Look up! From the Caldecott Medal-winning creator of the hat trilogy comes a new deadpan gem. There is a spot. It is a good spot. It is the perfect spot to stand. There is no reason to ever leave. But somewhere above there is also a rock. A rock from the sky. Here comes *The Rock from the Sky*, a hilarious meditation on the workings of friendship, fate, shared futuristic

visions, and that funny feeling you get that there's something off somewhere, but you just can't put your finger on it. Merging broad visual suspense with wry wit, celebrated picture book creator Jon Klassen gives us a wholly original comedy for the ages. *We Own the Sky* Vintage In every manner of framing, there is a house. There is a door one must enter through, a door one must shut behind herself in order to leave. In every manner of space, there is an intimate and crucial

rivalry between open and close, between time and memory, between myself and yourself. The further we walk together, the further we walk in parallel, that distance between us that wavers, minuscule on some days, and incredibly vast on others, but always and certainly there, that distance persists. The entire sky between us. The entire sky between us.

The Sky Is Always Blue

Kings Road Publishing
One moment Joseph Schwartz is a happily

retired tailor in Chicago, 1949. The next he's a helpless stranger on Earth during the heyday of the first Galactic Empire. Earth, as he soon learns, is a backwater, just a pebble in the sky, despised by all the other 200 million planets of the Empire because its people dare to claim it's the original home of man. And Earth is poor, with great areas of radioactivity ruining much of its soil--so poor that everyone is sentenced to death at the age of sixty. Joseph Schwartz is sixty-two. This

is young Isaac Asimov's first novel, full of wonders and ideas, the book that launched the novels of the Galactic Empire, culminating in the Foundation series. This is Golden Age SF at its finest. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied. [The Children of the Sky](#) St. Martin's Press Jandy Nelson's beloved, critically adored debut is now an Apple TV+ and A24 original film starring Jason Segel, Cherry Jones,

Grace Kaufman, and Jacques Colimon. "Both a profound meditation on loss and grieving and an exhilarating and very sexy romance." —NPR Adrift after her sister Bailey's sudden death, Lennie finds herself torn between quiet, seductive Toby—Bailey's boyfriend who shares Lennie's grief—and Joe, the new boy in town who bursts with life and musical genius. Each offers Lennie something she desperately needs. One boy helps her remember. The other lets her forget.

And she knows if the two of them collide, her whole world will explode. As much a laugh-out-loud celebration of love as a nuanced and poignant portrait of loss, Lennie's struggle to sort her own melody out of the noise around her makes for an always honest, often uproarious, and absolutely unforgettable read.

University Press
A triumphant story of a father and his little boy—and a love that knows no limits. Rob Coates is a survivor. He'd thought he'd won the lottery of life—a beautiful home, an incredible wife Anna, and their precious son Jack, who makes every day an extraordinary adventure. But when tragedy befalls his family, Rob becomes his own worst enemy, pushing away all he holds dear. With his world now suddenly just outside of his grasp, Rob turns to

photography, capturing the beautiful skyscrapers and clifftops he used to visit—memories of the time when his family was happy. And just when it feels as though there's nowhere left to turn, Rob embarks on the most unforgettable of journeys to reclaim the joy and love he thought he'd lost. Deeply emotional, beautifully written, and filled with tremendous heart, We Own the Sky is a soaring debut about the strength of the human spirit and the boundlessness of love. It

is a stunningly honest reminder of life's greatest gifts, showing how even a broken heart can learn to beat again.

Should you save a world that doesn't want to save you? Award-winning author Lilliam Rivera explores the haunting story of an alien invasion from the perspective of three Latinx teens. Pedro, Luna, and Rafa may attend Fairfax High School together in Los Angeles, but they run in separate spheres. Pedro is often

told that he's "too much" and seeks refuge from his home life in a local drag bar. Luna is pretending to go along with the popular crowd but is still grieving the unexpected passing of her beloved cousin Tasha. Then there's Rafa, the quiet new kid who is hiding the fact that his family is homeless. But Pedro, Luna, and Rafa find themselves thrown together when an extraterrestrial visitor lands in their city and takes the form of Luna's cousin Tasha. As the Visitor causes destruction

wherever it goes, the three teens struggle to survive and warn others of what's coming--because this Visitor is only the first of many. But who is their true enemy--this alien, or their fellow humans? Pura Belpré Honor-winning author Lilliam Rivera examines the days before a War of the Worlds-inspired alien invasion in this captivating and chilling new novel.

