Modernism and Mildred Walker is the first full-length critical study of the major fictional works of this American author whose life spanned the twentieth century (1905?98) and whose literary production spanned almost three-quarters of a century. A highly regarded chronicler of New England and the American West, she is also appreciated for her portrayal of women characters and the complexity of women?s roles. Long beloved by readers of Montana fiction, Mildred Walker?s novels have been dismissed by some critics as only of regional interest, and, as Carmen Pearson argues, have not been explored and appreciated from other critical perspectives and by other audiences. ø In this persuasive new study, Pearson offers a new and decidedly western interpretation of Modernism as a critical tool andø proposes a variety of readings and interpretations designed to emphasize the relationship between cultural production in the West and modernism. She encourages readers and students of literature to reappraise Walker?s work and to undertake further critical studies of their own.

In God's Image: Recognizing the Profoundly Impaired as Persons is a bold Catholic argument in defense of the profoundly impaired. While a range of theological voices can now be heard speaking up on behalf of those who live their lives at the extremes of the human condition, few voices have been explicitly Catholic. Comensoli draws on the irreplaceable contribution of St. Thomas Aquinas to forge an engagement with one of the leading thinkers in the theology of the disabled, Professor Hans Reinders. While recognizing the crucial contribution that Reinders has made, Comensoli situates our perception of the cognitively impaired within the horizon of God's own image, refusing a reduction of the substantialist position the Catholic tradition has always valued. This is linked to the fresh and countercultural community life pioneered by Jean Vanier, founder of the L'Arche communities. For Comensoli, the profoundly impaired are persons whose personhood cannot be recognized outside of the condition of their impairment, and through which God's Image is perceived in all its paradoxical implications.

We all long for "friends forever"—but what happens when forever ends? They say friends are the family we choose. And that choosing—the joy of loving and being loved by someone who isn't genetically obligated to share life with us—adds priceless worth to our days, but also great risk. Because hurt can happen even in the closest friendships, and sometimes friendships fall apart. The loss can be staggering. As we struggle to digest the pain and confusion, we wonder, How could this happen? And what do I do now? In *When a Friendship Falls Apart*, beloved author Elizabeth Laing Thompson comes alongside readers as they process their struggling friendships—the faltering, the fractured, and the failed. Blending personal story, biblical examples, and faith-filled wisdom, each page explores questions like the following: How do we guard against the poison of bitterness so we can process the hurt and move forward? When and how do we seek reconciliation? What does forgiveness look like? How do we know when it's time to leave a friendship behind? How do we open up again and entrust our wounded hearts to new friendships? If you find yourself in the midst of a friendship that's falling apart, or you're grappling with past hurts and regrets, this book is for you. May it be a comfort and help, leading you closer to the Friend who will never leave.

Strategies of Authoritarian Survival and Dissensus in Southeast Asia U of Nebraska Press
In this study of collaborative writing in western American literature, Linda K. Karell asks broad and fruitful questions about how writing in general is produced. By examining "collaboration" both as a process and as a product, she challenges the definition of an author as an individual genius who creates original works of art in isolation. From a collaborative view, what was a fairly direct cause and effect scenario (individual author + inspiration = original literary masterpiece) becomes something much less clear. An individual is always located within a shifting context of texts from which he or she draws to produce?often with substantial and varied support from other writers, editors, spouses or partners, and institutions?a work that will be termed "original." Collaboration insists on recognizing this oft-hidden contribution of others as an important component of meaning, something our traditional understanding of the author persists in ignoring or displacing. Karell provides a close analysis of the various means by which writers work with others to produce their final literary products. Methods include traditional joint writing practices such as ghostwriting or "edited" texts, as in the case of Mourning Dove and ethnographer Lucullus McWhorter; the incorporation of existing diaries or letters from other writers, for example, Wallace Stegner's *Angle of Repose* with Mary Hallock Foote; and dual-authored texts such as those produced by Louise Erdrich and Michael Dorris. By challenging the seductive myth of the solitary writer within the context of the myth of the independent westerner, Karell makes the compelling argument that collaboration is an inescapable part of writing.

"What does a workplace utopia look like to you?" This is the question Dr. Ella F. Washington asks company leaders, and often she hears about an ideal vision of an organization that values diversity and inclusion and wants employees to bring their whole selves to work. But how can you get there? Organizations have largely missed the mark when it comes to creating environments where all employees thrive in an equal and equitable way, because they treat diversity, equity, and inclusion (DEI) as a program that gets done rather than the necessary and difficult journey it is. A truly inclusive workplace requires invention and reinvention, mistakes and humility, adaptation to a changing world, constant reflection, and sometimes significant sacrifice. The road to an inclusive workplace is a difficult one, but you can traverse it, and there's help along the way. Start here with stories of companies making the necessary journey, including Slack, PwC, Best Buy, Denny's, and many others. Hear from company leaders about their successes and failures, the times they were on the vanguard, and the moments they realized they had much more work to do. These are profiles in perseverance from people who are keen enough to recognize the need for inclusive workplaces and humble enough to know they're not there yet. Along the way, Washington provides a framework for thinking about where these companies are on their journeys and where you and your company may be too. Progress is hard won on the necessary journey to becoming an inclusive organization, but it must be won. John Lewis said it best: "You see something you want to get done, you cannot give up, and you cannot give in."

