Many disenchanting Kashmiris continue to demand independence or freedom from India. Written by a leading authority on Kashmir's troubled past, this book revisits the topic of independence for the region (also known as Jammu and Kashmir, or J&K), and explores exactly why this aspiration has never been fulfilled. In a rare India-Pakistan agreement, they concur that neither J&K, nor any part of it, can be independent. Charting a complex history and intense geo-political rivalry from Maharaja Hari Singh's leadership in the mid-1920s to the present, this book offers an essential insight into the disputes that have shaped the region. As tensions continue to rise following government-imposed COVID-19 lockdowns, Snedden asks a vital question: what might independence look like and just how realistic is this aspiration?

This book draws upon new theoretical insights and fresh bodies of data to historically reappraise partition in the light of its long aftermath. It uses a comparative approach by viewing South Asia in its totality, rather than looking at it in narrow 'national' terms. As the first book to focus on the aftermath of partition, it fills a distinctive niche in the study of contemporary South Asia.

These original essays show how the US government repeatedly aided certain regimes as they planned and then carried out crimes against humanity and genocide. What makes the collection unique—and chilling—is the inclusion of declassified documents generated by the US government at the time: memoranda, telegrams, letters, talking points, cables, discussion papers, and situation reports. In his introduction, Totten offers a critical assessment of US foreign policy as it pertains to genocide and crimes against humanity, and discusses the differences between those two terms. In the chapters that follow, each author presents a detailed analysis of a particular case of crimes against humanity or genocide by a foreign government against its own citizens, and discusses why and how the United States government was complicit.

Identifying himself as both an Indian and a Canadian but first and foremost a Sikh, Tara Singh has shuttled back and forth between Canada and India for most of his life, finding personal harmony while incorporating two very different countries and cultures into his life. Tara Singh was raised within an amritdhari, or baptised, Sikh tradition in a small village in Punjab, India; his values and identity are firmly rooted in Punjabi Sikh culture. As a child and adolescent he suffered mercilessly from his father's verbal and physical cruelty, but the support that he drew from his village environment and his religion gave him strength. He married, according to traditional practices, the woman that his family had arranged for him to wed. Sponsored by his sister, Tara Singh emigrated to Canada in the early 1950s and settled in British Columbia. He came alone, without his wife and children, as most Punjabis did. His greatest initial shock in Canada was his experience with racism, and its impact on his relatives who tried to persuade him to shave

his beard and abandon his turban - two sacred symbols of the Sikh. Refusing to betray his beliefs, he resisted the relentless pressure of his family just as he later fought against the exploitation of immigrants in the saw mills where he worked. Tara Singh became active in fighting for immigrant rights and protecting the Sikh faith in Canada. The Four Quarters of the Night is more than one man's life story: his single voice reveals much about the collective experience of immigrants. Tara Singh's narrative presents an evocative picture of a newcomer's experiences in a land of foreign customs, culture, and religious beliefs. Hugh Johnston, to whom Tara Singh told his story, has created a unique and invaluable document in immigration and ethnic history.

Pakistan has over the decades become a hotbed for the terrorist ideology often referred to as Jihadism. This book investigates the underlying principles of Pakistan's foreign policy from 1947 until the present day, and explains the rise of Jihadism as an offshoot of Pakistan's security concerns. The book goes on to discuss that from its inception as a separate state, Pakistan's foreign policy focused on 'seeking parity' with India and 'escaping' from an Indian South Asian identity. The desire to achieve parity with its much larger neighbour led Pakistan to seek the assistance and support of allies. The author analyses the relationship Pakistan has with Afghanistan, United States, China and the Muslim world, and looks at how these relationships are based on the desire that military, economic and diplomatic aid from these countries would bolster Pakistan's meagre resources in countering Indian economic and military strength. The book presents an interesting contribution to South Asian Studies, as well as studies on International Relations and Foreign Policy.

Many non-Indian readers find the historical and cultural references in Salman Rushdie's *Midnight's Children* demanding. In his close reading of the novel, Neil ten Kortenaar offers post-colonial literary strategies for understanding *Midnight's Children* that also challenge some of the prevailing interpretations of the novel. Using hybridity, mimicry, national allegory, and cosmopolitanism, all key critical concepts of postcolonial theory, ten Kortenaar reads *Midnight's Children* as an allegory of history, as a Bildungsroman and psychological study of a burgeoning national consciousness, and as a representation of the nation. He shows that the hybridity of Rushdie's fictional India is not created by different elements forming a whole but by the relationship among them. Self, Nation, Text in Salman Rushdie's *Midnight's Children* also makes an original argument about how nation-states are imagined and how national consciousness is formed in the citizen. The protagonist, Saleem Sinai, heroically identifies himself with the state, but this identification is beaten out of him until, in the end, he sees himself as the Common Man at the mercy of the state. Ten Kortenaar reveals Rushdie's India to be more self-conscious than many communal identities based on language: it is an India haunted by a dark twin called Pakistan; a nation in the way England is a nation but imagined against England. Mistrusting the openness of Tagore's Hindu India, it is both cosmopolitan and a specific subjective location.

