Big girls don't cry--they go after what they want--in this "fresh, fun, adorable" (Lori Wilde) romantic comedy. Thanks to her bangin' curves, Valerie Carmichael has always turned heads -- with the exception of seriously sexy Logan Mathis. Just Valerie's luck that the object of her lust-filled affection is also best friends with her overprotective brother. But Valerie's determined to get Logan's attention . . . even if it means telling a teeny little lie to get a job at his new bar. Logan can't remember a time when Valerie didn't secretly fuel all his hottest fantasies. Now the curvaceous she-devil is working behind his bar, tempting him every damn night. It's only when he finds Valerie's naughty things-to-do list that Logan decides to break every rule in the book -- by making each red-hot deed a reality. No one warned them that they were going to fall this hard. And no one warned them that sometimes the smallest secrets can have the biggest consequences.

With its depiction of the downtrodden prostitutes, bootleggers, and hustlers of Perdido Street in the old French Quarter of 1930s New Orleans, "A Walk on the Wild Side" tells, in Algren's own words, "something about the natural toughness of women and men, in that order".

In this smart, swoony, rom-com debut from Jenny L. Howe, two college exes find themselves battling against each other—and their unresolved feelings—for a spot in a prestigious literature Ph.D. program. Allison Avery loves to win. After acing every academic challenge she’s come up against, she’s finally been accepted into her dream Ph.D. program at Claymore University, studying medieval literature under a professor she’s admired for years. Sure, grad school isn’t easy—the classes are intense, her best friend is drifting away, and her students would rather pull all-nighters than discuss The Knight’s Tale—but she’s got this. Until she discovers her ex-boyfriend has also been accepted. Colin Benjamin might be the only person who loves winning more than Allison does, and when they’re both assigned to TA for the same professor, the game is on. What starts as a personal battle of wits (and lit) turns into all-out war when their professor announces a career-changing research trip opportunity—with one spot to fill. Competing with Colin is as natural as breathing, and after he shattered her heart two years ago, Allison refuses to let him come out on top. But when a family emergency and a late night road trip—plus a very sexy game of Scrabble—throw them together for a weekend, she starts to wonder if they could be stronger on the same team. And if they fall for each other all over again, Allison will have to choose between a once-in-a-lifetime opportunity and what could be a twice-in-a-lifetime love. In this charmingly bookish debut, *The Make-Up Test* embraces the truth that people can sometimes change and grow, even when you least expect it.

In this "brilliant...deeply felt" (Stephen King) novel by the New York Times bestselling author of the Chet and Bernie mystery series, a deeply damaged female soldier home from the war in Afghanistan becomes obsessed with finding a missing girl, gains an unlikely ally in a stray dog, and encounters new perils beyond the combat zone. LeAnne Hogan went to Afghanistan as a rising star in the military, and came back a much lesser person, mentally and physically. Now missing an eye and with half her face badly scarred, she can barely remember the disastrous desert operation that almost killed her. She is confused, angry, and suspects the fault is hers, even though nobody will come out and say it. Shattered by one last blow—the sudden death of her hospital roommate, Marci—LeAnne finds herself on a fateful drive across the country, reflecting on her past and seeing no future. Her native land is now unfamiliar, recast in shadow by her one good eye, her damaged psyche, her weakened body. Arriving in the rain-soaked small town in Washington State that Marci called home, she makes a troubling discovery: Marci’s eight-year-old daughter has vanished. When a stray dog—a powerful, dark, unreadable creature, no one’s idea of a pet—seems to adopt LeAnne, a surprising connection is formed and something shifts inside her. As she becomes obsessed with finding Marci’s daughter, LeAnne and her inscrutable canine companion are drawn into danger as dark and menacing as her last Afghan mission. This time she has a strange but loyal fellow traveler protecting her blind side. Enthralling, suspenseful, and psychologically nuanced, *The Right Side* introduces one of the most unforgettable protagonists in modern fiction: isolated, broken, disillusioned—yet still seeking redemption and purpose. As Harlan Coben raves, this is "a great suspense novel, and so much more. You won't forget the heroic LeAnne Hogan—and the same goes for her dog! Not to be missed."

Somewhere away from the cities and towns, in the Valley of the Rocks, a society of men and boys gather around the fire each night to listen to their history recounted by Nate, the storyteller. Requested most often by the group is the tale of the death of all women. They are the last generation. One evening, Nate brings back new secrets from the woods; peculiar mushrooms are growing from the ground where the women's bodies lie buried.
