The Yalom Reader Basic Books

First published in 1967, *Writing and Difference*, a collection of Jacques Derrida's essays written between 1959 and 1966, has become a landmark of contemporary French thought. In it we find Derrida at work on his systematic deconstruction of Western metaphysics. The book's first half, which includes the celebrated essay on Descartes and Foucault, shows the development of Derrida's method of deconstruction. In these essays, Derrida demonstrates the traditional nature of some purportedly nontraditional currents of modern thought—one of his main targets being the way in which "structuralism" unwittingly repeats metaphysical concepts in its use of linguistic models. The second half of the book contains some of Derrida's most compelling analyses of why and how metaphysical thinking must exclude writing from its conception of language, finally showing metaphysics to be constituted by this exclusion. These essays on Artaud, Freud, Bataille, Hegel, and Lévi-Strauss have served as introductions to Derrida's notions of writing and difference—the untranslatable formulation of a nonmetaphysical "concept" that does not exclude writing—for almost a generation of students of literature, philosophy, and psychoanalysis. *Writing and Difference* reveals the unacknowledged program that makes thought itself possible. In analyzing the contradictions inherent in this program, Derrida goes on to develop new ways of thinking, reading, and writing,—new ways based on the most complete and rigorous understanding of the old ways. Scholars and students from all disciplines will find *Writing and Difference* an excellent introduction to perhaps the most challenging of contemporary French thinkers—challenging because Derrida questions thought as we know it.

Creatures of a Day Basic Books

"The publication of *Creatures of a Day* is reason to celebrate." -- Steven Pinker In this stunning collection of stories, renowned psychiatrist Irvin D. Yalom describes his patients' struggles -- as well as his own -- to come to terms with the two great challenges of existence: how to have a meaningful life yet reckon with its inevitable end. We meet a nurse who must stifle the pain of losing her son in order to comfort her patients' pains, a newly

minted psychologist whose studies damage her treasured memories of a lost friend, and a man whose rejection of psychological inquiry forces even Yalom himself into a crisis of confidence. *Creatures of a Day* is a radically honest statement about the difficulties of human life, but also a celebration of some of the finest fruits -- love, family, friendship -- it can offer. Marcus Aurelius has written that "we are all creatures of a day." With Yalom as our guide, we will find the means to make our own day not only bearable, but also meaningful and joyful.

**Science and Civilization in Islam** Harper Collins

From the internationally bestselling author of *Love's Executioner* and *When Nietzsche Wept*, comes a novel of group therapy with a cast of memorably wounded characters struggling to heal pain and change lives Suddenly confronted with his own mortality after a routine checkup, eminent psychotherapist Julius Hertzfeld is forced to reexamine his life and work -- and seeks out Philip Slate, a sex addict whom he failed to help some twenty years earlier. Yet Philip claims to be cured -- miraculously transformed by the pessimistic teachings of German philosopher Arthur Schopenhauer -- and is, himself, a philosophical counselor in training. Philip's dour, misanthropic stance compels Julius to invite Philip to join his intensive therapy group in exchange for tutoring on Schopenhauer. But with mere months left, life may be far too short to help Philip or to compete with him for the hearts and minds of the group members. And then again, it might be just long enough.