In the tradition of Iron and Silk and Touch the Dragon, Jamie Zeppa's memoir of her years in Bhutan is the story of a young woman's self-discovery in a foreign land. It is also the exciting debut of a new voice in travel writing. When she left for the Himalayan kingdom of Bhutan in 1988, Zeppa was committing herself to two years of teaching and a daunting new experience. A week on a Caribbean beach had been her only previous trip outside Canada; Bhutan was on the other side of the world, one of the most isolated countries in the world known as the last Shangri-La, where little had changed in centuries and visits by foreigners were restricted. Clinging to her bags full of chocolate, hair conditioner and Immodium, she began the biggest challenge of her life, with no idea she would fall in love with the country and with a Bhutanese man, end up spending nine years in Bhutan, and begin a literary career with her account of this transformative journey. At her first posting in a remote village of eastern Bhutan, she is plunged into an overwhelmingly different culture with squalid Third World conditions and an impossible language. Her house has rats and fleas and she refuses to eat the local food, fearing the rampant deadly infections her overly protective grandfather warned her about. Gradually, however, her fear vanishes. She adjusts, begins to laugh, and is captivated by the pristine mountain scenery and the kind students in her grade 2 class. She also begins to discover for herself the spiritual serenity of Buddhism. A transfer to the government college of Sherubtse, where the housing conditions are comparatively luxurious and the students closer to her own age, gives her a deeper awareness of Bhutan's challenges: the lack of personal privacy, the pressure to conform, and the political tensions. However, her connection to Bhutan intensifies when she falls in love with a student, Tshewang, and finds herself pregnant. After a brief sojourn in Canada to give birth to her son, Pema Dorji, she marries Tshewang and makes Bhutan her home for another four years. Zeppa's personal essay about her culture shock on arriving in Bhutan

won the 1996 CBC/Saturday Night literary competition and appeared in the magazine. She flew home to accept the prize, where people encouraged her to pursue her writing. Her letters from Bhutan also featured on CBC's Morningside. The book that grew out of this has been published in Canada and the United States to ecstatic reviews, followed by British, German, Dutch, Italian and Spanish editions. Although cultural differences finally separated Jamie and Tshewang in 1997 while she was writing the book and she returned to Canada, she will always feel at home in Bhutan. Zeppa shares her compelling insights into this land and culture, but *Beyond the Sky and the Earth* is more than a travel book. With rich, spellbinding prose and bright humour, it describes a personal journey in which Zeppa acquires a deeper understanding of what it means to leave one's home behind, and undergoes a spiritual transformation.

What does it mean to look like a lesbian? Though it remains impossible to conjure a definitive image that captures the breadth of this highly nuanced term, today at least we are able to consider an array of visual representations that have been put into circulation by lesbians themselves over the last six or seven decades. In the early twentieth century, though, no notion of lesbianism as a coherent social or cultural identity yet existed. In *Women Together/Women Apart*, Tirza True Latimer explores the revolutionary period between World War I and World War II when lesbian artists working in Paris began to shape the first visual models that gave lesbians a collective sense of identity and allowed them to recognize each other. Flocking to Paris from around the world, artists and performers such as Romaine Brooks, Claude Cahun, Marcel Moore, and Suzy Solidor used portraiture to theorize and visualize a "new breed" of feminine subject. The book focuses on problems of feminine and lesbian self-representation at a time and place where the rights of women to political, professional, economic, domestic, and sexual autonomy had yet to be acknowledged by the law. Under such circumstances, same-sex solidarity and relative independence from men held important political implications. Combining gender theory with visual, cultural, and historical analysis, Latimer draws a vivid picture of the impact of sexual politics on the cultural life of Paris during this key period. The book also illuminates the far-reaching consequences of lesbian portraiture on contemporary constructions of lesbian identity.

For three fascinating, disturbing years, writer Patricia Hersch journeyed inside a world that is as familiar as our own children and yet as alien as some exotic culture--the world of adolescence. As a silent, attentive partner, she followed eight teenagers in the typically American town of Reston, Virginia, listening to their stories, observing their rituals, watching them fulfill their dreams and enact their tragedies. What she found was that America's teens have fashioned a fully defined culture that adults neither see nor imagine--a culture of unprecedented freedom and baffling complexity, a culture with rules but no structure, values but no clear morality, codes but no consistency. Is it society itself that has created this separate teen community? Resigned to the attitude that adolescents simply live in "a tribe apart," adults have pulled away, relinquishing responsibility and supervision, allowing the unhealthy behaviors of teens to flourish. Ultimately, this rift between adults and teenagers robs both generations of meaningful connections. For everyone's world is made richer and more challenging by having adolescents in it.

This book analyses how authoritarian rulers of Southeast Asian countries maintain their durability in office, and, in this context, explains why some movements of civil society organizations succeed while others fail to achieve their demands. It discusses the relationship between the state-society-business in the political survival context. As the first comparative analysis of strategies of regime survival across Southeast Asia, this book also provides an in-depth insight into the various opposition movements, and the behaviour of antagonistic civic and political actors in the region.
