This book examines the legacy of Lebanon's civil war and how the population, and the youth in particular, are dealing with their national past. Drawing on extensive qualitative research and social observation, the author explores the efforts of those who wish to remember, so as not to repeat past mistakes, and those who wish to forget. In considering how the Lebanese youth are negotiating this collective memory, Larkin addresses issues of: Lebanese post-war amnesia and the gradual emergence of new memory discourses and public debates Lebanese nationalism and historical memory visual memory and mnemonic landscapes oral memory and post-war narratives war memory as an agent of ethnic conflict and a tool for reconciliation and peace-

building. trans-generational trauma or postmemory. Shedding new light on trauma and the persistence of ethnic and religious hostility, this book offers a unique insight into Lebanon's recurring communal tensions and a fresh perspective on the issue of war memory. As such, this is an essential addition to the existing literature on Lebanon and will be relevant for scholars of sociology, Middle East studies, anthropology, politics and history.

Power-sharing After Civil War Routledge
 Since 1945, over 200 intrastate conflicts have taken place in countries that achieved independence from colonial rule after the Second World War. The case of Lebanon offers a striking illustration of these interlocking influences on projects of national

economic development. The persistently sectarian nature of the country's political institutions, the relatively poor quality of governance, and the major civil war that engulfed the country from 1975 to 1990, together define not only the context in which the achievements and failures of Lebanese development must be assessed, but also the continuing challenges that it must face in the era of globalization. This book gives an in-depth analysis of Lebanese economic development during the second half of the twentieth century with special emphasis on the civil war and its aftermath. Makdisi offers a definitive assessment of the principal phases of national development since Lebanese independence in the 1940s, and a study of those conditions requisite for

sustainable development for Lebanon, as for many other developing countries.

This volume examines Lebanon's post-2011 security dilemmas and the tenuous civil-military relations. The Syrian civil war has strained the Lebanese Armed Forces' (LAF) cohesion and threatens its neutrality - its most valued assets in a divided society. The spill-over from the Syrian civil war and Hezbollah's military engagement has magnified the security challenges facing the Army, making it a target. Massive foreign grants have sought to strengthen its military capability, stabilize the country and contain the Syria crisis. However, as this volume demonstrates, the real weakness of the LAF is not its lack of sophisticated armoury, but the

fragile civil-military relations that compromise its fighting power, cripple its neutrality and expose it to accusations of partisanship and political bias. This testifies to both the importance of and the challenges facing multi-confessional armies in deeply divided countries.

This book examines carefully the Lebanese-Syrian relations upon the end of the French mandate, and prior to,

during, and after the Lebanese civil war. It systematically discusses the Syrian military intervention in Lebanon during the Lebanese civil war and its consequences on Lebanon as a sovereign country which have led to plenty of hegemonizing joint Syrian-biased agreements, accords, pacts, and treaties, in addition to a Syrian-controlled puppet regime installed in Lebanon whose impact continues to be seen to the present days, on the freedom of speech, human rights, international laws, and political repressions. This book approaches the problem of Syrian hegemony over Lebanon from the theory of political hegemony of modern political economy which analyses and evaluates the control of wealth, the control of

resources and raw materials, and the control of the market exerted by the Syrian government over Lebanon

After the Lebanese Civil War, many Lebanese novelists committed themselves to building a "memory for the future." What resulted was a vital contribution to the legacy of contemporary Arabic literature. Through interviews, literary analysis, and the lens of trauma studies, Lang sheds light on what it means to remember through post-war literature.

Israel's Lebanon War Archipelago

In a time of great political change and unrest in the Middle East, this highly topical text offers a succinct account of the contemporary political environment in Lebanon. Tom Najem provides both a developed understanding of the pre-civil war system and an analysis of how circumstances resulting from the civil war combined with essential pre-war elements to define politics in Lebanon. Systematically exploring Lebanon's history, society and politics, the author stresses the importance of the crucial role of external actors in the Lebanese

system. The analysis encompasses: the formation of the state weaknesses and dynamics of the Lebanese state the civil war post-war government and change the Lebanese economy foreign policy. Written in a clear and accessible manner, this book fills a conspicuous gap in the existing academic literature on Lebanon. It will be of interest not only to students of international politics and Middle East studies, but also to anyone travelling in or wanting to learn more about the region.

