World Music Pedagogy, Volume I: Early Childhood Education is a resource for music educators to explore the intersection of early childhood music pedagogy and music in cultural contexts across the world. Focusing on the musical lives of children in preschool, kindergarten, and grade 1 (ages birth to 7 years), this volume provides an overview of age-appropriate world music teaching and learning encounters that include informal versus formal teaching approaches and a selection of musical learning aids and materials. It implements multimodal approaches encompassing singing, listening, movement, storytelling, and instrumental performance. As young children are enculturated into their first family and neighborhood environments, they can also grow into ever-widening concentric circles of cultural communities through child-centered encounters in music and the related arts, which can serve as a vehicle for children to know themselves and others more deeply. Centered around playful engagement and principles of informal instruction, the chapters reveal techniques and strategies for developing a child's musical and cultural knowledge and skills, with attention to music's place in the development of young children. This volume explores children's perspectives and capacities through meaningful (and fun!) engagement with music.

(Faber Piano Adventures ). Written for ages 5 and 6, My First Piano Adventure captures the child's playful spirit. Fun-filled songs, rhythm games and technique activities develop beginning keyboard skills. Three distinguishing features of the Lesson Book A make it unique and effective for the young 5-6 year old beginner. 1. A strong focus on technique embedded in the book through playful technique games, chants, and carefully-composed pieces that gently lead the child into pianistic motions. 2. An outstanding CD for the young student to listen, sing, tap, and play along with at the piano. The orchestrated songs on the CD feature children singing the lyrics, which has great appeal to the 5-6 year old beginner. The CD becomes a ready-made practice partner that guides the student and parent for all the pieces and activities in the books. 3. The fanciful art features five multi-cultural children who are also learning to play. These friends at the piano introduce basic rhythms, white key names, and a variety of white and black-key songs that span classical, folk, and blues. Young students will listen, sing, create, and play more musically with Nancy and Randall Faber's My First Piano Adventure, Lesson Book A. The Lesson Book introduces directional pre-reading, elementary music theory and technique with engaging songs, games, and creative

discovery at the keyboard. Young students will enjoy the multi-cultural "friends at the piano" who introduce white-key names, basic rhythms, and a variety of songs which span classical, folk, and blues. Ear-training and eye-training are also part of the curriculum. The Fabers' instructional theory "ACE" - Analysis, Creativity, and Expression, guides the pedagogy of My First Piano Adventure. Analysis leads to understanding, creativity leads to self-discovery, and expression develops personal artistry. The CD for this book offers a unique listening experience with outstanding orchestrations and vocals. The recordings demonstrate a key principle of the course: when children listen, sing, tap, and move to their piano music, they play more musically. Teaching should never be color-blind. In a world where many believe the best approach toward eradicating racism is to feign ignorance of our palpable physical differences, a few have led the movement toward convincing fellow educators not only to consider race but to use it as the very basis of their teaching. This is what education activist and writer Pamela Lewis has set upon to do in her compelling book, Teaching While Black: A New Voice on Race and Education in New York City. As the title suggests, embracing blackness in the classroom can be threatening to many and thus challenging to carry out in the present school system. Unapologetic and gritty, Teaching While Black offers an insightful, honest portrayal of Lewis's turbulent eleven-year relationship within the New York City public school system and her fight to survive in a profession that has undervalued her worth and her understanding of how children of color learn best. Tracing her educational journey with its roots in the North Bronx, Lewis paints a vivid, intimate picture of her battle to be heard in a system struggling to unlock the minds of the children it serves, while stifling the voices of teachers of color who hold the key. The reader gains full access to a perspective that has been virtually ignored since the No Child Left Behind Act, through which questions surrounding increased resignation rates by teachers of color and failing test scores can be answered. Teaching While Black is both a deeply personal narrative of a black woman's real-life experiences and a clarion call for culturally responsive teaching. Lewis fearlessly addresses the reality of toxic school culture head-on and gives readers an inside look at the inert bureaucracy, heavy-handed administrators, and ineffective approach to pedagogy that prevent inner-city kids from learning. At the heart of Lewis's moving narrative is her passion. Each chapter delves deeper into the author's conscious uncoupling from the current trends in public education that diminish proven remedies for academic underachievement, as observed from her own experiences as a teacher of students of color. Teaching While Black summons everyone to re-examine what good teaching looks like. Through a powerful vision, together with practical ideas and strategies for teachers navigating very difficult waters, Lewis delivers hope for the future of teaching and learning in inner-city schools.
