Mari Magno Or Tales on Board MIT Press (MA)

From the writer who shocked and delighted the world with his novels Lolita, Pale Fire, and Ada, or Ardor, and so many others, comes a magnificent collection of stories. Written between the 1920s and 1950s, these sixty-five tales--eleven of which have been translated into English for the first time--display all the shades of Nabokov's imagination. They range from sprightly fables to bittersweet tales of loss, from claustrophobic exercises in horror to a connoisseur's samplings of the table of human folly. Read as a whole, The Stories of Vladimir Nabokov offers and intoxicating draft of the master's genius, his devious wit, and his ability to turn

language into an instrument of ecstasy.

Lords and Peasants in a Changing Society is a history of the large Church estate of Worcester from its foundation until the Reformation, and is a full-length study of an estate centred in the West Midlands. The medieval bishops of Worcester were landed magnates with manors scattered over three counties, from the outskirts of Bristol to north Worcestershire. This study uses the plentiful records of the bishopric to define and explain long-term social and economic changes in this section of the medieval countryside. Attention is divided equally between the economy of the lords and developments among the peasantry of the estate. In dealing with the lords, consideration is given to the political and social pressures that led to the increase and subsequent loss of land in the estate

during the early Middle Ages; the formulation of management policies, particularly in the difficult years after the setbacks of the fourteenth century; and the relationship between income and expenditure.

When the dazzlish spirit-being appeared to him during his morning meditation, Will Baron thought it was Jesus Christ. He was wrong. Deceived by the New Age is unlike any book you've read about the New Age movement. It is the chilling firsthand account of Will Baron's life as a New Age Priest. Of shocking encounters with a false Jesus. And of a master plot to infiltrate Christian Churches with "another gospel". More than a testimonial, Deceived is an urgent warning to Christians that the "Mastermind" behind this movement is preparing to unleash the greatest deception ever to confront humankind. Currently residing in southern California, Will Baron believes his mission is to warn people of New Age philosophies and practices that are beginning to infiltrate Christianity. His story has been aired on more than 800 radio stations though syndicated talk shows, numerous televised

interview programs, and on Pat Robertson's "700 Club. - Introduction. The New Age Enticement of Christians. Seduced by Physic Power. Learning the Art of Channeling. The Higher Self Takes Control. The field of financial econometrics has exploded over the last decade This book

represents an integration of theory, methods, and examples using the S-PLUS statistical modeling language and the S+FinMetrics module to facilitate the practice of financial econometrics. This is the first book to show the power of S-PLUS for the analysis of time series data. It is written for researchers and practitioners in the finance industry, academic researchers in economics and finance, and advanced MBA and graduate students in economics and finance. Readers are assumed to have a basic knowledge of S-PLUS and a solid grounding in basic statistics and time series concepts. This Second Edition is updated to cover S+FinMetrics 2.0 and includes new chapters on copulas, nonlinear regime switching models, continuous-time financial models, generalized method of moments, semi-nonparametric conditional density models, and the efficient method of moments. Eric Zivot is an associate professor and Gary Waterman Distinguished Scholar in the Economics Department, and adjunct associate professor of finance in the Business School at the University of Washington. He regularly teaches courses on econometric

theory, financial econometrics and time series econometrics, and is the recipient of the Henry T. Buechel Award for Outstanding Teaching. He is an associate editor of *Studies in Nonlinear Dynamics and Econometrics*. He has published papers in the leading econometrics journals, including *Econometrica*, *Econometric Theory*, the *Journal of Business and Economic Statistics*, *Journal of Econometrics*, and the *Review of Economics and Statistics*. In *The Evolution of Western Private Law*, renowned legal scholar Alan Watson presents a comprehensive overview of legal change in the Western world. Watson explains why and how such change occurs in mature systems, in underdeveloped systems, and when legal systems of different levels of sophistication and from different societal roots—such as those of the Romans and of Germanic tribes—come into contact. Originally intended as a second edition of the author's widely acclaimed *The Evolution of Law* (1985), this expanded edition has been completely restructured with more than double the number of examples. The result is a work that incorporates all the ideas that Watson has put forward during his twenty-five years studying comparative law and the development of legal systems, combining a remarkable range of sources with superb insight.

Security has become a defining feature of contemporary public discourse, permeating the so-called 'war on terror', problems of everyday crime and disorder, the reconstruction of 'weak' or 'failed' states and the dramatic renaissance of the private security industry. But what does it mean for individuals to be secure, and what is the relationship between security and the practices of the modern state? In this timely and important book, Ian Loader and Neil Walker outline and defend the view that security remains a valuable public good. They argue that the state is indispensable to the task of fostering and sustaining liveable political communities in the contemporary world and thus pivotal to the project of civilizing security. This is a major contribution by two leading scholars in the field and will be of interest to anyone wishing to deepen their understanding of one of the most significant and pressing issues of our times.

In this stylistically adventurous, brilliantly funny tour de force—the most highly acclaimed debut since Nathan Englander's—Aleksander Hemon writes of love and war, Sarajevo and America, with a skill and imagination that are breathtaking. A love affair is experienced in the blink of an eye as the Archduke Ferdinand watches his wife succumb to an assassin's bullet. An exiled writer, working in a sandwich shop in Chicago, adjusts to the absurdities of his life. Love letters from war-torn Sarajevo navigate the art of getting from point A to point B without being shot. With a surefooted sense of detail and life-saving humor, Aleksandar Hemon examines the overwhelming events of history and the effect they have on individual lives. These heartrending stories bear the unmistakable mark of an important new international writer.

**Balkan Family Structure and the European Pattern** Financial

Times/Prentice Hall

This study, which is an updated, extended, and revised version of the out-of-print 1993 edition, reassesses the traditional stereotype of the place of the Balkans in the model of the European family in the nineteenth century on the basis of new source material and by synthesizing existing research. The work first analyzes family structure and demographic variables as they appear in population registers and other sources, and the impact of these findings on theoretical syntheses of the European family pattern. On most features, such as population structure, marriage and nuptiality, birth and fertility, death and mortality rates, family and household size and structure, as well as inheritance patterns, the Balkans show an enormous deal of internal variety. This variability is put in a comparative European context by

matching the quantifiable results with comparable figures and patterns in other parts of Europe. The second section of the book is a contribution to the long-standing debate over the zadruga, the complex, collective, joint or extended family in the Balkans. Finally, the book considers ideology and mythology and the ways it has adversely affected scholarship on the family, and broadly on population history. 'Spring in Fialta is cloudy and dull'. With his senses wide open, Victor wanders the streets. He meets Nina. Again. For fifteen years, their fleeting, chance encounters have made Nina a faint but constant presence in the margins of his life. As they happen upon one another once again, his mind wanders back into the past and relives each brief memory: their kiss in Russia, when she met his wife, when he met her husband, their affair in Paris. Each time she captivated him, each time she seemed to almost forget him, each time he noticed a lurking sense of apprehension that began to grow.
