The story of West Indian immigrants to the United States is generally considered to be a great success. Mary Waters, however, tells a very different story. She finds that the values that gain first-generation immigrants initial success--a willingness to work hard, a lack of attention to racism, a desire for education, an incentive to save--are undermined by the realities of life and race relations in the United States. Contrary to long-held beliefs, Waters finds, those who resist Americanization are most likely to succeed economically, especially in the second generation.

System 1 is fast, intuitive, and emotional; System 2 is slower, more deliberative, and more logical. An Anonymous Girl Random House

From the author of Some Girls Do and Hot Dog Girl comes a sweet and salty queer YA rom-com about two girls on a summer road trip in an ice cream truck. Fallon is Type A, looks before she leaps, and always has a plan (and a backup plan). Chloe is happy-go-lucky, flies by the seat of her pants, and always follows her bliss. The two girls used to be best friends, but last summer they hooked up right before Chloe left for college, and after a series of misunderstandings, they aren't even speaking to each other. A year later, Chloe's back home from school, and Fallon is doing everything in her power to avoid her. Which is especially difficult because their moms own a business together—a gourmet ice cream truck where both girls work. When a meeting with some promising potential investors calls their parents away at the last minute, it's up to Fallon to work a series of important food truck festivals across the country. But she can't do it alone, and Chloe is the only one available to help. Tensions heat up again between the two girls as they face a few unexpected detours—and more than a little roadside attraction. But maybe, just maybe, the best things in life can't always be planned.

In 1985, Lore Rivera marries Andres Russo in Mexico City, even though she is already married to Fabian Rivera in Laredo, Texas, and they share twin sons. Through her career as an international banker, Lore splits her time between two countries and two families—until the truth is revealed and one husband is arrested for murdering the other. In 2017, while trawling the internet for the latest, most sensational news reports, struggling true-crime writer Cassie Bowman encounters an article detailing that tragic final act. Cassie is immediately enticed by what is not explored: Why would a woman—a mother—risk everything for a secret double marriage? Were the biblical Adam and Eve historical figures, or are the early events described in Genesis primarily symbolic in nature? Behind the debate of a historical Adam is the age-old debate about evolution and the agreement between Scripture and science. With an introduction that outlines the history and main points of every viewpoint from Darwinism to Young Earth Creationism, this book then clearly outlines four primary views on Adam held by evangelical Christians. Contributors include Denis O. Lamoureux, John H. Walton, C. John Collins, and William Barrick. Each focuses his essay on answering the following questions: What is the biblical case for your viewpoint, and how do you reconcile it both with modern science and with passages and potential interpretations that seem to counter it? In what ways is your view more theologically consistent and coherent than other views? What are the implications of your view for the spiritual life and public witness of the church and individual believers, and how is your view a healthier alternative for both? This book allows each contributor to not only present the case for his view, but also to critique and respond to the critiques of the other contributors, allowing you to compare their beliefs in an open forum setting to see where they overlap and where they differ. Concluding reflections by pastor-scholars Gregory A. Boyd and Philip Graham Ryken highlight the significance of the topic in the faith of everyday believers. The *Counterpoints* series presents a comparison and critique of scholarly views on topics important to Christians that are both fair-minded and respectful of the biblical text. Each volume is a one-stop reference that allows readers to evaluate the different positions on a specific issue and form their own, educated opinion.
