Since the advent of network television, situation comedies have been a staple of prime-time programming. In this book, Martin Gitlin has assembled the top 70 sitcoms in television history. The rankings were based on such factors as longevity, ratings, awards, humor, impact, and legacy. Iconic programs such as I Love Lucy, The Dick Van Dyke Show, and Leave it to Beaver join contemporary shows The Simpsons, Arrested Development, and Family Guy on the list. Each entry contains a comprehensive compilation of information, including cast members, a list of characters, air dates, ratings, notable episodes, awards, and more. Sure to inspire debate, The Greatest Sitcoms of All Time is the first book to rank the best sitcoms in television history.

Millions of users create and share Excel spreadsheets every day, but few go deeply enough to learn the techniques that will make their work much easier. There are many ways to take advantage of Excel's advanced capabilities without spending hours on advanced study. Excel Hacks provides more than 130 hacks -- clever tools, tips and techniques -- that will leapfrog your work beyond the ordinary. Now expanded to include Excel 2007, this resourceful, roll-up-your-sleeves guide gives you little known "backdoor" tricks for several Excel versions using different platforms and external applications. Think of this book as a toolbox. When a need arises or a problem occurs, you can simply use the right tool for the job. Hacks are grouped into chapters so you can find what you need quickly, including ways to: Reduce workbook and worksheet frustration -- manage how users interact with worksheets, find and highlight information, and deal with debris and corruption. Analyze and manage data -- extend and automate these features, moving beyond the limited tasks they were designed to perform. Hack names -- learn not only how to name cells and ranges, but also how to create names that adapt to the data in your spreadsheet. Get the most out of PivotTables -- avoid the problems that make them frustrating and learn how to extend them. Create customized charts -- tweak and combine Excel's built-in charting capabilities. Hack formulas and functions -- subjects range from moving formulas around to dealing with datatype issues to improving recalculation time. Make the most of macros -- including ways to manage them and use them to extend other features. Use the enhanced capabilities of Microsoft Office 2007 to combine Excel with Word, Access, and

Outlook. You can either browse through the book or read it from cover to cover, studying the procedures and scripts to learn more about Excel. However you use it, Excel Hacks will help you increase productivity and give you hours of "hacking" enjoyment along the way.

HNAI Dallas Online Final Session #451 Disha Publications

The book is about a village boy, who got rearing under the patronage of God-fearing mother and disciplinarian father, who was running a grocery shop in the nearby town. Struggling with the least facilities in the village and later in the nearby town, the boy could become lecturer in a degree college. Though he lost his job, the young boy was determined not to give up and succeeded in getting job in NCERT- The National level body. The book has many interesting innovations in education that are discussed including a chapter on the infamous Bhopal Gas tragedy of 1984. Later, the young teacher got an invitation from Manchester University for joining the course on EPPAM, thus initiating exposure to culture and functioning of a developed country. Thus adding anecdotes from U.K. Paris, New York, Sydney, Gold Coast, Auckland, and San Francisco, the autobiography also explores the Covid- 19 pandemic, and proposes meditation as conceived during Kriya Yoga.

China's role in global events today cannot be overestimated. This book provides a comprehensive and detailed overview of contemporary political developments in China. Key topics covered include: China's international relations with its neighbours and with the international community more widely; demographic developments; Taiwan; Macao and Hong Kong, Tibet, Uighurs; human rights, health issues (including bird flu); food contamination and defective goods; and a chronology of political developments, congresses and Central Committee sessions since May 2006; the earthquake of 12 May 2008 and the 2008 Olympic Games. The book continues - and adds to - the overview of

developments up to May 2006 which were covered in the author's *China: A Guide to Economic and Political Developments* (2006), and is the companion volume to *Economic Developments in Contemporary China: A Guide* (2010) - both published by Routledge.

The Law and the Dead USPTO

The fate of the dead is a compelling and emotive subject, which also raises increasingly complex legal questions. This book focuses on the substantive laws around disposal of the recently deceased and associated issues around their post-mortem fate. It looks primarily at the laws in England and Wales but also offers a comparative approach, drawing heavily on material from other common law jurisdictions including Australia, New Zealand, Canada and the United States. The book provides an in-depth, contextual and comparative analysis of the substantive laws and policy issues around corpse disposal, exhumation and the posthumous treatment of the dead, including commemoration. Topics covered include: the legal frameworks around burial, cremation and other disposal methods; the hierarchy of persons who have a legal duty to dispose of the dead and who are entitled to possession of the deceased's remains; offences against the dead; family burial disputes, and the legal status of burial instructions; the posthumous use of donated bodily material; and the rules around disinterment, and creating an appropriate memorial. A key theme of the book will be to look at the manner in which conflicts involving the dead are becoming increasingly common in secular, multi-cultural societies where the traditional nuclear family model is no longer the norm, and how such legal contests are resolved by courts. As the first comprehensive survey of the laws in this area for decades, this book will be of use to academics, lawyers and judges adjudicating on issues around the fate of the dead, as well as the death industry and funeral service providers.
