The heated struggle  
between the  
ultramontanes and the  
gallicans, which

erupted with particular intensity in France between 1848 and 1853, marked one more episode in an ongoing doctrinal debate over the centralization of the Catholic Church. The ultramontane campaign, which supported a strict and centralized Church, undermined and nearly destroyed the French gallican Church, which favored a Catholicism that was deeply rooted in national character and local institutions. By recalling the bitter memory of this debacle, this book offers the historical background essential for understanding the key issues of the Vatican Council of 1870.

L'aventure politique

détermine le sens de l'écriture chez Verlaine : sa manière. Contre la tradition qui a cultivé l'image affadissante d'un chantre élégiaque, aux accents pathétiques, cet essai montre avec force qu'il a été un poète résolument engagé dans son siècle. Si l'écrivain s'énonce toujours « en sourdine » ou sur le « mode mineur », c'est qu'il y reconnaît, en vers comme en prose, l'expression d'une éthique et d'une politique destinées aux victimes de l'histoire. Verlaine écrit d'abord pour les humbles, les sans-noms, tous ceux qui sont réduits au silence, et ne savent pas qu'ils ont droit au monde. L'emblème en serait le projet des Vaincus, un livre qui a hanté le poète de 1867

à 1874. Car il illustre une tension fondamentale entre l'exil et l'utopie, qui traverse toute l'œuvre. De Poèmes saturniens à Sagesse et Bonheur, une même relation unit le sujet à l'histoire : démocrate et socialiste au temps du bonapartisme, chrétien en pleine ère laïque et républicaine, il reste exclu et dominé. Exilé, le sujet renouvelle sans cesse l'exigence critique d'un monde meilleur. Le sens de l'utopie fonde le devenir de l'œuvre chez Verlaine.

*Spiritual Theology*

Walter de Gruyter

This work is a substantial contribution to the history of philosophy. Its subject, the nineteenth-century philosopher John Scottus Eriugena, developed a form of

idealism that owed as much to the Greek Neoplatonic tradition as to the Latin fathers and anticipated the priority of the subject in its modern, most radical statement: German idealism. Moran has written the most comprehensive study yet of Eriugena's philosophy, tracing the sources of his thinking and analyzing his most important text, the *Periphyseon*. This volume will be of special interest to historians of mediaeval philosophy, history, and theology.

This is an account, at once rigorously theological and warmly devotional, of the death and resurrection of Christ, and their significance for the

Christian life. Von Balthasar offers sharp insights into some current controversies—for example, the 'bodiliness' of the Resurrection-and spiritual inspiration for the year round. This scholarly reflection of the climax of the Christian year is an established classic of contemporary Catholic theology.

Most African languages are spoken by communities as one of several languages present on a daily basis. The persistence of multilingualism and the linguistic creativity manifest in the playful use of different

languages are striking, especially against the backdrop of language death and expanding monolingualism elsewhere in the world. The effortless mastery of several languages is disturbing, however, for those who take essentialist perspectives that see it as a problem rather than a resource, and for the dominating, conflictual, sociolinguistic model of multilingualism. This volume investigates African minority languages in the context of changing patterns of multilingualism, and also assesses the status of African languages in terms of existing influential vitality scales. An important aspect of multilingual praxis is the speakers' agency

in making choices, their repertoires of registers and the multiplicity of language ideology associated with different ways of speaking. The volume represents a new and original contribution to the ethnography of speaking of multilingual practices and the cultural ideas associated with them. *The Philosophy of John Scottus Eriugena* Bloomsbury Continuum

The first part of Prof Jordan Aumann's magisterial *Spiritual Theology* is concerned with the theological principles of Christian holiness, while the second and major part derives from those principles' practical directives for the individual Christian's 'growth in holiness'. Based firmly on the work of three classical

masters - St Thomas Aquinas, St John of the Cross, and St Teresa of Avila - this text has already proved of great benefit to contemporary students and general readers seeking to inform and develop their own spiritual lives.

