From acclaimed New York Times Magazine author Michael Sokolove, the full inside story of the NCAA's epic corruption scandal that exposed the rot and hypocrisy at the heart of big-time college sports. In 2017, the FBI revealed that it had reached the endgame of a sprawling investigation of large-scale corruption involving Adidas, Louisville and a host of other colleges, in which large payments were laundered from Adidas through a network of coaches and fixers to athletes and their families to induce them to go to Adidas-branded college programs. In short order, Hall of Fame basketball coach Rick Pitino (salary: \$8 million) and athletic director Tom Jurich were fired, and fear, trembling, and some high-profile litigation swept through the world of bigtime college athletics. In *THE LAST TEMPTATION OF RICK PITINO*, Michael Sokolove not only lifts the rug on the Louisville scandal but also places it in the context of the much wider problem, the farce of amateurism in bigtime college sports. In a world in which even assistant coaches can make high-six and seven-figure salaries, as long as they keep the "elite" athletes coming in, shoe deals can reach into the nine figures, and everyone is getting rich but the players, can it be surprising that unscrupulous parties would pay athletes, creating in effect a black market in young men, a veritable underground railroad of talent? But a few bad apples are one thing. In *THE LAST TEMPTATION OF RICK PITINO*, Michael Sokolove shows an elaborate, systematic machine, involving

hundreds of thousands of dollars in illicit payments and connecting at least one of the largest apparel companies in the world with schools across the country. The Louisville-Adidas scandal has revealed a web of conspiracy whose scope has shaken big-time college sports to its core, delivering a devastating blow to the fantasy of amateurism, of "scholar athletes." A Shakespearean drama of greed and desperation involving some of the biggest characters in the arena of sports, *THE LAST TEMPTATION OF RICK PITINO* is the definitive chronicle of this scandal and its broader echoes.

Asian Americans have long been the subject and object of popular culture in the U.S. The rapid circulation of cultural flashpoints—such as the American obsession with K-pop sensations, Bollywood dance moves, and sriracha hot sauce—have opened up new ways of understanding how the categories of "Asian" and "Asian American" are counterbalanced within global popular culture. Located at the crossroads of these global and national expressions, *Global Asian American Popular Cultures* highlights new approaches to modern culture, with essays that explore everything from music, film, and television to comics, fashion, food, and sports. As new digital technologies and

cross-media convergence have expanded exchanges of transnational culture, Asian American popular culture emerges as a crucial site for understanding how communities share information and how the meanings of mainstream culture shift with technologies and newly mobile sensibilities. Asian American popular culture is also at the crux of global and national trends in media studies, collapsing boundaries and acting as a lens to view the ebbs and flows of transnational influences on global and American cultures. Offering new and critical analyses of popular cultures that account for emerging textual fields, global producers, technologies of distribution, and trans-medial circulation, this ground-breaking collection explores the mainstream and the margins of popular culture.

A Home on the Field is about faith, loyalty, and trust. It is a parable in the tradition of Stand and Deliver and Hoosiers—a story of one team and their accidental coach who became certain heroes to the whole community. For the past ten years, Siler City, North Carolina, has been at the front lines of immigration in the interior portion of the United States. Like a number of small Southern towns, workers come from traditional Latino enclaves across the United States, as well as from Latin American countries, to work in what is considered the home of industrial-scale poultry processing. At enormous risk, these people have come with the hope of a better life and a chance to realize their portion of the American Dream. But it isn't always easy. Assimilation into the South is fraught with struggles, and in no place is this more poignant than in the schools. When Paul Cuadros packed his bags and moved south to study the impact of the burgeoning Latino community, he encountered a culture clash between the long-time residents and the newcomers that eventually boiled over into an anti-immigrant rally featuring former Klansman David Duke. It became Paul's goal to show the growing numbers of Latino youth that their lives could be more than the cutting line at the poultry plants, that finishing high school and heading to college could be a reality. He needed to find something that the boys could commit to passionately, knowing that devotion to something bigger than them would be the key to helping the boys find where they fit in the world. The answer was soccer. But Siler City, like so many other small rural communities, was a football town, and long-time residents saw soccer as a foreign sport and yet another accommodation to the newcomers. After an uphill battle, the Jets soccer team at Jordan-Matthews High School was born. Suffering setbacks and heartbreak, the majority Latino team, in only three seasons and against all odds, emerged poised to win the state championship.

How the SEC Became Goliath covers the Southeastern Conference and how the league became dominant in college football, winning six straight national championships. Size matters. That's why the SEC is Goliath, because the Southeastern Conference, top to bottom, has better coaches, better stadiums, better bank accounts, and better weather, but the real difference maker is the bigger and better players. For six straight years the SEC has walked off with the big crystal prize and will not give it back. The

