From Flagpole Sitting to Hot Cockles,</p>	<p>Edward Brooke-Hitching has researched through piles of dusty tomes to bring vividly back to life some of the most curious, dangerous and downright bizarre sports and pastimes that mankind has ever devised, before thinking better of it and erasing it from the memory. After all, who would ever want to bring back Fox Tossing, a popular sport for men and women in 17th-century</p>	<p>Germany? As the name suggests, it would involve dozens of couples pairing up and standing 20-25 feet apart in an enclosed field, each holding one end of a net, and then they would pull hard at both ends as the fox ran past, sending it flying high into the air. There are many other sports revealed within these pages that are unlikely ever to make an appearance on our TV screens, such</p>

as Firework Boxing, which is just as dangerous as it sounds. Meanwhile, Ski Ballet may not have been so risky, but Suzy 'Chapstick' Chaffee's signature move - the Suzy Split (a complete forward split while balanced on the tips of her skis) - was probably not one to try at home. An intriguing, entertaining and occasionally shocking insight into the vivid imaginations

of mankind across the years, Fox Tossing, Octopus Wrestling and Other Forgotten Sports is an unforgettable read.

These afterworlds are illustrated with an unprecedented collection of images, ranging from the marvellous 'infernal cartography' of the European Renaissance artists attempting to map the structured Hell described by Dante and the decorative Islamic depictions of

Paradise to the various efforts to map the Garden of Eden and the spiritual vision paintings of nineteenth-century mediums. The Devil's Atlas accompanies beautiful images with a highly readable trove of surprising facts and narratives, from the more inventive torture methods awaiting sinners, to colourful eccentric catalogues of demons, angels and assorted death deities.

A traveller's guide to worlds unseen, The Devil's Atlas is a fascinating study of the boundless capacity of human invention, a visual chronicle of man's hopes, fears and fantasies of what lies beyond.

 Debate over the meaning of 'Enlightenment' began in the eighteenth century and has continued

unabated until our own times. This period saw the opening of arguments on the nature of man, truth, on the place of God, and the international circulation of ideas, people and gold. Did the Enlightenment mean the same for men and women, for rich and poor, for Europeans and non-Europeans? In the second edition of her book, Dorinda Outram addresses these, and other questions

about the Enlightenment . She studies it as a global phenomenon, setting the period against broader social changes. This new edition offers a fresh introduction, a new chapter on slavery, and new material on the Enlightenment as a global phenomenon. The bibliography and short biographies have been extended. This accessible synthesis of scholarship will prove invaluable reading to

students of eighteenth-century history, philosophy, and the history of ideas. *How to Be an Explorer of the World* Chartwell Books From the internationally bestselling creator of *Wreck This Journal*, an interactive guide for exploring and documenting the art and science of everyday life.
