ANTON JULISSA

Music Dictionary UM Libraries

Meyerbeer's first opera, *Jephtas Gelübde*, has a libretto by the German academic Alois Schreiber, based on a Biblical theme taken from chapters 11-12 of the Book of Judges. The story centres on the vow the ancient Israelite Judge made to God in return for victory over the enemy: "If thou wilt give the Ammonites into my hand, then whatever comes forth from the doors of my house to meet me, when I return victorious . . . I will offer him up for a burnt offering". The first person he was fateful...

The Proportional Function of the Cadenza in the First Movements of Mozart's Piano Concertos

Рипол Классик Human and Machine Hearing is the first book to comprehensively describe how human hearing works and how to build machines to analyze sounds in the same way that people do. Drawing on over thirty-five years of experience in analyzing hearing and building systems, Richard F. Lyon explains how we can now build machines with close-to-human abilities in speech, music, and other sound-understanding domains. He explains human hearing in terms of engineering concepts, and describes how to incorporate those concepts into machines for a wide range of modern applications. The details of this approach are presented at an accessible level, to bring a diverse range of readers, from neuroscience to engineering, to a common technical understanding. The description of hearing as signal-processing algorithms is supported by corresponding open-source code, for which the book serves as motivating documentation.

Giuseppe Verdi & Giovanni Ricordi with Notes on Francesco Lucca Garland Publishing

The Pathways of Song series offers concert songs in easy vocal ranges for the voice student, by composers such as Schubert, Brahms, Handel, Bach, Mozart, Beethoven, and Haydn. The series includes representative repertoire, with English translations and piano accompaniment. This title is available in MakeMusic Cloud.

(Paperback Songs). This convenient new paperback-sized music dictionary is divided into three main sections. The Dictionary of Music Terms concisely defines more than 2,200 notation and theory terms, and instruments and terms used in pop music, electronic music and the music business. The Dictionary of Musicians provides more than 450 capsule biographies of composers and other musicians, noting dates of birth and death, nationality, historical period, areas of composition, and major works. Finally, a collection of Reference Charts gives instant, at-a-glance summaries of the essentials of music: notation signs and symbols including tab and scales, modes and key signatures.

Camille Saint-Saëns 1835-1921: A Thematic Catalogue of his

Complete Works defines the achievement of this great French composer. All his musical works are presented: the well-recognized masterpieces, the childhood sketches, the unpublished compositions, and the previously unknown pieces now revealed for the first time. This comprehensive collection fully documents the composer's extraordinary contribution to the musical world. Volume 1 concentrates specifically on his Instrumental output, while the two later volumes will cover Dramatic Works and Choral & Vocal Works respectively. [Catalogue of the Allen A. Brown Collection of Music in the Public Library of the City of Boston](#) Cambridge Scholars Publishing Expertly arranged Vocal Collection for Medium High Voice from the Kalmus Edition series. A landmark in Brazilian music scholarship, *A Respectable Spell* introduces English-speaking readers to the rich history of samba from its nineteenth century origins to its emergence as a distinctive genre in the 1930s. Merging storytelling with theory, Carlos Sandroni profiles performers, composers, and others while analyzing the complex ideologies their music can communicate in their lyrics and rhythms, and how the meaning of songs and musical genres can vary depending on social and historical context. He also delves into lundu, modinha, maxixe, and many other genres of Brazilian music; presents the little-heard voices and perspectives of marginalized Brazilians like the African-descended sambistas; and presents a study in step with the types of decolonial approaches to ethnomusicology that have since emerged, treating the people being studied not only as makers of music but also of knowledge. Incisive and comprehensive, *A Respectable Spell* tells the compelling story of an iconic Brazilian musical genre.

Bulletin - National Music Council Alfred Music

This second edition of *Song Sheets to Software* includes completely revised and updated listings of music software, instructional media, and music-related Internet Web sites of use to all musicians, whether hobbyist or professional. This book is a particularly valuable resource for the private studio and classroom music teacher.
