When eight-year-old Irene is removed from her First

Nations family to live in a residential school she is confused, frightened, and terribly homesick. She tries to remember who she is and where she came from, despite the efforts of the nuns who are in charge at the school and who tell her that she is not to use her own name but instead use the number they have assigned to her. When she goes home for summer holidays, Irene's parents decide never to send her and her brothers away again. But where will they hide? And what will happen when her parents disobey the law? Based on the life of co-author Jenny Kay Dupuis' grandmother, I Am Not a Number is a hugely necessary book that brings a terrible part of Canada's history to light in a way that children can learn from

and relate to.

Mother Father Child Success! Say No to the Compatibility Trap Little Brown & Company

Describes some of the various times when one should or should not say "No," and explains how to say "No" nicely when that is the right thing to say *We Say NO!* Xlibris Corporation
Daddy always says 'No', especially when each child wants to do their own thing. However, they learn along the way that 'No' is not always negative, but instead one of the most protective and loving words a parent can say to their children. This book is specifically for fathers who say no to their children with the utmost affection and care. Often, even today, there are so many books about

mothers that we often forget about the other parent who is just as loving and important as the other. Here is to the father that appears unfair in the child's eyes.

Through each silhouette, your child will be able to associate themselves in each pictured situation, creating a stronger bond when this book is read from father to child.

'NO' is RJ's least favorite word . . . and he tries his best to convince his dad, his mom, and his teacher to turn "No" into "Maybe" or "We'll see" or "Later" or "I'll think about it."

Author Julia Cook helps K-6 readers laugh and learn along with RJ as he understands the benefits of demonstrating the social skills of accepting "No" for an answer and disagreeing appropriately. Tips for parents and educators on how to teach and encourage kids to use these skills are included in the book. *I Just Don't Like the Sound of NO!* is another in the BEST ME I Can Be! series of books from the Boys Town Press that teach children social skills.

Say 'NO' to Strangers Macmillan
 Saying 'no' often seems very difficult. There is an unspoken rule that if you are a polite and sensitive person, this is not something you do. But while saying 'no' is almost always harder than saying 'yes', it is a vital part of loving relationships. Saying No looks at the developing child within the family and addresses the process of setting limits. Asha Phillips writes as both a child psychotherapist and a mother, using case examples as well as informal anecdotes from family and friends as illustrations. She believes that by increasing our awareness of what drives our actions, we gain more choice. She strips away

the the negative associations surrounding the word 'no' and celebrates change and movement as essential ingredients in development.

 "A Rule Is To Break says: Go ahead and throw your best self a party! So glad it exists."—Kristin Hersh, *Throwing Muses* "After encountering the lively little anarchist in John and Jana's delightful *A Rule is To Break*, I will always remember the playful little devil with a mind of her own. A children's book on anarchy seems somehow just right: an instinctive, intuitive sense of fairness, community, and interdependence sits naturally enough with a desire for participatory democracy, self-determination, and peace and global justice."—Bill Ayers, author of *To Teach: The Journey in Comics and Fugitive Days* Simply celebrating childhood: the joy, the wonder of discovery, the spontaneity, and strong emotions. . . . *Wild Child* is free to do as she pleases. *A Rule Is To Break: A Child's Guide to Anarchy* follows *Wild Child* as she learns about just being herself and how that translates into kid

autonomy. It presents the ideas of challenging societal expectations and tradition and expressing yourself freely in kid-terms that are both funny and thought provoking—it even functions as a guidebook for adults to understand what it is to be a critically thinking, creative individual. Wild Child is the role model for disobedience that is sometimes civil. I Can Say No
 An invaluable book that does for parents and their young children what *You Just Don't Understand* did for men and women. Did you know that when you say "How many times have I told you not to?" your toddler thinks you are actually changing the subject rather than reiterating a question? Based on years of clinical experience and original child development research, *What Did I Just Say!?!* shows how conventional communication styles actually prevent parents from saying what they mean and cause children

to hear something entirely different than what was intended. The authors demonstrate how a simple understanding of the logic of language and of childhood thinking can dramatically improve parent-child communication. Among the subjects covered are understanding the complex experiential world of young children; putting structure, rules, and boundaries into children's lives while still fostering individuality; encouraging healthy emotional responsiveness and interpersonal sensitivity while decreasing anger and aggression; focusing a child's attention; and foiling behaviors such as tuning out and forgetting. By helping parents understand the very different linguistic and experiential world of children, *What Did I Just Say!?!* offers a foundation for parent-child communication that will last a lifetime.

We Can Say No

Independently Published
 The word "No" is the most overused word in parenting--a small word that carries big emotional consequences. Saying "No" too frequently to infants can diminish their enthusiasm and curiosity; it can also make toddlers feel powerless and unable to control themselves. This book reveals other ways to say "No" and new ways to build trust between parent and child.

We Can Say No!

What will Sue do when a stranger approaches her at home? Can she be strong enough to stand her ground? Does she know what to say and why she should get away? The difference it would make to the outcome of a negative situation if a child could follow the steps successfully and get help quickly would be huge compared to a child who was scared and alone and had no idea what to do, then having to carry the burden of the outcome. Children need sufficient time to learn until the steps are embedded in their minds and proven to be perfected. This can be done with the Sue Series books. We must never assume a child can cope

with a situation unless this is the case. Read Sue's story to teach your child the importance of knowing when and how to deal with a 'stranger danger' situation and whether someone else could be in danger, and how to be brave, smart and strong, just like Sue in the story. The Sue Series books are fun and a great tool for embedding into a child the steps of what to do until they can remember those steps automatically. By reading the Sue Series stories your child will learn the meaning of important words such as 'trust', 'self worth' and 'aware', along with what the roles of carers and parents, teachers, emergency workers and the community are - that those people are there to help them. Sue shows us the importance of being aware and how that helps others help deal with vital things such as the possible location and description of a stranger. The child also learns what to do when someone in a car approaches them. Simple scenarios and examples are given throughout the book to help us explain to a child at their level, so that they are comfortable listening to the story and the

explanations and feel confident physically contributing to the play-acting lessons on a regularly basis. *It's ok to say, No to your child* Free Spirit Publishing Form a smiling mob and join together in celebrating love, friendship, kindness, and compassion for others as we resist tyranny! *Fearless Feeding Wee Rebels* A guide by two pediatricians who have raised eight children together discusses self-esteem, spanking, divorce, single parenting, travel, and baby-sitting, and offers advice on how to prevent, as well as stop, problem behavior. Tour. *Say No! and Tell!* National Center for Youth Issues A story that helps teach young children that it's okay to say no. Feeling empowered to say no is a key foundation of consent. *We Can Say No* builds children's social and emotional skills and helps teach them that it's okay to say no. The fifth book in the We Say What's Okay series, *We Can Say No* follows Zakiya and Sami as they learn that their bodies, including their hair, belong to them and that no one should touch them

without permission. Using the book as a read-aloud, educators and families can model the language Zakiya and Sami's teacher uses to support them. The author, who hosts workshops and trainings on teaching boundaries and consent for families and early childhood educators around the country, offers additional activities in the back of the book. Digital content includes a song from Peaceful Schools with downloadable audio files and sheet music. *We Say What's Okay Series* Centered around a class of preschoolers, this series helps teach young children the social and emotional skills they need to understand the complexities of consent. Each book covers a consent theme, such as how to recognize the physical sensations that emotions create, look for body language cues, ask for and listen to choices, and know that our bodies have value. With believable, everyday situations and diverse characters, children can see themselves and others reflected in each story—and develop a vocabulary to communicate consent and feelings. Every book in the series is accompanied by

its own song from
