road trip of a lifetime."-- Back cover
Complete Road Atlas of Canada Rand McNally
On Monday, April 8, 2024, a total eclipse of the Sun will be visible from parts of the United States and Canada. Although a partial eclipse will be seen from all of North America, the total phase in which the Moon completely covers the Sun (known as totality) will only be seen from within the ~120-mile-wide path of the Moon's umbral shadow as it sweeps across Mexico, the United States (Texas, Oklahoma, Arkansas, Missouri, Tennessee, Kentucky, Illinois, Indiana, Ohio, Michigan, Pennsylvania, New York, Vermont, New Hampshire, and Maine), and Canada (Ontario, Quebec, New Brunswick, Prince Edward Island, Nova Scotia and Newfoundland). The Road Atlas for the Total Solar Eclipse of 2024 contains a comprehensive series of 26 maps of the path of totality across Mexico, the USA and Canada. The large scale (1 inch ≈ 22 miles) shows both major and minor roads, towns and cities, rivers, lakes, parks, national forests, wilderness areas and mountain ranges. The path of totality on each map is depicted as a

lightly shaded region with the northern and southern limits clearly identified. The total eclipse can only be seen inside this path. The closer one gets to the central line of the path, the longer the total eclipse lasts. Gray lines inside the path mark the duration of the total eclipse in 30 second steps. This makes it easy to estimate the duration of totality from any location in the eclipse path. Armed with this atlas and the latest weather forecasts, the road warrior is ready to chase totality no matter where it takes him/her along the entire path. This mobile strategy offers the highest probability of witnessing the spectacular 2024 total eclipse in clear skies.

Road Atlas Hagstrom Map Company

Winner of the 2018 Louise de Kiriline Lawrence Award for Nonfiction

Longlisted for the 2018 RBC Taylor Prize

Shortlisted for the 2018 Edna Staebler Award for Creative Non-Fiction The sweeping, epic story of the mysterious land that came to be called

"Canada" like it's never been told before. Every map tells a story. And every map has a purpose- it invites us to go somewhere we've never

been. It's an account of what we know, but also a trace of what we long for. Ten Maps conjures the world as it appeared to those who were called upon to map it. What would the new world look like to wandering Vikings, who thought they had drifted into a land of mythical creatures, or Samuel de Champlain, who had no idea of the vastness of the landmass just beyond the treeline? Adam Shoalts, one of Canada's foremost explorers, tells the stories behind these centuries old maps, and how they came to shape what became "Canada." It's a story that will surprise readers, and reveal the Canada we never knew was hidden. It brings to life the characters and the bloody disputes that forged our history, by showing us what the world looked like before it entered the history books. Combining storytelling, cartography, geography, archaeology and of course history, this book shows us Canada in a way we've never seen it before.

2022 Large Scale Road Atlas American Map

A general road atlas for the United States, Canada and Mexico.

Road Atlas American Map Covering just the United

States in a larger scale for easier reading, this road atlas utilises digital cartography to present large-scale, up-to-date maps. Each map includes details of climate and terrain, as well as some of the featured area's attractions.

Road Atlas, 2009 National Geographic Society #1 NEW YORK TIMES

BESTSELLER • In her

latest book, Brené Brown writes, "If we want to find the way back to ourselves and one another, we need language and the grounded confidence to

both tell our stories and be stewards of the stories that we hear. This is the framework for meaningful connection." Don't miss

the five-part HBO Max docuseries Brené Brown:

Atlas of the Heart! In Atlas of the Heart, Brown takes us on a journey through eighty-seven of the emotions and experiences that define what it means

to be human. As she maps the necessary skills and an actionable framework for meaningful connection, she gives us the language and tools to access a universe of new

choices and second chances—a universe where we can share and steward the stories of our bravest and most heartbreaking moments with one another in a way that builds connection. Over the past two decades, Brown's extensive research into the experiences that make us who we are has shaped the cultural conversation and helped define what it means to be courageous with our lives. Atlas of the Heart draws on this research, as well as on Brown's singular skills as a storyteller, to show us how accurately naming an experience doesn't give the experience more power—it gives us the power of understanding, meaning, and choice. Brown shares, "I want this book to be an atlas for all of us, because I believe that, with an adventurous heart and the right maps, we can travel anywhere and never fear losing ourselves."

Road Atlas National Geographic Society
