The Belwin Student Instrumental Course is a course for individual instruction and class instruction of like instruments, at three levels, for all band instruments. Each book is complete in itself, but all books are correlated with each other. Although each book can be used separately, all supplementary books should be used as companion books with the method.
[Student Instrumental Course: Tuba Student, Level III](#) Alfred Music
Instrumental Music Education: Teaching with the Musical and Practical in Harmony, 2nd Edition is intended for college instrumental music education majors studying to be band and orchestra directors at the elementary, middle school, and high school levels. This textbook presents a research-based look at the topics vital to running a successful instrumental music program, while balancing musical, theoretical, and practical approaches. A central theme is the compelling parallel between language and music, including "sound-to-symbol" pedagogies. Understanding this connection improves the teaching of melody, rhythm, composition, and improvisation. The companion website contains over 120 pedagogy videos for wind, string, and percussion instruments, performed by professional players and teachers, over 50 rehearsal videos, rhythm flashcards, and two additional chapters, "The Rehearsal Toolkit," and "Job Search and Interview." It also includes over 50 tracks of acoustically pure drones and demonstration exercises for use in rehearsals, sectionals and lessons. New to this edition: • Alternative, non-traditional ensembles: How to offer culturally relevant opportunities for more students, including mariachi, African drumming, and steel pans. • More learning and assessment

strategies • The science of learning and practicing: How the brain acquires information • The philosophies of Orff and El Sistema, along with the existing ones on Kodály, Suzuki, and Gordon. • The Double Pyramid of Balance: Francis McBeth's classic system for using good balance to influence tone and pitch. • Updated information about copyright for the digital age

Student Instrumental Course: Oboe Soloist, Level I Alfred Music

The Eloquent Oboe is a history of the hautboy, the oboe of the Baroque period. It reflects recent interest in this instrument, which was the first of the woodwinds to join with strings in creating the new orchestra, and had by the end of the 20th century again become a regular presence on the concert scene. Between 1640 and 1760 this type of oboe underwent dramatic changes in both function and physical form, and the majority of its solo and chamber repertoire appeared. Haynes examines in detail the hautboy's structure, its players, makers, and composers, issues of performing style and period techniques, how and where the instrument was played, and who listened to it.

Oboe Student: Level One (Elementary)

Alfred Music

Student Instrumental Course: Oboe Student, Level 2 Alfred Music

The oboe, including its earlier forms the shawm and the hautboy, is an instrument with a long and rich history. In this book two distinguished oboist-musicologists trace that history from its beginnings to the present time, discussing how and why the oboe evolved, what music was written for it, and which players were prominent. Geoffrey Burgess and Bruce Haynes begin by describing the oboe's prehistory and subsequent development out of the shawm in the mid-seventeenth century. They then examine later stages of the instrument, from the classical hautboy to the transition to a keyed oboe and eventually the Conservatoire-system oboe. The authors consider the instrument's place in Romantic and Modernist music and analyze traditional and avant-garde developments after World War II. Noting the oboe's appearance in paintings and other iconography, as well as in distinctive musical contexts, they examine what this reveals about the instrument's social function in different eras. Throughout the book they discuss the great performers, from the pioneers of the seventeenth century to the traveling virtuosi of the eighteenth, the masters of the romantic

period and the legends of the twentieth century such as Gillet, Goossens, Tabuteau, and Holliger. With its extensive illustrations, useful technical appendices, and discography, this is a comprehensive and authoritative volume that will be the essential companion for every woodwind student and performer.