Drawn and Quarterly

From the author of

Astrophysics for People in

a Hurry and the host of Cosmos: A Spacetime Odyssey, a memoir about growing up and a young man's budding scientific curiosity. This is the absorbing story of Neil deGrasse Tyson's lifelong fascination with the night sky, a restless wonder that began some thirty years ago on the roof of his Bronx apartment building and eventually led him to become the director of the Hayden Planetarium. A unique chronicle of a young man who at one time was both nerd and jock, Tyson's

memoir could well inspire other similarly curious youngsters to pursue their dreams. Like many athletic kids he played baseball, won medals in track and swimming, and was captain of his high school wrestling team. But at the same time he was setting up a telescope on winter nights, taking an advanced astronomy course at the Hayden Planetarium, and spending a summer vacation at an astronomy camp in the Mojave Desert. Eventually, his scientific curiosity

prevailed, and he went on to graduate in physics from Harvard and to earn a Ph.D. in astrophysics from Columbia. There followed postdoctoral research at Princeton. In 1996, he became the director of the Hayden Planetarium, where some twenty-five years earlier he had been awed by the spectacular vista in the sky theater. Tyson pays tribute to the key teachers and mentors who recognized his precocious interests and abilities, and helped him succeed. He intersperses

personal reminiscences with thoughts on scientific literacy, careful science vs. media hype, the possibility that a meteor could someday hit the Earth, dealing with society's racial stereotypes, what science can and cannot say about the existence of God, and many other interesting insights about science, society, and the nature of the universe. Now available in paperback with a new preface and other additions, this engaging memoir will enlighten and inspire an

appreciation of astronomy and the wonders of our universe.

An Uninterrupted View of the Sky DigiCat

Now in translation for the first time, the award-winning debut that broke literary ground in Japan explores diaspora, prejudice, and the complexities of a teen girl's experience growing up as a Zainichi Korean, reminiscent of Min Jin Lee's classic *Pachinko* and Sandra Cisneros's *The House on Mango Street*. Seventeen-year-old Ginny Park is about to get

expelled from high school—again. Stephanie, the picture book author who took Ginny into her Oregon home after she was kicked out of school in Hawaii, isn't upset; she only wants to know why. But Ginny has always been in-between. She can't bring herself to open up to anyone about her past, or about what prompted her to flee her native Japan. Then, Ginny finds a mysterious scrawl among Stephanie's scraps of paper and storybook drawings that changes everything: The sky is

about to fall. Where do you go? Ginny sets off on the road in search of an answer, with only her journal as a confidante. In witty and brutally honest vignettes, and interspersed with old letters from her expatriated family in North Korea, Ginny recounts her adolescence growing up Zainichi, an ethnic Korean born in Japan, and the incident that forced her to leave years prior. Inspired by her own childhood, author Chesil creates a portrait of a girl who has been

fighting alone against barriers of prejudice, nationality, and injustice all her life—all while searching for a place to belong.

The Sky Is the Limit

Simon and Schuster
In the wake of sudden tragedy, twin sisters uncover a secret that rips open their world. Katherine Rothschild explores the pain and power of forgiveness in a stunning debut novel that will shatter your heart and piece it back together, one truth at a time. Sixteen-year-old Sabine

Braxton doesn't have much in common with her identical twin, Blythe. When their father dies from an unexpected illness, each copes with the loss in her own way—Sabine by “poeting” (an uncontrollable quirk of bursting into poetry at inappropriate moments) and Blythe by obsessing over getting into MIT, their father's alma mater. Neither can offer each other much support . . . at least not until their emotionally detached mother moves them into a ramshackle Bay Area

mansion owned by a stranger named Charlie. Soon, the sisters unite in a mission to figure out who Charlie is and why he seems to know everything about them. They make a life-changing discovery: their parents were hiding secrets about their sexual identities. The revelation unravels Sabine's world, while practical Blythe seems to take everything in stride. Once again at odds with her sister, Sabine chooses to learn all she can about the father she never knew. Ultimately, she

must decide if she can embrace his last wish for a family legacy--even if it means accepting a new idea of what it means to be a family.

'A bracing, heart-lifting read. Patterson is a superb writer' Observer
OUTSIDE, THE SKY IS BLUE is a heart-breaking yet also truly joyful and wise memoir of growing up, of dealing with mental health and illness, and of what it means to be part of a family that, despite everything, is able to

laugh and to love. 'A memoir about the loss of faith and hope. A memoir about the loss of faith and hope. The book journeys to dark places but it's too honest and well written to be dispiriting. She perseveres in her quest to understand' Guardian
When Christina Patterson's brother Tom died suddenly, she faced the harrowing task of clearing out his house. Tom had always been the one who held on to the family treasures and memories, but now Christina had to sift

