The best
writing on
tennis from
the best
tennis writers
in the
business.
Racquet was
founded in
2016 to be the
voice of a new
tennis boom.

When the
popularity of
tennis peaked
in the late
'70s and early
'80s, the sport
was populated
by
buccaneering
talents with
outsized
personas,
such as Borg,
Evert,
McEnroe,
Navratilova,
Gerulaitis,
Austin, King,
and Connors.
The game was
played in
every park,
and tennis
clothes
became
appropriate
attire for
cocktails as
well as for a
match. With
success,
however,

came polish,
and tennis--if
not the game
itself, then
how it came to
be
represented in
the culture--
got boring.
Having a big
personality
was no longer
a virtue.
Tennis went
back to being
a bastion of
the elite.
Racquet is a
place for
those who
knew all along
that the spirit
of the tennis
boom was
alive. Tennis
has always
been present
in the arts, in
the popular
culture, in the
skateboarding
, hip-hop, and

fashion worlds. That side of tennis was--and is--obscured by the tightly controlled messaging of the athletes, the corporate glean of the major tournaments, and the all-white attire of the country-club scene. Racquet was launched to represent the latent, diverse, and large constituency of tennis that has not been embraced by the sport writ large. Featuring the work of some of today's

finest writers, the quarterly independent magazine highlights the art, culture, and style that are adjacent to the sport--and just enough of the pro game to keep the diehards satisfied. This collection features some of the best writing from the first four years of Racquet and tackles such immediate topics as: How should tennis smell? What's the deal with Andre Agassi's private jet? What can a professional

tennis player learn from Philip Roth? Why is tennis important in Lolita? How was Arthur Ashe like Muhammad Ali? And, crucially, what lessons have we learned from the implosion of that first tennis boom? Zwergenstübc

 In 1998,
 Sarbjit Athwal
 was called by
 her husband
 to attend a
 family
 meeting. It
 looked like

just another family gathering. An attractive house in west London, a large dining room, two brothers, their mother, one wife. But the subject they were discussing was anything but ordinary. At the head of the group sat the elderly mother. She stared proudly around, smiling at her children, then raised her hand for silence. 'It's decided then,' the old lady announced. 'We have to get rid of her.'

'Her' was Surjit Athwal, Sarbjit's sister-in-law. Within three weeks of that meeting, Surjit was dead: lured from London to India, drugged, strangled, and her body dumped in the Ravi River, never to be seen again. After the killing, risking her own life, Sarbjit fought secretly for justice for nine long, scared years. Eventually, with immense bravery, she became the first person within a

murderer's family ever to go into open court in an honour killing trial as the Prosecution's key witness, and the first to waive her anonymity in such a trial. As a result of her testimony, the trial led to the first successful prosecution of an honour killing without the body ever being found. But her story doesn't end there. Since the trial, her life has been threatened; her own husband arrested after an allegation

of intimidation. Shamed is a story of fear and of horror – but also of immense courage, and a woman who risked everything to see that justice was done.

The Book for All Households; Or, The Art of Preserving Animal and Vegetable Substances for Many Years

Putnam
Juvenile
The term 'home front' gained currency during the First World War and was closely associated

with the idea of 'total war' - it encapsulated the blurred lines between the armies fighting in the field and the civilian societies at home. It became one of the most consequential elements in Second World War strategic thinking, entailing an unparalleled degree of civilian mobilization. And the legacies of the home fronts reached far beyond 1945: the war became a crucial

catalyst for broader social developments, including the emergence of mass consumer societies in the twentieth century. This volume explores the history of the home fronts in the Second World War from a comparative and transnational perspective, focusing on the role of the consumer and civilian morale in Nazi Germany, Japan, the Soviet Union, the United Kingdom, Canada, and

the United States. The volume covers a wide range of aspects. It compares the belligerents' efforts in securing civilian food and nutrition. It analyses the role of advertising and commercial entertainment in creating 'virtual consumption' to compensate for wartime hardships. It highlights fashion as a means of offering distraction and promoting promises of future

consumption. And it enquires into the impact of the wartime consumer regimes on the post-war period and long-term developments. This collection of ground-breaking international research will advance scholarship at various levels. It will contribute to our understanding of the entanglements between war and society in the twentieth century. And it will introduce a more holistic transnational

perspective that aims to integrate the Second World War into the thriving historiography on mass consumption. To Catch a King Studies of the German Historic Fidel Castro is one of the most interesting and controversial personalities of our time – he has become a myth and an icon. He was the first Cuban Caudillo – the man who freed his country from dependence on the USA

and who lead his people to rediscover their national identity and pride. Castro has outlived generations of American presidents and Soviet leaders. He has survived countless assassination attempts by the CIA, the Mafia, and Cubans living in exile. He has become one of the greatest politicians of the 20th Century. His biography, and the history of his country exemplify the tensions

between East and West, North and South, rich and poor. As Castro's life draws to a close, the question as to what will become of Cuba is more important than ever. Will Castro open Cuba to economic reform and democratization, or stick to his old slogan socialism or death? In this remarkable, up-to-date reconstruction of Castro's life, Volker Skierka addresses these questions and

provides an account of the economic, social, and political history of Cuba since Castro's childhood. He draws on a number of little-known sources, including material from the East German communist archives on Cuba, which were until recently inaccessible. This is an exciting, painstakingly researched, and authoritative account of the life of one of the most

extraordinary political figures of our time. *Foreign Crops and Markets* Fairy Tales in New York Mark Mathabane first came to prominence with the publication of *Kaffir Boy*, which became a *New York Times* bestseller. His story of growing up in South Africa was one of the most riveting accounts of life under apartheid. Mathabane's newest book, *Miriam's Song*, is the story of Mark's sister,

who was left behind in South Africa. It is the gripping tale of a woman -- representative of an entire generation -- who came of age amid the violence and rebellion of the 1980s and finally saw the destruction of apartheid and the birth of a new, democratic South Africa. Mathabane writes in Miriam's voice based on stories she told him, but he has re-created her unforgettable experience as only someone

who also lived through it could. The immediacy of the hardships that brother and sister endured -- from daily school beatings to overwhelming poverty -- is balanced by the beauty of their childhood observations and the true affection that they have for each other. A Duckling is Born Fawcett This book takes the mystery out of the sewing machine, holding first-time stitchers by the hand

and showing the easiest ways to get the most from their machine. This book takes the mystery out of the sewing machine, holding first-time stitchers by the hand and showing the easiest ways to get the most from their machine. In the climate of "make do and mend," sales of sewing machines have soared, but many are only accompanied by a difficult-to-understand technical manual. Here,

Jane Bolsover provides a comprehensive guide for beginners. Starting with an essential overview of the sewing machine, learn how to thread it and wind bobbins, why tension is important, and which needles to choose. There's information on the basic sewing kit you will need, plus advice on which fabrics to choose and how to cut out. The chapters then build into a complete sewing course, and at the end of each chapter is a simple project to consolidate the skills you have just mastered. The projects include items for the home, including a cushion cover and a lampshade, stylish accessories, such as bags and scarves, plus great clothing basics, such as an A-line skirt and a simple shift dress. Also included at the back of the book are two full-size pull-out paper pattern sections.