Within every woman

there lives a powerful

force, filled with good

instincts, passionate

creativity, and ageless

knowing. She is the

Wild Woman, who

represents the instinctual nature of women. But she is an endangered species. For though the gifts of wildish nature belong to us at birth, society’s attempt to “civilize” us into rigid roles has muffled the deep, life-giving messages of our own souls. In *Women Who Run with the Wolves*, Dr. Clarissa Pinkola Estés unfolds rich intercultural myths, fairy tales, folk tales, and stories, many from her own traditions, in order to help women reconnect with the fierce, healthy, visionary attributes of this instinctual nature. Through the stories and commentaries in this remarkable book, we retrieve, examine, love, and understand the Wild Woman, and hold her against our

deep psyches as one who is both magic and medicine. Dr. Estés has created a new lexicon for describing the female psyche. Fertile and life-giving, it is a psychology of women in the truest sense, a knowing of the soul.

Ballantine Books  
The Violence of Modernity turns to Charles Baudelaire, one of the most canonical figures of literary modernism, in order to reclaim an

aesthetic legacy for ethical inquiry and historical critique. Works of modern literature are commonly theorized as symptomatic responses to the trauma of history. In a climate that tends to privilege crisis over critique, Debarati Sanyal argues that it is urgent to rethink literary experience in terms that recall its contestatory potential. Examining Baudelaire's poems afresh, she shifts the focus of critical attention toward an account of modernism as an active engagement with violence, specifically the violence of history in nineteenth-century France. Sanyal analyzes a literary current that uses the traditional hallmarks of

modernism—irony, intertextuality, self-reflexivity, and formalism—to challenge the historical violence of modernity. Baudelaire and the committed ironists writing in his wake teach us how to read and resist the violence of history, and thereby to challenge the melancholy tenor of our contemporary "wound culture." In a series of provocative readings, Sanyal presents Baudelaire's poetry as an aesthetic form that contests historical violence through rhetorical strategies of complicity, counterviolence, and critique. The book develops a new account of Baudelaire's significance as a modernist by dislodging him both

from his traditional status as a practitioner of "art for art's sake" and from his more recent incarnation as the poet of trauma. Following her extended analysis of Baudelaire's poetry, Sanyal in later chapters considers a number of authors influenced by his strategies—including Rachilde, Virginie Despentes, Albert Camus, and Jean-Paul Sartre—to examine the relevance of their interventions for our current climate of trauma and terror. The result is a study that underscores how Baudelaire's legacy continues to energize literary engagements with the violence of modernity.

"The 2001 edition (1st) was a comprehensive review of history, research, and discussions on religion and health through the year 2000. The Appendix listed 1,200 separate quantitative studies on religion and health each rated in quality on 0-10 scale, followed by about 2,000 references and an extensive index for rapid topic identification. The 2012 edition (2nd) of the Handbook systematically updated the research from 2000 to 2010, with the number of quantitative studies then reaching the thousands. This 2022 edition (3rd) is the most scientifically rigorous addition to

date, covering the best research published through 2021 with an emphasis on prospective studies and randomized controlled trials. Beginning with a Foreword by Dr. Howard K. Koh, former US Assistant Secretary for Health for the Department of Health and Human Services, this nearly 600,000-word volume examines almost every aspect of health, reviewing past and more recent research on the relationship between religion and health outcomes. Furthermore, nearly all of its 34 chapters conclude with clinical and community applications making this text relevant to both health care professionals (physicians, nurses,

social workers, rehabilitation therapists, counsellors, psychologists, sociologists, etc.) and clergy (community clergy, chaplains, pastoral counsellors, etc.). The book's extensive Appendix focuses on the best studies, describing each study in a single line, allowing researchers to quickly locate the existing research. It should not be surprising that for Handbook for the past two decades has been the most cited of all references on religion and health"--
