German Encounters With Modernity Bloomsbury Publishing

Lynne Tatlock examines the transmission, diffusion, and literary survival of Jane Eyre in the German-speaking territories and the significance and effects thereof, 1848-1918. Engaging with scholarship on the romance novel, she presents an historical case study of the generative power and protean nature of Brontë's new romance narrative in German translation, adaptation, and imitation as it involved multiple agents, from writers and playwrights to readers, publishers, illustrators, reviewers, editors, adaptors, and translators. Jane Eyre in German Lands traces the ramifications in the paths of transfer that testify to widespread creative investment in romance as new ideas of women's freedom and equality topped the horizon and sought a home, especially in the middle classes. As Tatlock outlines, the multiple German instantiations of Brontë's novel-four translations, three abridgments, three adaptations for general readers, nine adaptations for younger readers, plays, farces, and particularly the fiction of the popular German writer E. Marlitt and its many adaptations- evince a struggle over its meaning and promise. Yet precisely this multiplicity (repetition, redundancy, and proliferation) combined with the romance narrative's intrinsic appeal in the decades between the March Revolutions and women's franchise enabled the cultural diffusion, impact, and long-term survival of Jane Eyre as German reading. Though its focus on the circulation of texts across linguistic boundaries and intertwined literary markets and reading cultures, Jane Eyre in German Lands unsettles the national paradigm of literary history and makes a case for a fuller and inclusive account of the German literary field.

Dietrich Bonhoeffer, one of the most influential Christian martyrs in history, bequeathed to humanity a legacy of theological creativity and spirituality that continues to intrigue people from a variety of backgrounds. Dietrich Bonhoeffer Works, a sixteen volume series, offers a fresh, critical translation of Bonhoeffer's writings, with introductions, annotations, and interpretations. The stimulus for the writing of Life Together was the closing of the preacher's seminary at Finkenwalde. The treatise contains Bonhoeffer's thoughts about the nature of Christian community based on the common life that he and his seminarians experienced at the seminary and in the "Brother's House" there. Bonhoeffer completed the writing of Life Together in 1938. Prayerbook of the Bible is a classic of Christian spirituality. In this theological interpretation of the Psalms, Bonhoeffer describes the moods of an individual's relationship with God and also the turns of love and heartbreak, of joy and sorrow, that are themselves the Christian community's path to God.

The Warburg Institute, founded in the 1920s in Hamburg by art and cultural historian Aby Warburg, is a pioneering institution that has greatly shaped the fields of art, myth, religion, medicine, philosophy, and intellectual history. When, in 1933, the institute was moved to London to escape the Nazis, its research and legacy were protected and further developed by a network of researchers dispersed throughout the UK, the US, and Canada. The first interdisciplinary study of the Warburg network as an arena of intellectual transmission, transformation, and exchange, this volume reveals the dynamics, agencies, and actors at play in the development of the Warburg Institute's program and output, with a specific focus on the role of Raymond Klibansky (1905-2005) in the institute's major ventures. Among these collective projects of the institute are the famous Saturn and Melancholy, which blends art history with philosophical and cultural history, and the Latin and Arabic Corpus Platonicum Medii Aevi series, which contributed to research on the continuity of Platonic thought. Consulting published and unpublished sources including correspondences, memories, and diaries of affiliated scholars, the essays explore the history of the Warburg Library as a vital cultural institution and the personal and intellectual relationships of the researchers devoted to it. From Hamburg to London to Montreal, Raymond Klibansky and the Warburg Library Network takes readers on a journey into more than forty years of intellectual life at one of the most prestigious cultural research institutes. Contributors include Philippe Despoix (Université de Montréal), Georges Leroux (UQAM), Eric Méchoulan (Université de Montréal), Elisabeth Otto (Université de Montréal), Elizabeth Sears (University of Michigan), Davide Stimilli (University of Colorado at Boulder), Jillian Tomm (Université de Montréal), Martin Trembl (Zentrum für Literatur- und Kulturforschung Berlin), Jean-Philippe Uzel (UQAM), Regina Weber (DLA Marbach), Claudia Wedepohl (The Warburg Institute London), and Graham Whitaker (Glasgow University)

Bonhoeffer as Biblical Interpreter Schocken

During the first two decades of the nineteenth century, two of the most significant theoretical works on color since Leonardo da Vinci's Trattato della Pittura were written and published in Germany: Arthur Schopenhauer's On Vision and Colors and Philipp Otto Runge's Color Sphere. For Schopenhauer, vision is wholly subjective in nature and characterized by processes that cross over into the territory of philosophy. Runge's Color Sphere and essay "The Duality of Color" contained one of the first attempts to depict a comprehensive and harmonious color system in three dimensions. Runge intended his color sphere to be understood not as a product of art, but rather as a "mathematical figure of various philosophical reflections." By bringing these two visionary color theories together within a broad theoretical context philosophy, art, architecture, and design this volume uncovers their enduring influence on our own perception of color and the visual world around us.

