Exploring Science

Cambridge University Press
ThrivEd is a student run, not for profit organisation that writes textbooks on the

philosophy of writing textbooks that truly empower students. Our Unit 3 Chemistry textbook is a 350 page textbook that covers: Chemical Equilibrium, Stoichiometry, Acids & Bases, Volumetric Analysis and Redox. The proceeds from every two books sold are used to produce and donate a third textbook for a student who would benefit from the same support. The book is structured in five main sections: 1. Bridging the Gap - To create the connections needed to set off on the right foot in Year 12, the 'Bridging the Gap' sections are designed to provide in-depth teachings of the foundational Year 11 content. 2. Main Content - By extensively working

through concepts with no assumptions and teaching with clear explanations, worked examples and real world applications, we hope to make each chapter an exciting, empowering and well-connected experience.

3. Topic Test and Exam Notes - To guide your preparation of personal notes leading up to assessments, sample test and exam notes have been provided to make this process effective and intentional.

4. Progressive, Repetitive and Advanced Questions - Each progressive question is designed to progressively teach each concept, and is paired with multiple repetitive questions, allowing you to stop and practice anything

you like. Advanced questions are also there for some extra fun ?.

5. Online Answer Guide - With each question comes a three stage answer including: a sample response, points to note about the question and a WACE inspired marking guide, allowing each question to be understood in all its elements. These answer guides are free as a downloadable PDFs. It is with this structure that the Unit is extensively covered and targeted to provide the greatest possible benefits to students.

Communication Research Methods: Getting Started as a Researcher demonstrates how to apply concepts to research problems, issues, projects, and questions that communication practitioners face every day. Recognizing that students engage more directly with research methods when they experience research through hands-on practice, authors Michael Boyle and Mike Schmierbach developed this text to demonstrate the relevance of research in professional roles and communication careers. Along with its distinctive approach to research methods instruction, this text also serves as an enhanced glossary and a superior reference.

Students can easily navigate key concepts and terminology, which are linked to practical exercises within the context of the instruction. In-unit activities and features provide numerous opportunities to delve further into topics covered in class, including: Research in Depth - examples of a concept being used in scholarly research Reflect and React - thought-provoking problems and issues that promote reflection and discussion Voices from Industry - Q&As with professionals working in communication industries End-of-unit activities - exercises that reinforce concepts and content Online resources, including sample syllabi, test banks, and more, are

available on the companion website: www.routledge.com/cw/boyle. Applied Communication Research Methods is a concise, engaging work that today's students and industry practitioners will embrace and keep on-hand throughout their careers.
