This book is  
an  
introduction to  
the wide-  
ranging topic  
of non-  
governmental  
organizations

(NGOs) and  
development,  
combining a  
critical  
overview of  
the main  
research  
literature with  
a set of up-to-

date theoretical and practical insights drawn from experience in Asia, Europe, Africa and elsewhere. The revised second edition highlights the continuing importance of NGOs in development, while fully engaging with the criticisms that their increased profile now attracts. It considers issues such as securitization, changing technologies, and recent concerns about safeguarding as well as going into more detail around topics such as market-based development and social enterprise. The diversity of NGOs and their roles is discussed against the broader historical background of struggles for social justice in different societies, as well as within the shifting ideological contexts of neoliberalism and populism. Using a broad range of short case studies of both successful and unsuccessful interventions, the authors analyze how interest in NGOs has both reflected and informed wider theoretical trends and debates within development studies. The book argues that NGOs are central to both development theory and practice and are likely to remain important actors for many years to come. This critical overview will be useful to students of development studies at

undergraduate and master's levels in fields and disciplines as diverse as International Development Studies, International Relations, Geography, Anthropology, Global Studies, Politics and International Studies, as well as general readers and practitioners. *La découverte du Brésil* Editions Chandaigne This book is about Dr. Mario D.  Dans la semaine suivant le retour de Lela dans le Rhode Island, tous les médias locaux ne cessent de rapporter des témoignages inquiétants de personnes qui auraient aperçu des créatures courant à quatre pattes, ressemblant à des humains. Pour Lela, il n'y a qu'une seule

explication possible: les Mazikins sont arrivés dans le monde des vivants. Désireuse de faire croire qu'elle mène une vie normale, Lela retourne au Warwick High School avec Malachi. La nuit venue, ils s'emploient à chercher le nid des Mazikins avec deux nouveaux gardes. L'un d'eux, Jim, une recrue délinquante, défie l'autorité de Lela à répétition. Celle-ci se démène pour que ses

gardes n'aient pas de démêlés avec la justice, mais leurs erreurs ont de terribles conséquences . Alors que s'enchaînent les douloureuses révélations et que les Mazikins se mettent à cibler ses proches, Lela se retrouve plus vulnérable que jamais. Face à un ennemi déterminé à prendre possession de son âme, Lela devra décider à quel point elle est prête à se sacrifier

pour protéger ceux qu'elle aime. The Tatler iUniverse Texto a dos col  
**Mario Fenyo on the Third World** Bib. Orton IICA / CATIE Shedding the Veil is a highly original overview of Europe's exploration and discovery beyond her own confines. It tackles the subject via an analysis of maps dating from circa 1434 to 1865, with an emphasis on the period before 1600. The book

begins with an appraisal of the peculiar circumstances which led late medieval Europe to pursue long-distance travel, both overland and by sea, introduces cosmographic traditions inherited from classical times, and investigates pre-Columbian excursions into the western ocean. Finally, the great voyages and mappaemundi of the early sixteenth century are described in depth. After

1600 the focus begins to narrow North America and particularly to the colonization of the American Northeast. All maps discussed in detail are illustrated. 40 full-page b/w plates, 25 full-page color plates.
