"I want you to drive me wild," she whispered and listened to his hearty laughter as the cool object slowly caressed the inside of her calves. Shivers of anticipation raced along her nerves to the center of her desire. She recognized the feeling of leather and blushed even deeper when she realized he was using the riding crop. The idea of it made her feel oddly aroused. In a deep tone, barely above a whisper he said, "Let's play." Librarian Sandra Dennis is a small town girl who has always dreamed of visiting France. After winning the trip of a lifetime she finds herself exactly where she wants to be; two weeks in paradise and nobody to tell to be quiet. What more could a girl want? Suave, handsome Creighton Ashford seems to be the answer to a girl's fantasy. Living on a private luxury yacht, this eco-friendly Adonis has a way of making a heart skip and a mind forget all logic. When Sandra learns Creighton has a mafia king after him, she joins him in a trip across France to find The Don's daughter and return her to Italy before time runs out and he's forced to marry her. In his arms, Sandra discovers an exciting world of passion, erotic desires and thrilling adventures she could never have imaged existed. Will she be able help in his quest before her vacation is over, or will she lose her heart forever?

International Human Resource Management provides a concise overview of the rich HR landscape in Europe to help students develop cutting-edge people management approaches. The innovative, multi-disciplinary approach of the book provides a holistic picture of the key issues on the individual, organizational and societal levels. The book is divided into three parts: Part I explores the institutional and economic contexts that organizations face in different European countries. This section goes beyond exploring issues of diversity to include a discussion of the impact of the recent financial crisis. Part II concentrates on the key challenges and trends facing HR, including an aging population, migration, and sustainability, and analyzes the unique and inventive ways these are addressed in different countries across Europe. Part III focuses on the fundamental HR areas - recruitment and selection, performance management and rewards, employment relations, global careers, and so forth - and the ways in which these policies and practices are shaped by the European Union. With broader coverage, the latest thinking in the field, and cutting-edge cases, examples and insights, this book will prove a highly valuable resource for students, researchers and practitioners working in human resource management, and international business.

In recent years scholars and practitioners have increasingly recognized that human resource management (HRM) has paid insufficient attention to the impact of context. While research has been devoted to examining the impact of national context on HRM systems, this literature has been largely separate from that focused on other levels of context affecting organizational choices in HRM strategies, such as the impact of the organizational environment, industry sector, occupation or workforce characteristics. In addition, research has tended to consider elements of context in isolation rather than considering its impact at different levels. The goal of The Oxford Handbook of Contextual Approaches to Human Resource Management is to provide a more holistic approach to developing a contextual understanding of HRM. This Handbook offers a comprehensive understanding of the influence of contextual characteristics on the design and implementation of HRM systems. Rather than focusing on a single level or approach to examining context, the Handbook provides both conceptual and empirical analyses of different elements of context using a range of different lenses and measures. In order to explore the influence of contextual factors at multiple levels, the volume assembles a range of detailed accounts of how

context affects the design, implementation and impact of HRM activities.

Different religious groups in Central and Eastern Europe influenced societies in the region after the fall of Communism and continue to play a crucial role in culture, politics, social networks and value transformations. As part of the REVACERN (Religion and Values in Central and Eastern Europe Research Network) project - supported by the EU Sixth Framework Program - more than 70 researchers from 15 countries in the region analyzed and discussed the most important trends in values, religions and religious communities and presented their findings in a comparative way. They tested well-known theories of secularization, nationalism, democracy and pluralism in the colorful region Central and Eastern Europe. This book summarizes their most important findings in seven chapters, addressing religion and its entanglements with geography, values, nationalism, Orthodoxy, education, legal regulation, civil society, social networks, new religious movements and new forms of religiosity. Each chapter also provides a regional overview.

Reform in CEE-Countries with Regard to European Enlargement Phaidon Press

This book examines the extent of free trade within the EEC and attempts to establish the conditions under which a State may operate in the Market through the medium of the undertakings which it controls. It discusses the ways in which Member States may tamper with free market forces without infringing the principle of free competition, and whether state liability can be established for such actions. It also assesses the separate liability of both public and private enterprises which operate under such a heavily state-regulated environment that a certain anti-competitive behaviour is virtually imposed upon them. The book concludes that the system as it operates is not as successful as it might be and that the Council of Ministers and the Commission should set guidelines for co-ordinated action in order to avoid national policies leading to a rejection of the free-market principle.

