Since intelligence can be influenced by circumstance and environment, The Parallel Curriculum Model Unit, K-5, shows elementary educators how to provide clear unit planning utilizing the empirical-based model. Broken out into 4 sections, this resource provides the following: 1) a chapter on each content unit in K-5 literacy, mathematics, social studies and science using the Model; 2) a content framework based on national and content standards; 3) unit assessments, and 4) unit sequence as well as teacher reflection lessons. Approximately 5-7 lessons of each content area will be provided in every chapter in this handy resource. The opening chapter defines what The Parallel Curriculum is and discusses how this researched-based curriculum can be created and utilized for gifted learners, learners with special needs, as well as general education students. Recognizing that curricula should be flexible to meet the needs of all learners, The Parallel Curriculum Model Unit Book, K-5, provides a educational rationale for developing a new curriculum model, gives a brief overview of the theoretical underpinnings of the model, and aims to help practitioners apply the specific units and lessons in the classroom.