talk of "big boy football" grinds on the Buckeyes, Sooners, Longhorns, and Ducks. All they can come back with is "Wait until next year." Then next year comes and the SEC tribe is chanting in the closing minutes of the National Championship Game, "SEC, SEC, SEC!" The national championship trophy has been in the South for so long it has sunburn. That is why college football is thick with the acrimony: SEC vs. Everyone Else. The dominance of the SEC has a lot more to do with the South's culture than just the rock-'em, sock-'em of football played one day a week. The South lost the Civil War, and sociologists will tell you that there is still a regional angst, an "us against them" mentality, a spirit of "those damn Yankees." It is not just about championships. The SEC is about culture and competitiveness. . . . It is about players. \*\*\* How the SEC Became Goliath provides an inside look at college football's most dominant conference. Four different schools in the SEC have won the last six championship titles: Florida vs. Ohio State in 2006 January 8, 2007 • The Zook-Meyer Gators embarrass the Big Ten. Florida 41 Ohio State 14 LSU vs. Ohio State in 2007 January 7, 2008 • Unbeaten in regulation, the Tigers are good . . . and lucky. LSU 38 Ohio State 24 Florida vs. Oklahoma in 2008 January 8, 2009 • One of the best teams in history, these Gators are all Meyer's. Florida 24 Oklahoma 14 Alabama vs. Texas in 2009 January 7, 2010 • The Tide make it four in a row for the SEC. Alabama 37 Texas 21 Auburn vs. Oregon in 2010 January 10, 2011 • Cam Newton and Auburn cap a perfect season. Auburn 22 Oregon 19 Alabama vs. LSU in 2011 January 9, 2012 • Saban wins his third title and the SEC makes it six in a row. Alabama 21 LSU 0

The descriptions and examples of unethical behaviors in sport in this book will challenge readers to rethink how they view sport

and question whether participating in sport builds character—especially at the youth and amateur levels. Sport potentially can teach character as well as social and moral values, but only when these positive concepts are consistently taught, modeled, and reinforced by sport leaders with the moral courage to do so. The seeming moral crisis threatening amateur and youth sport—evidenced by athletes, coaches, and parents alike making poor ethical choices—and ongoing scandals regarding performance-enhancing drug use by professional athletes make sports ethics a topic of great concern. This work enables readers to better understand the ethical challenges facing competitive sport by addressing issues such as gamesmanship, doping, cheating, sportsmanship, fair play, and respect for the game. A compelling read for coaches, sport administrators, players, parents, and sport fans, the book examines specific examples of unethical behaviors—many cases of which occur in amateur and educational sports—to illustrate how these incidents threaten the perception that sport builds character. It identifies and investigates the multiple reasons for cheating in sport, such as the fact that the rewards for succeeding are so high, and the feeling of athletes that they must behave as they do to "level the playing field" because everyone else is cheating, being violent, taking performance-enhancing drugs, or doing whatever it takes to win. Readers will gain insight into how coaches and sport administrators can achieve the goals for youth, interscholastic, intercollegiate, and Olympic sport by stressing moral values and character development as well as see how specific recommendations can help ensure that sport can serve to build character rather than teach bad behavior in the pursuit of victory.

Essentials of Metaheuristics (Second Edition) Simon and Schuster  
An anthropologist uses spelling bees as a lens to examine the unique and diverse traits of Generation Z—and why they are destined for success. At first glance, Generation Z (youth born after 1997) seems to be made up of anxious overachievers, hounded by Tiger Moms and constantly tracked on social media. One would think that competitors in the National Spelling Bee -- the most popular brain sport in America -- would be the worst off. Counterintuitively, anthropologist Shalini Shankar argues that, far from being simply overstressed and overscheduled, Gen Z spelling bee competitors are learning crucial twenty-first-century skills from their high-powered lives, displaying a sophisticated

understanding of self-promotion, self-direction, and social mobility. Drawing on original ethnographic research, including interviews with participants, judges, and parents, Shankar examines the outsized impact of immigrant parents and explains why Gen Z kids are on a path to success.

Philosopher, Broadway headliner, fighter, felon—Mike Tyson has defied stereotypes, expectations, and a lot of conventional wisdom during his three decades in the public eye. Bullied as a boy in the toughest, poorest neighborhood in Brooklyn, Tyson grew up to become one of the most ferocious boxers of all time—and the youngest heavyweight champion ever. But his brilliance in the ring was often compromised by reckless behavior. Yet—even after hitting rock bottom—the man who once admitted being addicted "to everything" fought his way back, achieving triumphant success as an actor and newfound happiness and stability as a father and husband. Brutal, honest, raw, and often hilarious, Undisputed Truth is the singular journey of an inspiring American original.

In *Choreographing in Color* , J. Lorenzo Perillo investigates the development of Filipino popular dance and performance since the late 20th century. Drawing from nearly two decades of ethnography, choreographic analysis, and community engagement with artists, choreographers, and organizers, Perillo shifts attention away from the predominant Philippine neoliberal and U.S. imperialist emphasis on Filipinos as superb mimics, heroic migrants, model minorities, subservient wives, and natural dancers and instead asks: what does it mean for Filipinos to navigate the violent forces of empire and neoliberalism with street dance and Hip-Hop? Employing critical race, feminist, and performance studies, Perillo analyzes the conditions of possibility that gave rise to Filipino dance phenomena across viral, migrant,

theatrical, competitive, and diplomatic performance in the Philippines and diaspora. Advocating for serious engagements with the dancing body, Perillo rethinks a staple of Hip-Hop's regulation, the "euphemism," as a mode of social critique for understanding how folks have engaged with both racial histories of colonialism and gendered labor migration. Figures of euphemism - the zombie, hero, robot, and judge - constitute a way of seeing Filipino Hip-Hop as contiguous with a multi-racial repertoire of imperial crossing, thus uncovering the ways Black dance intersects Filipino racialization and reframing the ongoing, contested underdog relationship between Filipinos and U.S. global power. *Choreographing in Color* therefore reveals how the Filipino dancing body has come to be, paradoxically, both globally recognized and indiscernible.