through boxes of letters, photos and belongings, not just of Tom's, but of their parents and their older sister, Caroline. The contents of those boxes tell the story of a young couple who decide to swap a glamorous diplomatic life in Rome for a housing estate in Surrey. But their new suburban, happy life, is increasingly disrupted by Caroline's erratic behaviour. As she is diagnosed with schizophrenia, Tom seeks solace in sport and Christina in a youth club

where she hopes to meet boys, but finds God instead. It doesn't help her in her quest for romance. 'A hymn to optimism, and a beacon of unflagging hope' iPaper 'This is a joyful book. Despite the sorrows, there is a determined joy to this tale, a pattern of finding the good despite the bad, of turning to face the sun so the shadows fall behind' Dr Kathryn Mannix 'She writes beautifully - crisp, yet emotional and page-turning. For me, it is something about her

clarity and brutal honesty in describing both heartbreak and heart bursting life and love. In the end it is only the love that matters' Julia Samuel, author of Grief Works [The Color of the Sky Is the Shape of the Heart](#) Civil Coping Mechanisms From the author of Astrophysics for People in a Hurry and the host of Cosmos: A Spacetime Odyssey, a memoir about growing up and a young man's budding scientific curiosity. The Sky Is Not the Limit Prometheus Books
Modern history unearthed as a boy becomes an innocent victim of

corruption in Bolivia's crime world, where the power of family is both a prison and a means of survival. It's 1999 in Bolivia and Francisco's life consists of school, soccer, and trying to find space for himself in his family's cramped yet boisterous home. But when his father is arrested on false charges and sent to prison by a corrupt system that targets the uneducated, the poor, and the indigenous majority, Francisco and his sister are left with no choice: They must move into

prison with their father. There, they find a world unlike anything they've ever known, where everything—a door, a mattress, protection from other inmates—has its price. Prison life is dirty, dire, and dehumanizing. With their lives upended, Francisco faces an impossible decision: Break up the family and take his sister to their grandparents in the Andean highlands, fleeing the city and the future within his grasp, or remain together in the increasingly dangerous

prison. Pulled between two undesirable options, Francisco must confront everything he once believed about the world and his place within it. In this heart-wrenching novel, Melanie Crowder sheds light on a little-known era of modern South American history—where injustice still looms large—and proves that hope can be found, even in the most desperate places. Perfect for fans of Ruta Sepetys, Matt de la Pena, and Jacqueline Woodson. Praise for An

Uninterrupted View of the Sky: ★ "Crowder delivers a disturbing portrait of innocent families trapped in corrupt systems, as well as a testament to the strength of enduring cultural traditions and the possibility of finding family in the unlikeliest places."—Publishers Weekly, starred review ★ "Readers will feel utterly invested in Francisco's various challenges...A riveting, Dickensian tale."—Kirkus, starred review ★ "Themes of poverty, social injustice...violence toward

women, coming-of-age, romantic love, and a sliver of precarious hope are woven into the plot...[An] important addition to libraries."—School Library Journal, starred review "[A] trenchant novel...This hard-hitting, ultimately hopeful story will open readers' eyes to a lesser-known historical moment and the far-reaching implications of U.S. policy."—Booklist "[This novel] is raw, gripping, poetic and bold...Crowder takes you on an emotional pilgrimage that you won't want to end."—RT Book

rights, labor unions, and the immigrant experience."—School Library Connection, starred review We Should Not Be Afraid of the Sky Chronicle Books LLC An inspiring anthology of writings by trailblazing women astronomers from around the globe The Sky Is for Everyone is an internationally diverse collection of autobiographical essays by women who broke down barriers and changed the face of modern astronomy.

Virginia Trimble and David Weintraub vividly describe how, before 1900, a woman who wanted to study the stars had to have a father, brother, or husband to provide entry, and how the considerable intellectual skills of women astronomers were still not enough to enable them to pry open doors of opportunity for much of the twentieth century. After decades of difficult struggles, women are closer to equality in astronomy than ever before. Trimble and Weintraub bring together

the stories of the tough and determined women who flung the doors wide open. Taking readers from 1960 to today, this triumphant anthology serves as an inspiration to current and future generations of women scientists while giving voice to the history of a transformative era in astronomy. With contributions by Neta A. Bahcall, Beatriz Barbuy, Ann Merchant Boesgaard, Jocelyn Bell Burnell, Catherine Cesarsky, Poonam Chandra, Xuefei Chen, Cathie Clarke,

