"Pemberton's beautifully told story is a rags to riches journey—beginning in a place and with a jarring set of experiences that could have destroyed his life. But Steve's refusal to give in to those forces, and his resolve to create a better life, shows a courage and resilience that is an example for many of us to follow." —Stedman Graham, author, educator Home is the place where our life stories begin. A Chance in the World is the astonishing

true story of a boy destined to become a man of resilience determination and vision. Down in the dank basement, amidst my moldy, hoarded food and beloved worm-eaten books, I dreamed that my real home, the place where my story had begun, was out there somewhere, and one day I was going to find it. Taken from his mother at age three, Steve Klakowicz lives a terrifying existence. Caught in the clutches of a cruel foster family and subjected to constant abuse, Steve finds his only refuge in a box of books given to him by a kind stranger. In these books, he discovers new worlds he can only imagine and begins to hope that one day he might have a different life, that one day he will find his true home. A fair-complexioned boy with blue eyes, a curly Afro, and a Polish last name, he is determined to unravel the mystery of his origins and find his birth family. Armed with just a single clue, Steve embarks on an extraordinary quest for his identity, only to find that nothing is as it appears. Through it all, Steve's story teaches us that no matter how broken our past, no matter how great our misfortunes, we have it in us to create a new beginning and to build a place where love awaits.

Strategic human rights litigation (SHRL) is a growing area of international practice yet one that remains relatively under-explored. Around the globe, advocates increasingly resort to national, regional and international courts and bodies 'strategically' to protect and advance human rights. This book provides a framework for understanding SHRL and its contribution to various forms of personal, legal, social, political and cultural change, as well as the many tensions and challenges it gives rise to. It suggests a reframing of how we view the impact of SHRL in its multiple dimensions, both positive and negative. Five detailed case studies, drawn predominantly from the author's own experience, explore litigation in a broad range of contexts (genocide in Guatemala; slavery in Niger; forced disappearance in Argentina; torture and detention in the 'war on terror'; and Palestinian land rights) to reveal the complexity of the role of SHRL in the real world. Ultimately, this book considers how impact analysis might influence the development of more effective litigation strategies in the future.

The US 'war on terror', which Bush declared and Obama continued, repeatedly violated fundamental rule of law values. Law's Wars: The Fate of the Rule of Law in the US 'War on Terror' is the first comprehensive account of efforts to resist and correct those violations. It focuses on responses to abuses in Abu Ghraib, efforts by Guantánamo Bay detainees to improve conditions of confinement in and win release, exposés of and efforts to end torture and electronic surveillance, and civilian casualties on the battlefield, including targeted killings. Abel deploys a law and society perspective to construct and analyze detailed narratives of the roles of victims, whistle-blowers, the media, NGOs, lawyers, doctors, politicians, military personnel, foreign governments and international organizations in defending the rule of law. Only by understanding past errors can we hope to prevent their repetition in what promises to be an endless 'war on terror'.

This major new study examines the developing practice of universal jurisdiction, as well as the broader phenomenon of "globalizing" justice, and its ramifications. With a detailed overview of the contemporary practice of universal jurisdiction, it discerns three trends at work: pure universal jurisdiction, universal jurisdiction "plus", and non-use. It also argues that these disparities in practice should raise serious concerns as to the legitimacy and perceived legitimacy of such globalized justice. It then turns to a further consideration, that of globalized justice, precisely because it takes place far from the locus of the crime, and is therefore "externalized" and may fail to achieve many of its putative goals. In addition, this is a key assessment of civil accountability, through the use of the Alien Tort Claims Act in the United States. It details how the use of civil penalties may offer new avenues for redress, particularly with relation to group accountability, whether that of armed groups or of corporations. However, it balances this approach to accountability with recognition of certain flaws within externalized criminal accountability. This study also focuses on mixed tribunals, or other methods of internationalized justice as viable alternatives, which may avoid some of the problems with external justice, but are themselves far from perfect. Mixed or hybrid tribunals in East Timor and Sierra Leone represent different models of hybrid justice and provide the reader with excellent examples of these new forms of justice in action. This book will be of great interest to all students and scholars of human rights international law and political science.

This grammar provides a comprehensive overview of Middle Egyptian and illustrates its grammatical features with extensive examples from various sources. Exercises at the end of each chapter, along with a sign list and a hieroglyphic word list, provide the reader with the means to apply and practice the content, enabling this book to be used as both a grammar reference and a textbook. The book's structure and detailed outline facilitate its use as a reference, making it easy to find information on any particular grammatical feature. At the same time, the extensive content of the forty chapters provides a suitable basis for self-guided study and enables the student to read and understand Egyptian inscriptions and literary texts in hieroglyphic transliteration. Recent developments in the understanding of Egyptian are exemplified in numerous quotations from Egyptian texts, and exercises at the end of each chapter provide further opportunity for considering the grammatical phenomena discussed in the chapter, allowing for both practice and review. For reasons of convenience, the vocabulary necessary for the exercises, along with the words used in the examples, are arranged into a word list at the end of the book. Similar and alternative grammatical constructions are compared, and in addition to the "classical" language of the Middle Kingdom, the book considers both Old Egyptian and Late Egyptian influences. As a hybrid reference and textbook, this volume introduces the reader to the grammatical features of Middle Egyptian and illustrates the means of expression used in ancient Egyptian.

Here's the one-minute description of TQW: You have a Big Question of some kind. You know it's a Big Question because it's keeping you up at night, the outcome is important, and you don't have a ready answer. There are four stages you need to go through to answer a Big Question. I don't know where you are in the process; so let me describe the four stages. The first stage involves fully understanding your situation and your motives for wanting to resolve the question that comes from being in that situation. The second stage involves separating yourself from the situation you are in. You cannot resolve a situation if you see yourself as part of it. You have to gain perspective by separating yourself from your situation in as many ways as possible. The third stage involves letting go of something that keeps you attached to, and subject to, the situation you are in. Something is holding you back. Some fear, some projection of implications, some belief about what is possible and what is not possible. Something. As long as you hold onto these things they will hold you back. Fourth, you need to perceive new possibilities for resolving your Big Question. For various reasons, you

are not able to see alternative resolutions today. You need to reframe your question in a way that will enable you to apply the substantial resources you have to address each and every part of the question. If you have a Big Question, you are stuck at one of those four stages. At which stage are you stuck? McClellan provides a complete roadmap for getting from the question you have to the question you need to answer. Dither no longer. Commit to the Total Question Workout. Address the Big Question you need to answer to take charge of running your business or your life. You can move forward. But first, you have to take the next step.

Pastoral care and its theology get a gentle boost from some of the best in the business of caring for the soul. When a person hurts, they often look to God. Several pathfinders give new light from their specialties, each one speaking powerfully, uniquely, and artfully from decades of experience. Dr. Amos Yong's article on disability forwards the amazingly helpful term, "temporarily able-bodied." Greek Orthodox Dr. Vasileios Thermos and Roman Catholic Dr. Robert Fastiggi enlighten next to the powerful testaments of Professor Godfrey Harold on South Africa and Dr. Samuel Yonas Deressa on Ethiopia. Each weathered author contributes universal insights into the grace of our great God and challenges pastors throughout the Christian world to kindly consider the heart of the afflicted. These finely hewn stones can be used by anyone in the ministry to sharpen their serve. Mattis and Maness offer this third collection from Testamentum Imperium with a prayer that these will open new avenues of sensitivity to the hearts and souls of those in travail and aid those who are called by God to serve those in pain.
