before being freed. Twelve Years a Slave is Northup's moving memoir, revealing unimaginable details of the horrors he faced as a slave on Southern plantations, and his unshakable belief that he would return home to his family. Written in the year after Northup was freed and published in the wake of Harriet Beecher Stowe's Uncle Tom's Cabin, Northup's story was quickly taken

up by abolitionist groups and news organizations as part of the fight against slavery, and continues to resonate more than a century after the end of the American Civil War.

 Set in the 1860s, The Leopard tells the

spellbinding story of a decadent, dying Sicilian aristocracy threatened by the approaching forces of democracy and revolution. The dramatic sweep and richness of observation, the seamless intertwining of public and private worlds, and the grasp of human frailty imbue The Leopard with its particular melancholy beauty and power, and place it among the greatest

historical novels of our time. Although Giuseppe di Lampedusa had long had the book in mind, he began writing it only in his late fifties; he died at age sixty, soon after the manuscript was rejected as unpublishable. In his introduction, Gioacchino Lanza Tomasi, Lampedusa's nephew, gives us a detailed history of the initial publication and the various editions that followed. And

he includes passages Lampedusa wrote for the book that were omitted by the original Italian editors. Here, finally, is the definitive edition of this brilliant and timeless novel. Opuscoli Morali ... Tradotti & parte corretti da Cosimo Bartoli Franco Maria Ricci
Romanzo ambientato in Sicilia, a Montelicono, tra i monti Nebrodi e le spiagge di Oliveri e Marinello, sulla costa Nord della provincia di Messina. Il protagonista principale è uno strano personaggio che incarna delirio e follia che, con la sua fervida

immaginazione, sarà in grado di sconvolgere la vita di qualcuno ritenuto normale. La storia, impregnata di mistero e folklore, si dipana tra due racconti paralleli distanziati 30 anni tra loro. I luoghi sono tutti reali tranne la cittadina di Montelicono che, però, ha le caratteristiche tipiche di alcuni importanti centri della zona.

This book highlights the use of historical data in natural hazard assessments. Different types of data, such as historical data from written documents, are linked to technically measured data such as stream gauge height and consequently river discharge in order to archive new possibilities of probability determination

of respective hazardous processes. In addition, this book strengthens this interdisciplinary approach through the application to different processes of earthquakes, floods, and landslides. Based on worldwide examples, the book introduces how various disciplines address the use of historical data in their respective analysis. These studies might give suggestions of

new approaches in their own field derived from applications shown by other disciplines. Audience: This volume is of particular interest to professionals interested and involved in natural hazard assessments, working at research institutions and organisations, large and small scale enterprises, governmental agencies as well as private personnel. However, also advanced students

might find the book helpful in addressing specific issues raised in natural hazard courses.