Bach's Johannine Theology: The St. John Passion and the Cantatas for Spring 1725 is a fertile examination of this group of fourteen surviving liturgical works. Renowned Bach scholar Eric Chafe begins his investigation into Bach's theology with the composer's St. John Passion, concentrating on its first and last versions. Beyond providing a uniquely detailed assessment of the passion, Bach's Johannine Theology is the first work to take the work beyond the scope of an isolated study, considering its meaning from a variety of musical and historical standpoints. Chafe thereby uncovers a range of theological implications underlying Bach's creative approach itself. Building considerably on his previous work, Chafe here expands his methodological approach to Bach's vocal music by arguing for a multi-layered approach to religion in Bach's compositional process. Chafe bases this approach primarily on two aspects of Bach's theology: first, the specific features of Johannine theology, which contrast with the more narrative approach found in the Synoptic Gospels (Matthew, Mark, Luke); and second, contemporary homiletic and devotional writings - material that is not otherwise easily accessible, and less so in English translation. Bach's Johannine Theology provides an unprecedented, enlightening exploration of the theological and liturgical contexts within which this music was first heard.

Can a Lutheran be sociopolitically radical? Can a radical be theologically and faithfully Lutheran?

This book answers yes. Written by teacher-scholars from five ELCA colleges, Radical Lutherans/Lutheran Radicals follows Martin Luther, Soren Kierkegaard, Dietrich Bonhoeffer, Dorothee Soelle, and others as they sink deep roots in the Lutheran Christian tradition while simultaneously resisting the status quo with their words, their deeds, and sometimes their very lives. Each chapter shows how the Lutheran theologian returns to the roots of Luther's life and writing and puts them toward radical social and political ends, including critiques of cultured Christianity; resistance to state or market; preferential options for the poor and suffering; deep commitments to peace, justice, and ecological sustainability; and direct nonviolent resistance. The book highlights theological themes popularized by Luther (justification by grace, two-kingdoms thinking, theology of the cross, and vocation) and then shows how these theological staples--when deeply and creatively retrieved--can inform political protest, intentional living, and other countercultural movements. The compelling claim throughout is that Luther's theology at its root has resources for radical political participation and social transformation, as exemplified by the writings and lives of these radical Lutherans/Lutheran radicals.

This new edition amplifies existing chapters by reference to books by Ratzinger between 1986/1987 and his election as Pope in

2005, and includes two new chapters - Judaism, Islam and other religions, and the secularization and future of Europe.

"Dietrich Bonhoeffer and Martin Luther King, Jr. - these giants of recent Christian social thought are here reassessed for a new context and a new generation. Both combined activism, ministry, and theology. Each took on public roles in opposition to prevailing powers of their time. Each professed a kind of Christian realism and ended as martyrs to their respective causes. Here many of the leaders in Christian social thought revisit the insights, causes, and strategies that Bonhoeffer and King employed for a new generation and its concerns: race, reconciliation, nonviolence, political violence, Christian theological identity, and ministry" -- BACK COVER.

Radical Lutherans/Lutheran Radicals Bloomsbury Publishing USA

This book explores why the metaphor of the church as a family is insufficient. In this, Arendt's concept of action and her criticism of privatizing the public political space by viewing it as a family are engaged through Bonhoeffer's ecclesiology and political theology and Stăniloae's triadology and theology of the world. The roots of the different views of Arendt and Bonhoeffer on family symbolism are traced to their distinct notions of acting. Human action becomes the central theme of the debate—particularly influenced by the Eastern Orthodox ecumenist Stăniloae and his vision of the communal relationship and interactivity of human subjects, and their place in the world.

Synthesizing Bonhoeffer and Stăniloae, Christian calling is unfolded not only as acting for others, but also with others as Trinitarian participatory response—response to the words and deeds of the three divine Persons acting in communion. In being drawn into these unique relations, human beings are empowered for communal and common acting of equals participating in public-political issues. Since the family metaphor fails to articulate such acting, this study complements this symbolism with the metaphor of the church as a political community of solidarity.

Discipleship Routledge

"Cheap grace is the mortal enemy of our church. Our struggle today is for costly grace." And with that sharp warning to his own church, which was engaged in bitter conflict with the official nazified state church, Dietrich Bonhoeffer began his book *Discipleship* (formerly entitled *The Cost of Discipleship*). Originally published in 1937, it soon became a classic exposition of what it means to follow Christ in a modern world beset by a dangerous and criminal government. At its center stands an interpretation of the Sermon on the Mount: what Jesus demanded of his followers—and how the life of discipleship is to be continued in all ages of the post-resurrection church. "Every call of Jesus is a call to death," Bonhoeffer wrote. His own life ended in martyrdom on April 9, 1945. Freshly translated from the German critical edition, *Discipleship* provides a more accurate rendering of the text and extensive aids and commentary to clarify the meaning, context, and reception of this work and its attempt to resist the Nazi ideology then infecting German Christian churches.

New and Complete Dictionary of the German Language for Englishmen Routledge

By oscillating between Dietrich Bonhoeffer's explicit hermeneutical reflections and his actual practice of interpreting biblical texts, Jameson E. Ross shows that Bonhoeffer's interpretive acts consist of a theologically self-reflective hermeneutic in which Scripture is for interpretation, underscoring how essential the interpreter's Spirit-given freedom, actions, theology, context and needs are for reading Scripture. Offering a fresh vision for methodological discussions in theology, this book is a valuable resource for graduate and postgraduate students and researchers on modern theology, political theology and ethics, and biblical exegesis.