The Role of the Banking Sector in the Economic Process of Lebanon Before and After the Civil War Springer Nature
 War and the City examines the geopolitical significance of the Lebanese Civil War through a micro-level exploration of how the urban landscape

of Beirut was transformed by the conflict. Focusing on the initial phase of the war in 1975 and 1976, the volume also draws significant parallels with more recent occurrences of internecine conflict and with the historical legacies of Lebanon's colonial past. While most scholarship has thus far focused on post-war reconstruction of the city, the initial process of destruction has been neglected. This volume thus moves away from formal macro-level geopolitical analysis, to propose instead an exploration of the urban nature of conflict through its spaces, infrastructures, bodies and materialities. The book utilizes urban viewpoints in order to highlight the nature of sovereignty in Lebanon and how it is inscribed on the urban landscape. War

and the City presents a view of geopolitics as not only shaping narratives of international relations, but as crucially reshaping the space of cities.

This timely portrait of Lebanon exposes the fault lines that underlie the current crisis in the Middle East, and charts the country's attempts to rebuild a fragile peace after its long civil war and recent conflict with Israel. Part reportage, part travel narrative, *Paradise Divided* chronicles the delicate web of relationships that make up contemporary Lebanese society. Drawing on interviews with community leaders and relationships with ordinary people, it reveals a richly-textured social and religious fabric in which Sunni and

Shia Muslims, Druze and Christians of all kinds, from Maronite Catholics to evangelical Protestants, strive to maintain a delicate balance. It offers an insight into how Lebanon's religious communities, their identities formed by history, landscape and their relationships with one another, came to be what they are today—and how their different perspectives can lead to potentially destructive tensions. What emerges is a quintessentially Middle Eastern form of coexistence, poised between tolerance and sectarianism—a theme powerfully developed through the author's privileged access to the normally secretive Druze. The reader follows the country's changing fortunes after the assassination of former Prime Minister Rafik Hariri, the subsequent pro-

democracy movement and withdrawal of Syrian forces from Lebanese soil. The final chapters examine the aftermath of Israel's military campaign and the emergence of the new battle dividing Lebanese society as opposing camps struggle to have their vision for Lebanon made reality. *Paradise Divided* opens a window onto a country little-visited by Westerners for decades, and one very different from the war-torn images of the Middle East that dominate our television screens. Offering a unique view of the struggle between sectarianism and tolerance, and the relationship between the Arab world and the West, it is a book which sheds light on some of the central issues of our time.

Research Paper (undergraduate) from the year 2016 in the subject Women Studies / Gender Studies, The American University in Cairo, language: English, abstract: In the following paper I wish to investigate the status of women and their socio-economic conditions during the second civil war. As it was common during that period of time, the war was

transferred to the womb of women, and sectarian conflicts during that time and even later usually involved “mudding” the blood of future generations of one sect. Therefore, I wish to examine whether this was the case in Lebanon. In order to do so, I will divide my paper into five sections. The first section of the paper will discuss the socio-economic background of the working class families of different sects in Lebanon. The second section of the paper will investigate the other means that were used during the war to weaken the Other, i.e. the focus will be directed at unarmed forms of violence. The third part of the paper will discuss the effects of the war, and more specifically it will focus on how women perceived, experienced, and the extent to which they were affected by the war.

The fourth section will attempt to draw a comparative analysis in which the situation of women in Syria, Lebanon and Palestine, have been affected similarly during different conflicts at different locations and periods. The last part of the paper will attempt to draw some conclusions about the eruption of the war and whether its consequences still cause distress to Lebanese women today.

"Political upheaval has marked Iran's history throughout the twentieth century. Wars, revolutions, coups and the impact of modernism have shaped Iran's historiography, as they have the country's history. Originally based on oral and written sources, which

underpinned traditional genealogical and dynastic history, Iran's historiography was transformed in the early 20th century with the development of a 'new' school of presenting history. Here emphasis shifted from the anecdotal story-telling genre to social, political, economic, cultural and religious history-writing. A new understanding of the nation state and the importance of identity and foreign relations in defining Iran's place in the modern world all served to transform the perspective of Iranian historiography. Touraj Atabaki here brings together a range of rich contributions from international scholars who cover the leading themes of the historiography of 20th-century Iran, including constitutional reform and revolution, literature and architecture,

identity, women and gender, nationalism, modernism, Orientalism, Marxism and Islamism."--Bloomsbury publishing.