Our contemporary societies place more and more emphasis on the singular and the unique. The industrial societies of the early 20th century produced standardized products, cities, subjects and organizations which tended to look the same, but in our late-modern societies, we value the exceptional - unique objects, experiences, places, individuals, events and communities which are beyond the ordinary and which claim a certain authenticity. Industrial society's logic of the general has been replaced by late modernity's logic of the particular. In this major new book, Andreas Reckwitz examines the causes, structures and consequences of the society of singularities in which we now live. The transformation from industrial to cultural capitalism, the rise of digital technologies and their 'culture machine' and the emergence of an educated, urban new middle class form a powerful engine for the singularization of the social. In late modernity, what is singular is valorized and stirs the emotions, while what is general has to remain in the background, and this has profound social consequences. The society of singularities systematically produces devaluation and inequality: winner-takes-all markets, job polarization, the neglect of rural regions and the alienation of the traditional middle class. The emergence of populism and the rise of aggressive forms of nationalism which emphasize the cultural authenticity of one's own people thus turn out to be the other side of singularization. This prize-winning book offers a new perspective on how modern societies have changed in recent decades and it will be of great value to anyone

interested in the forces that are shaping our world today.

In May 2004, a series of countries, most of them in Central and Eastern Europe, will become new member states of the EU. The institutional reforms necessary to cope with this enlargement of the EU are prescribed by The Treaty of Nice of 26 February 2001. This volume contains the papers discussed at a conference held at Brandenburg University of Technology, on the guidelines, instruments and programmes available to facilitate the accession of CEE countries to the EU, taking Poland as an example. The main topics of the conference were EC law, particularly EC administrative and environmental law and their incorporation into national law, organizational and administrative mechanisms necessary to carry out this process, as well as the latest EU development programmes for CEE accession countries.

A New York Times bestseller and enduring classic, All About Love is the acclaimed first volume in feminist icon bell hooks' "Love Song to the Nation" trilogy. All About Love reveals what causes a polarized society, and how to heal the divisions that cause suffering. Here is the truth about love, and inspiration to help us instill caring, compassion, and strength in our homes, schools, and workplaces. "The word 'love' is most often defined as a noun, yet we would all love better if we used it as a verb," writes bell hooks as she comes out fighting and on fire in All About Love. Here, at her most provocative and intensely personal, renowned scholar, cultural critic and feminist bell hooks offers a proactive new ethic for a society bereft with lovelessness--not the lack of romance, but the lack of care, compassion, and unity. People are divided, she declares, by society's failure to provide a model for learning to love. As bell hooks uses her incisive mind to explore the question "What is love?" her answers strike at both the mind and heart. Razing the cultural paradigm that the ideal love is infused with sex and desire, she provides a new path to love that is sacred, redemptive, and healing for individuals and for a nation. The Utne Reader declared bell hooks one of the "100 Visionaries Who Can Change Your Life." All About Love is a powerful, timely affirmation of just how profoundly her revelations can change hearts and minds for the better.

Security Dynamics in the Former Soviet Bloc focuses on four former Soviet sub-regions (the Baltic Sea region, the Slavic republics, the Black Sea region, and Central Asia) to explore the degree to which 'democratic security', which includes de-politicisation of, and civilian oversight of, the military, resolution of conflicts by international cooperation, and involvement in international organisations. It examines how far states in these regions have developed cooperative foreign and security policies towards their immediate neighbours and key Western states and organisations, explores the interplay between internal and external aspects of democratic security building, and uses case-study examples to show how inter-state bi-lateral and multi-lateral relations are developing.

As Joseph Pearson poetically puts it in this rich look at one of Europe's most fascinating cities: Berlin is a party in a graveyard. Europe's youth capital, Berlin is also beset by sustained guilt for the atrocities that were ordered by its Nazi officers during the Third Reich. Built and rebuilt on the ruins of multiple regimes, Berlin in the twenty-first-century houses an extraordinary diversity of refugees, immigrants, and expats. Offering a comprehensive but concise history, Pearson tells the

story of Berlin's past over nine centuries while also painting a portrait of the vibrant German capital today. Pearson describes the rise of Berlin from a small settlement surrounded by bog to one of the crucial economic and political centers of Europe. Berlin is a palimpsest of a cutting edge and dynamic modern culture over a troubled history, one that is visible in bombsites, museums, late-night clubs, and even a lake that allegedly hosts a man-eating monster. He ultimately shows how the city is imbued with an array of unnerving elements: emptiness, provincialism, ramshackle industrial eclecticism, lurid and lascivious counter-cultural expressions, and a tremendous history of violence—but also that these are precisely the sorts of things that give the city its unique charge. Posing one thought-provoking question after another, Pearson walks the city's neighborhoods, peeling back layer upon layer of history in order to reveal a Berlin that few of us know.
