The discovery of the Dead Sea Scrolls, the Nag Hammadi texts, and new Targums has greatly increased scholarly interest in the relationship between the New Testament and first-century Judaism. This critically acclaimed study by Richard Longenecker sheds light on this relationship by

exploring the methods the earliest Christians used to interpret the Old Testament. By comparing the first Christian writings with Jewish documents from the same period, Longenecker helps to discern both the key differences between Christianity and Judaism and the Judaic roots of the Christian faith. This revised edition of Biblical Exegesis in the Apostolic Period brings

Longenecker's valued work up to date with current research in this important field of study. A perfect companion to all science courses."-- Michael Shermer, publisher of *Skeptic* magazine and author of *Why Darwin Matters*. "An excellent

contribution on a vital issue which concerns not only geologists, but all who value any science."-- Mark Isaak, author of *The Counter-Creationism Handbook* *The Outlook* SAGE Publications Focusing on dramatic criticism, this book explores the self authorizing strategies of writers such as Jonson, Dryden, Aphra Behn, Thomas Rymer, Jeremy Collier and Joseph Addison. Cannan

focuses on how they established themselves as critics, and paved the way for the birth of dramatic criticism in seventeenth and early eighteenth-century England. *War: How Conflict Shaped Us* Univ of California Press One of the pastoral problems of religiosity in Slovakia today is that contemporary Christianity is pervaded by nihil-inclinations. Such

inclinations manifest themselves in the loss of orientation and meaning, and a disinterest in Christianity, which has by and large remained on a doctrinal, moralistic, and ritual level without offering a constructive faith response to the 'signs of the times'. This dissertation argues that nihilism is not an entirely negative or morose concept that leaves behind a void or abyss without

values, rendering this world meaningless. Nihilism as such is not an absolute (demonizing) danger; rather, it is the failure to adequately engage it that constitutes the pro-nihilizing threat. My analysis of nihilism begins with Nietzsche. In analyzing his texts, I propose my own interpretation of his nihilism. Because of the tensive state of Nietzsche's nihilism, which

on the one hand lacks a firm ground of higher values, and on the other, exhibits a recurring tendency to return to these values, I refer to this state as 'nihilism-in-tension'. I suggest that 'nihilism-in-tension' may be conceived as the condition of thought that bears some resemblance to divine kenosis. I argue that kenosis is an appropriate epistemological instrument to disclose the mechanism or

unknown function working within 'nihilism-in-tension', and may be described through a transformative kenotic formula ('pro-kenotic-nihil'). To reveal this mechanism, I employ the experiential theory of the sublime as the vantage point from which to uncover the inner constituents of kenosis and 'nihilism-in-tension'. Here I argue that the event which imparts transformative meaning to 'nihilism-in-

tension' is the radical imitation of the deepest Christian mystery exemplified in the kenotic life of Christ. This may be expressed in the following formula: nihil and its kenotic radicalization (maximization of nihilism) = annihilation of nihil (negation of nihilism). To apply this mechanism to ecclesial life, I introduce the nada of John of the Cross and the "weak thought" of Gianni Vattimo as two modalities,

spiritual and philosophical, that can translate the postmodern condition of 'nihilism-in-tension' into a practical pursuit of wisdom and right relationship. The former transmutes the nihil of 'nihilism-in-tension' from nada to todo, or from self-emptying to union with the divine. The latter transforms the nihil of 'nihilism-in-tension' through the philosophy of "weak thought,"

which calls for tentative and non-foundational modes of thought and a weakening of immutable structures. I demonstrate that nada and “weak thought” are appropriate instruments for “weakening” authoritarian church structures and reinterpreting (or rewriting) the tradition in kenotic, inclusive, and dialogical forms. This study demonstrates that the kenotic movement of

the nihil of 'nihilism-in-tension' into the nihil of kenosis, or fructifying todo, is a potential pastoral instrument to address the problem of nihil-inclinations in the religious context of Slovakia. It attempts to give some orientation to the local Church by raising awareness of its kenotic origins, and offering its theological, spiritual, and philosophical apparatus to approach the

problem. Abraham Joshua Heschel U of Nebraska Press Vols. for 1898-1968 include a directory of publishers.