The Sky is Yours Tulika Books

ON THE MORNING OF 9TH AUGUST 2015 AMANDA NEWTON'S LIFE CHANGED FOREVER WHEN SHE

BROKE HER BACK IN A CYCLING ACCIDENT. From the day of the accident Amanda took to Facebook documenting everyday life from her new position. The Sky Is Not The Limit documents a year in the life of this extraordinarily inspiring woman as she comes to terms with the reality of living with sudden paralysis from the waist down, and the trials and challenges that she faced up until the year anniversary of the accident. 'You get very few chances in life to meet people that just

amaze you, Amanda is one of them for me... Read this book, it will put a lot into perspective; it did for me and I drew on her inspiration during my dark times of the challenge.' - Ben Smith, who ran 401 marathons in 401 days for The 401 Challenge
The Sky Is Everywhere
 The New Press
 "A satire of writerly ambition wrapped in a psychological thriller . . . An homage to Patricia Highsmith, Oscar Wilde and Edgar Allan Poe, but its execution is entirely

Boyne's own."—Ron Charles, *The Washington Post* NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE WASHINGTON POST AND MINNEAPOLIS STAR TRIBUNE Maurice Swift is handsome, charming, and hungry for fame. The one thing he doesn't have is talent—but he's not about to let a detail like that stand in his way. After all, a would-be writer can find stories anywhere. They don't need to be his own. Working as a waiter in a West Berlin hotel in 1988, Maurice engineers the

perfect opportunity: a chance encounter with celebrated novelist Erich Ackermann. He quickly ingratiates himself with the powerful – but desperately lonely – older man, teasing out of Erich a terrible, long-held secret about his activities during the war. Perfect material for Maurice's first novel. Once Maurice has had a taste of literary fame, he knows he can stop at nothing in pursuit of that high. Moving from the Amalfi Coast, where he matches wits with Gore Vidal, to Manhattan and

London, Maurice hones his talent for deceit and manipulation, preying on the talented and vulnerable in his cold-blooded climb to the top. But the higher he climbs, the further he has to fall. . . Sweeping across the late twentieth century, *A Ladder to the Sky* is a fascinating portrait of a relentlessly immoral man, a tour de force of storytelling, and the next great novel from an acclaimed literary virtuoso. Praise for *A Ladder to the Sky* “Boyne’s mastery of

perspective, last seen in *The Heart’s Invisible Furies*, works beautifully here. . . . Boyne understands that it’s far more interesting and satisfying for a reader to see that narcissist in action than to be told a catchall phrase. Each step Maurice Swift takes skyward reveals a new layer of calumny he’s willing to engage in, and the desperation behind it. . . so dark it seems almost impossible to enjoy reading *A Ladder to the Sky* as much as you definitely will enjoy

reading it.”—NPR
 “Delicious . . . spins out over several decades with thrilling unpredictability, following Maurice as he masters the art of co-opting the stories of others in increasingly dubious ways. And while the book reads as a thriller with a body count that would make Highsmith proud, it is also an exploration of morality and art: Where is the line between inspiration and thievery? To whom does a story belong?”—Vanity Fair

And the Sky is Not the

Limit Hogarth

Navigating their burned-out, futuristic city home under constant threat from a pair of dragons circling the skies, three young people are forced to flee and confront challenges ranging from fire and conspiracies to taboo drugs and dragon-worshippers.

The Sky is Mine Tall Oaks Press LLC

A Sunday Times (London), Best Book of 2018 “A thoughtful, entertaining, and occasionally profound critical study of the texts that entertain, move and,

sometimes, shape us.”

—The Spectator (London) “A bold, witty, and brilliantly argued analysis of the role pop culture has played in the rise of American extremism.”

—Ruth Reichl “You’ll never look at your favorite movies and TV shows the same way again. And you shouldn’t.” —Steven Soderbergh A bestselling cultural journalist shows how pop culture prepared Americans to embrace extreme politics Almost everything has been invoked to account for Trump’s victory and the

rise of the alt-right, from job loss to racism to demography—everything, that is, except popular culture. In The Sky Is Falling bestselling cultural journalist Peter Biskind dives headlong into two decades of popular culture—from superhero franchises such as the Dark Knight, X-Men, and the Avengers and series like The Walking Dead and Game of Thrones to thrillers like Homeland and 24—and emerges to argue that these shows are saturated with the values that are currently

animating our extreme politics. Where once centrist institutions and their agents—cops and docs, soldiers and scientists, as well as educators, politicians, and “experts” of every stripe—were glorified by mainstream Hollywood, the heroes of today’s movies and TV, whether

far right or far left, have overthrown this quaint ideological consensus. Many of our shows dramatize extreme circumstances—an apocalypse of one sort or another—that require extreme behavior to deal with, behavior such as revenge, torture, lying,

and even the vigilante violence traditionally discouraged in mainstream entertainment. In this bold, provocative, and witty investigation, Biskind shows how extreme culture now calls the shots. It has become, in effect, the new mainstream.
