperors and Material Girls* is the book which will change the way you see China.

Are you passionate about Languages ? Do you Love Different Cultures? Are you good at your Job but can not remember everything? No Problem. This Notebook will help you remember it all! It comes with: - 110 Pages - 6 x 9 inch size - beautiful matte cover - simple yet elegant design An awesome Gift Idea for Birthdays, Christmas, Anniversaries, Graduation or any other present giving occasion.

Teaching Abby Simon and Schuster

It took all of thirty seconds for two shots to bring the world of Margaret Tabaaha crashing down around her. After losing her husband in Afghanistan during the first year of Operation Enduring Freedom, her two sons were all she had left. Now they had been taken from her violently, deliberately, plunging her into a whiskey bottle and stripping away her reason for living. When Arthur Nakai receives a call from his first love, Margaret, her voice pleading for his help, it comes as he is attending a wake for one of the men he considered a brother from his days in the Marines 6th LAR Wolf Pack Battalion. Feeling a deep and responsible obligation to help her, Arthur soon finds himself involved in the multi-billion-dollar world of the oil and gas industry and coming face-to-face with an old adversary, Elias Dayton. Their paths had crossed when Arthur was a member of the Shadow Wolves, an elite tactical unit within US Customs and Border Protection. Now Dayton runs Patriot Security, a Blackwater-type firm that keeps the oil rigs, gas wells, and man camps secure from the Water Protectors, protesters pushing to stop the fracking and poisoning of Native lands. As Arthur works through the case from his end, Navajo police chief Jake Bilagody tackles it from another angle, looking into the strained relationship between the oil company and the Navajo people, all while searching for a missing Navajo man that may have become an unwilling piece on the reservation checkerboard. But when Arthur learns the identity of the boys' killer, he struggles to make sense of it. Because if the clues are right, he will be forced to make a decision that will haunt him for the rest of his life.

[Ultrafast Phenomena XIV](#) Europa Editions

This book responds to the call for a clear description of the role of basic science in meeting societal needs. It gives examples of societal benefits of atomic, molecular, and optical (AMO) science in a number of key areas, including industrial technology, information technology, energy, global change, defense, health and medical technology, space technology, and transportation. This volume highlights the role of lasers in trapping, cooling, and manipulating individual atoms and molecules to make possible ultraprecise atomic clocks, structural engineering at the atomic level (nanotechnology), and new approaches to the study of deoxyribonucleic acid (DNA). AMO science is shown to be a field that is both an intellectually important basic science and a powerful enabling science that supports many other areas of science and technology.

A user's manual, a technical reference manual and a developer's manual, this is the only book that shows Amiga owners how to use the machine's disk operating system. All the available DOS commands and ways to utilize them on this new computer are covered in this book.

A History of Painting in Italy, Umbria, Florence and Siena, from the Second to the Sixteenth Century Mansion

It's a summer internship. Never mind that the owners are hot. Never mind that there are three of them. Never mind that they are twice her age. Never mind that they have a secret "play" room in the basement. Never mind that she's never been more intrigued in her life. She only has three months. No matter how deeply she gets involved, she can't stay...

Electron-Molecule Collisions National Academies Press

A los doce años, Nicholas Goering sobrevivió milagrosamente a un disparo en la cabeza perpetrado por su propio padre, después de que este matara a su madre y se suicidara sin motivo aparente. Veinticinco años más tarde, ahora convertido en un referente de la Patología Forense en el prestigioso hospital de la ciudad sajona de Heimstadt, el misántropo doctor tendrá que lidiar con el caso más extraño de su carrera: el cuerpo de su padre ha aparecido en perfecto estado de conservación colgado como en el día de su muerte y le han colocado los órganos internos de distintas personas. El recientemente ascendido y temperamental detective Matías Vandergelb, quien desprecia al patólogo, y la ambiciosa psiquiatra Angélica Grunnewald, quien, por el contrario, está obsesionada con él, serán los encargados de intentar resolver el rompecabezas humano en una carrera contrarreloj. *Memento Mori* es la primera entrega de la trilogía.

Molecular Symmetry and Group Theory John Wiley & Sons

A London graphic designer is suddenly forced to take over his South Asian family's convenience store in this "hugely enjoyable" novel (The Sunday Express). "Sathnam Sanghera's witty first novel chronicles three generations of a Punjabi Indian family in England. After his father dies, Arjan Banga, a graphic designer in London, returns to the dreary West Midlands to help run the family convenience store. The move causes tension with his white fiancée, Freya, whom his mother regards with passive-aggressive disapproval. Arjan must explain to customers that 'as a Sikh I was not expected to marry my cousin or join Al Qaeda' and smile politely at their interpretations of his name ('Mind if I call you Andy?'). Torn between familial duty and the freedom he enjoys in London, he gains unlikely clarity from his dimwitted friend Ranjit—a pot-smoking devotee of Steven Seagal

movies, Xbox and hip-hop. Arjan's woes are comic, but the novel's depth is evident as it sheds light on the economic and political struggles of immigrants." —The New York Times From an author whose work has been shortlisted for Costa and PEN Awards, this novel about a man trapped between British and Punjabi culture is "filled with details of the lives of Sikhs from the late '60s to the riots of 2011. The divisions within the Sikh population are poignantly and comically captured in the protests against the Wolverhampton Transport Department's ban on turbans" (Los Angeles Review of Books). "Sanghera's precise, hilarious rendition of voices and cultural details is the signal pleasure of a novel rich in humor, history, and heart." —Kirkus Reviews (starred review)

El Patólogo. Parte I: Memento Mori L.D. Hall

'Opinions are like arseholes - everybody has one' James Blunt, 6 December 2014 Once upon a time, James Blunt's most enduring legacy was a three-minute, thirty-second pop song about a girl he saw on the underground, and a nation's worth of abuse. But with the invention of Twitter, James found his real voice, and with it, the chance to reply with a simple 'up yours'. Now the King of Twitter has ascended to the heady heights of occasionally 'winning the internet'. Selected and introduced by James himself, this is a year in the life of the world's most reluctant social media sensation. Now learn for yourself how to be a complete and utter Blunt . . .

Death Waits in the Dark Sourcebooks, Inc.

This substantially revised and expanded new edition of the bestselling textbook, addresses the difficulties that can arise with the mathematics that underpins the study of symmetry, and acknowledges that group theory can be a complex concept for students to grasp. Written in a clear, concise manner, the author introduces a series of programmes that help students learn at their own pace and enable them to understand the subject fully. Readers are taken through a series of carefully constructed exercises, designed to simplify the mathematics and give them a full understanding of how this relates to the chemistry. This second edition contains a new chapter on the projection operator method. This is used to calculate the form of the normal modes of vibration of a molecule and the normalised wave functions of hybrid orbitals or molecular orbitals. The features of this book include: * A concise, gentle introduction to symmetry and group theory * Takes a programmed learning approach * New material on projection operators, and the calculation of normal modes of vibration and normalised wave functions of orbitals This book is suitable for all students of chemistry taking a first course in symmetry and group theory.
