Churchill Livingstone

For students preparing for the FPGEE exam.

Pass the Preregistration Pharmacy Exam  
Delmar Pub

A revision book to help pharmacist students prepare for the pre-registration exam of the Royal Pharmaceutical Society of Great Britain (RPSGB) and other similar exams. It consists of over 400 multiple choice questions (MCQs), with explanatory answers, as well as an introductory chapter on exam preparation and four useful appendixes of abbreviations and symbols used in pharmacy. All the MCQs are written in the same style as the RPSGB pre-registration exam. The topics covered are core aspects of any pharmacy curriculum, making the book suitable for pharmacy students preparing for undergraduate exam and similar pre-registration exams in all parts of the world. Over 400 multiple-choice questions cover all the topics in the pre-registration exam of the RPSGB. All questions are written in the style of the RPSGB exam. Four types of multiple-choice questions are given, covering all three parts of the pre-registration RPSGB - all in the same style as the exam. Questions are grouped according to core pharmacy topics. Explanations are thorough and helpful. Four appendices provide helpful summaries of abbreviations and symbols used in pharmacy.

Pass The Pharmacist Registration Exam has been specifically written following the GPhC registration exam framework. This volume incorporates over two and a half pharmaceutical calculation mock exams. Comprised of over 100 calculation questions, which covers all of the high weighted areas in the mathematics

section of the registration assessment, extended matching questions, single best questions. The book incorporates pharmaceutical calculations based on clinical patient case studies that enables you to revise various areas of pharmacy practice and relate them to real life scenarios - as you may encounter in the GPhC assessment. You may use relevant reference sources to enable you to revise for your exam. All the questions follow the most current treatment guidelines at the time of writing. Each section contains worked examples and sample questions and have been incorporated to enhance your learning and develop your pharmacy ethics knowledge. Questions should be practised under timed conditions. Pharmacy OnBoard has a panel of successful UK registered, practising pharmacists who each have invaluable experience in the training of pharmacists over the last decade. Each question has been carefully designed to test your knowledge and challenge your potential. Pharmacy OnBoard endeavours this to be used as a comprehensive revision aid, by pharmacy students and pharmacists to gain success.

The regulation of pharmacy technicians in Canada has led to an expanded scope of practice. Despite some variations from jurisdiction to jurisdiction, the core nine competencies of pharmacy technicians practice identified by the National Association of Pharmacy Regulatory Authorities (NAPRA) remain consistent nationally. In order to become regulated (certified) a pharmacy technician must satisfy the requirements of the Pharmacy Examining Board of Canada (PEBC) by completing successfully the Qualifying Exam divided in Part 1: MCQ (questions) and Part 2: OSPE (stations) to ensure pharmacy technicians have the necessary entry-level professional knowledge, skills and abilities to work effectively and safely within their scope of practice. The following core nine competencies of pharmacy technician practice, represent the keystones of the Qualifying Exam:1.Ethical, Legal and Professional Responsibilities 2.Patient Care3.Product Distribution4.Practice Setting5.Health Promotion6.Knowledge and Research ApplicationPharmacy technicians and pharmacists work as a team to ensure optimal delivery of drug therapy. To that end, pharmacy technicians are primarily responsible for the technical aspects of a prescription whereas pharmacists focus on its clinical implications. Both groups assume responsibility for their own actions, contribute to the overall functioning of the pharmacy, and are accountable to the public.A candidate for OSPE Exam must be prepared to

demonstrate practical skills in interactive and non-interactive stations. Stations are designed to evaluate several skills such as: - Gathering information from a Standardized Patient, Standardized Client or Standardized Health Professional to solve a drug-related problem -Gathering information from a Standardized Patient, Standardized Client or Standardized Health Professional to solve an ethical issue-Addressing the questions of a Standardized Patient, Standardized Client or Standardized Health Professional - Making a referral when appropriate-Screen and evaluate new prescriptions-Document information in a patient record-Check the accuracy of patient records-Check the accuracy of prepared medications-Update a patient record-Check the accuracy of prepared/compounded medications-Check the accuracy of compounding techniques-Compound a product Canadian Pharmacy Exams(TM) - Pharmacy Technician OSPE Workbook is designed as a self-study or group-study tool to help the student seeking pharmacy technician certification in Canada test his/her exam readiness, identify areas of strength and weakness. The book provides an extensive opportunity to test and improve relevant practical skills within the nine competencies listed above. The workbook contains a mix of interactive stations, non-interactive stations (prescription and dispensed product check, MAR-blister pack check, compounding skills), medication reconciliation chart, answer forms and candidate assessment sheets. All stations are supplemented by detailed solutions and explanations to ensure further understanding and learning of new concepts. These comments are truly the keystone of Canadian Pharmacy Exams(TM). We trust that each Canadian Pharmacy Exams(TM) book is a valuable learning and self-assessment tool towards Canadian Pharmacy Licensure or Canadian Pharmacy Technician Certification/Regulation.