Modern Lebanese cinema can best be explored in the context of the Civil War, in part because almost all the Lebanese films made since its outset in 1975 have been about this war. Lina Khatib takes 1975 Beirut as her starting point, and takes us right through to today for this, the first major book on Lebanese cinema and its links with politics and national identity. She examines how Lebanon is imagined in such films as Jocelyn Saab's "Once Upon a Time, Beirut", Ghassan Salhab's "Terra Incognita", and Ziad Doueiri's "West Beirut". In so doing, she re-examines the importance of cinema

to the national imagination. Also, and using interviews with the current generation of Lebanese filmmakers, she uncovers how in the Lebanese context cinema can both construct and communicate a national identity and thereby opens up new perspectives on the socio-political role of cinema in the Arab world.

"Truly a masterpiece." —Lawrence Joseph
On a ravaged street overlooking a cemetery in a Christian enclave in war-torn 1970s Beirut, we meet Pavlov, the son of a local undertaker. When his

father dies suddenly, Pavlov is approached by a member of the mysterious Hellfire Society—an anti-religious sect that arranges secret burial for outcasts denied last rites because of their religion or sexuality. Pavlov agrees to take on his father’s work for the society, and over the course of the novel he becomes a survivor-chronicler of his embattled and faded community at the heart of Lebanon’s civil war.

Spheres of Intervention Middle East@War

The war for Lebanon -- a conflict of domestic and external forces seeking to shape and control the Lebanese entity -- began long before 1970 and unfortunately did not end in 1983. But these years, the focus of this book, form a particularly significant phase in the

history of both Lebanon and its immediate environment. The events of this period unfolded through 4 distinct stages: the collapse of the Lebanese political system between 1970 and 1975; the civil war of 1975-76; the lingering crisis of the years 1976-82; and the war of 1982. This book primarily explores the interplay between Lebanon's domestic politics and developments in the larger Middle East.

In Spheres of Intervention, James R. Stocker examines the history of diplomatic relations between the United States and Lebanon during a transformational period for Lebanon and a time of dynamic changes in US policy toward the Middle East. Drawing on tens

of thousands of pages of declassified materials from US archives and a variety of Arabic and other non-English sources, Stocker provides a new interpretation of Lebanon's slide into civil war, as well as insight into the strategy behind US diplomatic initiatives toward the Arab-Israeli conflict. During this period, Stocker argues, Lebanon was often a pawn in the games of larger powers. The stability of Lebanon was an aim of US policy at a time when Israel's borders with Egypt and Jordan were in active contention. Following the June 1967 Arab-Israeli War, the internal political situation in Lebanon became increasingly unstable due to the regional military and political stalemate, the radicalization of the country's domestic politics, and the appearance of

Palestinian militias on Lebanese territory. US officials were more deeply involved in Lebanese affairs than most outside the region realized. After a series of internal crises in 1969, 1970, and 1973, civil war broke out in Lebanon in 1975. The conflict reached a temporary halt after a Syrian military intervention the following year, but this was only an end to the first stage of what would be a sixteen-year civil war. During these crises, the US sought to help the Lebanese government in a variety of ways, including providing military aid to the Lebanese military, convincing Arab countries to take measures to help the Lebanese government, mediating Lebanon's relations with Israel, and even supporting certain militias.

Examination Thesis from the year 2004 in the subject Business economics - Economic and Social History, grade: 70% / Distinction, School of Oriental and African Studies, University of London (School of Oriental and African Studies (SOAS)/ Economics Department), course: Abschlussarbeit zur Erlangung eines MSc Development Economics, 60 entries in the bibliography, language: English, abstract: This dissertation assesses the role of the banking sector in the Lebanese economy throughout the country's history with respect to its linkages with the real sector. I thereby focus on the credit market. It is shown that various external and internal factors

have led to a credit market development on the supply-side that is not conducive to real sector growth. In particular, the period before the Lebanese civil war is characterised by funds flowing in from other Arab countries, which were not channelled into domestic long term investment but accrued to the trade and services sector or went abroad. Throughout the war and afterwards the share of the private sector in total credit declined substantially as the government crowded out private demand. It is concluded that only a shift of policy with a clear focus on the real sector's needs can bring about the required economic development.