Midnight's Descendants Farrar, Straus and Giroux

With the emergence of Hindu nationalism, the conversion of Indians to Christianity has become a volatile issue, erupting in violence against converts and missionaries. At the height of British colonialism, however, conversion was a path to upward mobility for low-castes and untouchables, especially in the Tamil-speaking south of India. In this book, Eliza F. Kent takes a fresh look at these conversions, focusing especially on the experience of women converts and the ways in which conversion transformed gender roles and expectations. Kent argues that the creation of a new, "respectable" community identity was central to the conversion process for the agricultural laborers and artisans who embraced Protestant Christianity under British rule. At the same time, she shows, this new identity was informed as much by elite Sanskrit customs and ideologies as by Western Christian discourse. Stigmatized by the dominant castes for their ritually polluting occupations and relaxed rules governing kinship and marriage, low-caste converts sought to validate their new higher-status identity in part by the reform of gender relations. These reforms affected ideals of femininity and masculinity in the areas of marriage, domesticity, and dress. By the creation of a "discourse of respectability," says Kent, Tamil Christians hoped to counter the cultural justifications for their social, economic, and sexual exploitation at the hands of high-caste landowners and village elites. Kent's focus on the interactions between Western women missionaries and the Indian Christian women not only adds depth to our understanding of colonial and patriarchal power dynamics, but to the intricacies of conversion itself. Posing an important challenge to normative notions of conversion as a privatized, individual moment in time, Kent's study takes into consideration the ways that public behavior, social status, and the transformation of everyday life inform religious conversion.

This book looks at a controversial event from modern history, showing why one of the world's most famous leaders chose a particular course of action.

The Distinctive Character of the Free University in Amsterdam, 1880-2005 Wm. B. Eerdmans Publishing

This book critically examines the politico-military strategy of India, Pakistan, and Bangladesh during the Bangladesh Liberation War of 1971. What began as a power struggle and cultural conflict between West and East Pakistan, later compelled India to intervene—an intervention that decisively

shaped and influenced the geo-politics of the region and the global order. This volume is a systematic study of the situation of events, operational art and tactics, cold war politics, international reactions, and their impact on the formulation of the national grand strategy of all three nations. The book discusses various key themes such as the creation of Pakistan and events leading to its secession, the military geography of East Pakistan, state of armed forces of India and Pakistan and India's humanitarian intervention, the role of Mukti Bahini, and the ambiguous stance of the United Nations in the war. The book offers an appraisal of the performances of the opposing forces and reflects on the inevitability of war and its outcome. It also gives an overview of the state formation of the three nations, encompassing the defining moments of the modern history of these South Asian countries and highlighting the socio-economic progress they have made half a century after the liberation war. A compelling treatise in the history of politico-military strategy, this book will be of interest to scholars and researchers of politics and international relations, partition studies, modern history, military history, South Asian studies, international security, defence and strategic studies, language politics, Islamic history, and refugee and diaspora studies. It will also appeal to general readers interested in the histories of Bangladesh, Pakistan, and India.

Birth of Modern India Columbia University Press

The modern history of South Asia is shaped by the personalities of its two most prominent politicians and ideologues ? Mohammad Ali Jinnah and Mahatma Gandhi. Jinnah shaped the final settlement by consistently demanding Pakistan, and Gandhi defined the largely non-violent nature of the campaign. Each made their contribution by taking over and refashioning a national political party, which they came to personify. Theirs would seem, therefore, to be a story of success, yet for each of them, the story ended in a kind of failure. How did two educated barristers who saw themselves as heralds of a newly independent country come to find themselves on opposite ends of the political spectrum? How did Jinnah, who started out a secular liberal, end up a Muslim nationalist? How did a God-fearing moralist and social reformer like Gandhi become a national political leader? And how did their fundamental divergences lead to the birth of two new countries that have shaped the political history of the subcontinent? This book skilfully chronicles the incredible similarities and ultimate differences between the two leaders, as their admirers and detractors would have it and as they actually were.

Shots rang out in Savannah's grandest mansion in the misty,early morning hours of May 2, 1981. Was it murder or self-defense? For nearly a decade, the shooting and its aftermath reverberated throughout this hauntingly beautiful city of moss-hung oaks and shaded squares. John Berendt's sharply observed, suspenseful, and witty narrative reads like a thoroughly engrossing novel, and yet it is a work of nonfiction. Berendt skillfully interweaves a hugely entertaining first-person account of life in this isolated remnant of the Old South with the unpredictable twists and turns of a landmark murder

case. It is a spellbinding story peopled by a gallery of remarkable characters: the well-bred society ladies of the Married Woman's Card Club; the turbulent young redneck gigolo; the hapless recluse who owns a bottle of poison so powerful it could kill every man, woman, and child in Savannah; the aging and profane Southern belle who is the "soul of pampered self-absorption"; the uproariously funny black drag queen; the acerbic and arrogant antiques dealer; the sweet-talking, piano-playing con artist; young blacks dancing the minuet at the black debutante ball; and Minerva, the voodoo priestess who works her magic in the graveyard at midnight. These and other Savannahians act as a Greek chorus, with Berendt revealing the alliances, hostilities, and intrigues that thrive in a town where everyone knows everyone else. *Midnight in the Garden of Good and Evil* is a sublime and seductive reading experience. Brilliantly conceived and masterfully written, this enormously engaging portrait of a most beguiling Southern city has become a modern classic.

Making of Martyrs unravels an epic saga of populist politics in the postcolonial Indian subcontinent. Indira Gandhi, Zulfikar Ali Bhutto and Sheikh Mujibur Rahman were towering figures and have been simultaneously loved and hated in equal measure. During their heyday, each of these leaders garnered extraordinary power and charisma. Their followers, admirers and loyal supporters continue to idolise and romanticise them, yet in the eyes of their critics they were ruthless, power-hungry tyrants and partisan villains. These dichotomies remain irreconcilable since their followers venerate them as a model for the future and their critics relegate them to a haunted past. Drawing on years of research, Faisal Khosa explores the turbulent lives and times of these three leaders and gives us a vivid account of their politics and personalities.
