One of the most widely read books on modern design, Nikolaus

Pevsner's landmark work today remains as stimulating as it was when first published in 1936. This expanded edition of *Pioneers of Modern Design* provides Pevsner's original text along with significant new and updated information, enhancing Pevsner's illuminating account of the roots of Modernism. The book now offers many beautiful colour illustrations;

updated biographies and bibliographies of all major figures; illustrated short essays on key themes, movements, and individuals; a critique of Pevsner's analysis from today's perspective; examples of works after 1914 (where the original study ended); a biography detailing Pevsner's life and achievements; and much more. Pevsner saw Modernism as

a synthesis of three main sources: William Morris and his followers, the work of nineteenth-century engineers, and Art Nouveau. The author considers the role of these sources in the work of early Modernists and looks at such masters of the movement as C.F.A. Voysey and Charles Rennie Mackintosh in Britain, Sullivan and Frank Lloyd Wright in America, and Adolf Loos and

Otto Wagner in Vienna. The account concludes with a discussion of the radical break with the past represented by the design work of Walter Gropius and his future Bauhaus colleagues. Nikolaus Pevsner (1902-1983), a distinguished scholar of art and architecture, was best known as editor of the 46-volume series *The Buildings of England* and as founding

editor of *The Pelican History of Art*. *Masterpieces from the Department of Islamic Art in the Metropolitan Museum of Art* Based on Takeo Hariuchi's prestigious collection of works by mastercraftsmen and industrialist Louis C. Tiffany, Alastair Duncan, the world-renowned expert on the subject, examines every facet of Tiffany's

unsurpassed talent for imagination, design, ingenuity, technical expertise, and business affairs. Each piece in the Garden Museum Collection is reproduced in color.