Thomas Nelson In this first one-volume English-language full biography of Abraham Joshua Heschel, Edward K. Kaplan tells the engrossing, behind-the-scenes story of the life, philosophy, struggles,

yearnings, writings, and activism of one of the twentieth century's most outstanding Jewish thinkers. Kaplan takes readers on a soulful journey through the rollercoaster challenges and successes of Heschel's emotional life. As a child he was enveloped in a Hasidic community of Warsaw, then he went on to explore secular Jewish Vilna and cosmopolitan Berlin. He improvised

solutions to procure his doctorate in Nazi-dominated Berlin, escaped the Nazis, and secured a rare visa to the United States. He articulated strikingly original interpretations of Jewish ideas. His relationships spanned not only the Jewish denominational spectrum but also Catholic and Protestant faith communities. A militant voice for nonviolent social action,

he marched with Martin Luther King Jr. (who became a close friend), expressed strong opposition to the Vietnam War (while the FBI compiled a file on him), and helped reverse long-standing antisemitic Catholic Church doctrine on Jews (participating in a secret meeting with Pope Paul VI during Vatican II). From such prodigiously documented stories Heschel himself

emerges—mind, heart, and soul. Kaplan elucidates how Heschel remained forever torn between faith and anguish; between love of God and abhorrence of human apathy, moral weakness, and deliberate evil; between the compassion of the Baal Shem Tov of Medzibozh and the Kotzker rebbe's cruel demands for truth. "My heart," Heschel acknowledged, is "in Medzibozh,

my mind in Kotzk." The Emergence of Dramatic Criticism in England MacMillan Imagine being able to sit down with Billy Graham and ask him for advice. Wm. B. Eerdmans Publishing I jumped at the chance to shepherd this collection. This was personal for me. In the past, when I had prepared to teach courses on political leadership, I had come up with a dearth of recent scholarly attention to the topic. Perhaps my perspective on politics and leadership exacerbated the difficulty of my search. I had in mind a politics that touched all

aspects of power and authority in our lives (not just government), encouraged the moral imagination, and affirmed human agency that could make the future better than the present. I searched with limited success for material that would explain how all of us shape and are shaped by politics. My perspective on leadership may have also hindered my search. I had in mind the simple notion

of taking initiative on behalf of shared values. I found too little material about leadership that extended beyond the spectacle of authority and its assumption of hierarchy. I wanted to explain that each of us, regardless of our place in a hierarchy, has a calling to lead - to act on behalf of our moral imagination. Editing this volume permitted me the chance to develop the material I sought. I (as

well as other teachers) no longer have a shortage of material relating politics and leadership with each other. From the Introduction

NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES  
BOOK REVIEW  
“Margaret MacMillan has produced another seminal work. . . . She is right that we must, more than ever,

think about war. And she has shown us how in this brilliant, elegantly written book.”—H.R. McMaster, author of *Dereliction of Duty* and *Battlefields: The Fight to Defend the Free World*  
The instinct to fight may be innate in human nature, but war—organized violence—comes with organized society. War has shaped humanity’s history, its social and political

institutions, its values and ideas. Our very language, our public spaces, our private memories, and some of our greatest cultural treasures reflect the glory and the misery of war. War is an uncomfortable and challenging subject not least because it brings out both the vilest and the noblest aspects of humanity. Margaret MacMillan looks at the ways in which war has

influenced human society and how, in turn, changes in political organization, technology, or ideologies have affected how and why we fight. *War: How Conflict Shaped Us* explores such much-debated and controversial questions as: When did war first start? Does human nature doom us to fight one another? Why has war been described as the most organized of all human activities? Why are warriors

almost always men? Is war ever within our control? Drawing on lessons from wars throughout the past, from classical history to the present day, *MacMillan* reveals the many faces of war—the way it has determined our past, our future, our views of the world, and our very conception of ourselves.

*In Defense of the Bible*  
 gathers

exceptional articles by accomplished scholars (Paul Copan, William A. Dembski, Mary Jo Sharp, Darrell L. Bock, etc.), addressing and responding to all of the major contemporary challenges to the divine inspiration and authority of Scripture. The book begins by looking at philosophical and methodological challenges to the Bible—questions about whether or not

it is logically possible for God to communicate verbally with human beings; what it means to say the Bible is true in response to postmodern concerns about the nature of truth; defending the clarity of Scripture against historical skepticism and relativism. Contributors also explore textual and historical challenges—charges made by Muslims, Mormons, and

skeptics that the Bible has been corrupted beyond repair; questions about the authorship of certain biblical books; allegations that the Bible borrows from pagan myths; the historical reliability of the Old and New Testaments. Final chapters take on ethical, scientific, and theological challenges—demonstrating the Bible’s moral integrity regarding the topics of slavery and sexism;

harmonizing exegetical and theological conclusions with the findings of science; addressing accusations that the Christian canon is the result of political and theological manipulation; ultimately defending the Bible as not simply historically reliable and consistent, but in fact the Word of God. New Perspectives in World History New Inspiration takes all the

best elements of the original course and adds some exciting new characteristics perfect for motivating and challenging teenage students.
