The purpose of the
Special Issue
“Quantitative Methods in
Economics and Finance”
of the journal *Risks* was to
provide a collection of
papers that reflect the
latest research and
problems of pricing
complex derivatives,
simulation pricing,
analysis of financial
markets, and volatility of
exchange rates in the
international context. This
book can be used as a
reference for
academicians and
researchers who would
like to discuss and
introduce new
developments in the field
of quantitative methods in
economics and finance
and explore applications
of quantitative methods in
other business areas.

Enrique's Journey Hill and Wang

An astonishing story that puts a human face on the ongoing debate about immigration reform in the United States, now updated with a new Epilogue and Afterword, photos of Enrique and his family, an author interview, and more—the

definitive edition of a classic of contemporary America Based on the Los Angeles Times newspaper series that won two Pulitzer Prizes, one for feature writing and another for feature photography, this page-turner about the power of family is a popular text in classrooms and a touchstone for communities across the country to engage in meaningful discussions about this essential American subject. *Enrique's Journey* recounts the unforgettable quest of a Honduran boy looking for his mother, eleven years after she is forced to leave her starving family to find work in the United States. Braving unimaginable peril, often clinging to the sides and tops of freight trains, Enrique travels through hostile worlds full of thugs, bandits, and corrupt cops. But he pushes forward, relying on his wit, courage, hope, and the kindness of strangers. As Isabel Allende writes: "This is a twenty-first-century *Odyssey*. If you are going to read only one nonfiction book this year, it has to be this one." Praise for *Enrique's Journey* "Magnificent . . .

Enrique's Journey is about love. It's about family. It's about home."—The Washington Post Book World "[A] searing report from the immigration frontlines . . . as harrowing as it is heartbreaking."—People (four stars) "Stunning . . . As an adventure narrative alone, *Enrique's Journey* is a worthy read. . . . Nazario's impressive piece of reporting [turns] the current immigration controversy from a political story into a personal one."—Entertainment Weekly "Gripping and harrowing . . . a story begging to be told."—The Christian Science Monitor "[A] prodigious feat of reporting . . . [Sonia Nazario is] amazingly thorough and intrepid."—Newsday
Algebra 2 Penguin
 Chemistry in the Earth System has been designed and written following the High School Three-Course Model for California. It will also suit NGSS-aligned states integrating Earth Science with Chemistry. This phenomena-based title takes a three-dimensional approach to provide an engaging, relevant, and rigorous program of instruction.
Student Edition 2018

Penguin
 “Impressive . . . [Cristina García’s] story is about three generations of Cuban women and their separate responses to the revolution. Her special feat is to tell it in a style as warm and gentle as the ‘sustaining aromas of vanilla and almond,’ as rhythmic as the music of Beny Moré.”—Time
 Cristina García’s acclaimed book is the haunting, bittersweet story of a family experiencing a country’s revolution and the revelations that follow. The lives of Celia del Pino and her husband, daughters, and grandchildren mirror the magical realism of Cuba itself, a landscape of beauty and poverty, idealism and corruption. Dreaming in Cuban is “a work that possesses both the intimacy of a Chekov story and the hallucinatory magic of a novel by Gabriel García Márquez” (The New York Times). In celebration of the twenty-fifth anniversary of the novel’s original publication, this edition features a new introduction by the author. Praise for Dreaming in Cuban
 “Remarkable . . . an intricate weaving of dramatic events with the

supernatural and the cosmic . . . evocative and lush.”—San Francisco Chronicle
 “Captures the pain, the distance, the frustrations and the dreams of these family dramas with a vivid, poetic prose.”—The Washington Post
 “. . . With tremendous skill, passion and humor, García just may have written the definitive story of Cuban exiles and some of those they left behind.”—The Denver Post

 Ashamed of his younger brother's physical handicaps, an older brother teaches him how to walk and pushes him to attempt more strenuous activities.
The Time Traveler's Guide to Elizabethan England Simon and Schuster
 The Great Fire of 1871 was one of most colossal disasters in American history. Overnight, the flourishing city of Chicago was transformed into a smoldering wasteland. The damage was so profound that few people believed the city could ever rise again. By weaving personal accounts of actual survivors together with the carefully researched history of Chicago and the

disaster, Jim Murphy constructs a riveting narrative that recreates the event with drama and immediacy. And finally, he reveals how, even in a time of deepest despair, the human spirit triumphed, as the people of Chicago found the courage and strength to build their city once again.

A Portrait of the Artist as a Young Man by James Joyce from Coterie Classics All Coterie Classics have been formatted for ereaders and devices and include a bonus link to the free audio book. "I will tell you what I will do and what I will not do. I will not serve that in which I no longer believe, whether it calls itself my home, my fatherland, or my church: and I will try to express myself in some mode of life or art as freely as I can and as wholly as I can, using for my defense the only arms I allow myself to use -- silence, exile, and cunning." — James Joyce, A Portrait of the Artist as a Young Man A Portrait of the Artist as a Young Man is a coming of age novel set in Dublin by James Joyce.
