God created a game - it's called The Game of Life. Planet Earth is the playing field, the 10 love commandments are the rules, and we humans are the players who can win or lose. The game is played by two teams, like the game of football. One team's head coach is Jesus and the other team's head coach is Satan. All of us on earth are playing for one of these two teams! Gabriel Ansley Erb wrote the book "2028 END" in order to fully elucidate God's

game clock scenario for The Game of Life as contained in the game's handbook, the Holy Bible. The handbook says, "God declared the end from the beginning" (Isaiah 46:10) by using 7 days in the creation event. Each 24 hour creation day foretold of a future 1,000 year period for a total 7,000 year plan God had for The Game of Life to be played on planet earth. And amazingly, to confirm this is all true, God hid a secret prophesy in each creation day foretelling the greatest event He had planned to occur in that day's future millennium! Consequently, Creation day 1 foretold Adam & Eve's fall, which was fulfilled during earth's 1st millennium. Creation day 2 foretold Noah's global flood, which was fulfilled during earth's

2nd millennium. Creation day 3 foretold Moses' Red Sea parting, which was fulfilled during earth's 3rd millennium. Creation day 4 foretold of John the Baptist & Jesus Christ, and so they lived and died during earth's 4th millennium. And the prophecies continue with each Creation day! Gabriel proves all of the above, carefully revealing the prophetic Scriptures as well as the fulfillment Scriptures. Then he reveals a dozen Scriptures proving Christ died earth's 4,000 year and will return earth's 6,000 year. Finally, he proves Christ died Feast of Passover AD 28 and will return Feast of Trumpets 2028. For those who read this book, it is an open and shut case: The Game of Life will end 2,000 years from the

year of Christ's death on the cross - AD 2028.

This reader remains the only major new reader of Old English prose and verse in the past forty years. The second edition is extensively revised throughout, with the addition of a new 'Beginning Old English' section for newcomers to the Old English language, along with a new extract from Beowulf. The fifty-seven individual texts include established favourites such as The Battle of Maldon and Wulfstan's Sermon of the Wolf, as well as others not otherwise readily available, such as an extract from Apollonius of Tyre. Modern English glosses

for every prose-passage and poem are provided on the same page as the text, along with extensive notes. A succinct reference grammar is appended, along with guides to pronunciation and to grammatical terminology. A comprehensive glossary lists and analyses all the Old English words that occur in the book. Headnotes to each of the six text sections, and to every individual text, establish their literary and historical contexts, and illustrate the rich cultural variety of Anglo-Saxon England. This second edition is an accessible and scholarly introduction to Old English. *The Miracles of Exodus* Miles Kelly Publishing

An example of Poe's melancholic and morbid poetic pieces, "A Dream Within a Dream" is a poem that pitifully mourns the passing of time. The poet's own life, teeming with depression, alcoholism, and misery, cannot but exemplify the subject matter and tone of the poem. The constant dilution of reality and fantasy is detrimental to the poetic speaker's ability to hold reality in his hands. The quiet contemplation of the speaker is contrasted with thunderous passing of time that waits

for no man. Edgar Allan Poe (1809-1849) was an American poet, author, and literary critic. Most famous for his poetry, short stories, and tales of the supernatural, mysterious, and macabre, he is also regarded as the inventor of the detective genre and a contributor to the emergence of science fiction, dark romanticism, and weird fiction. His most famous works include "The Raven" (1845), "The Black Cat" (1843), and "The Gold-Bug" (1843).

The Real Story of the Exodus Colin Humphreys, a world-renowned Cambridge University scientist, reveals for the first time the concrete, scientific truth behind the Exodus miracles. The Burning Bush: Caused by a volcanic vent that opened up under the bush. Crossing the Red Sea: The water was pushed back by a very strong wind blowing all night. This is a known physical phenomenon called wind setdown. The details given in the Bible mean we can pinpoint where the Red Sea crossing occurred. Drowning Pharaoh's Army: When the very strong wind suddenly stopped blowing, the water rushed back in the form of a rapidly returning "bore" wave, sweeping Pharaoh's army into the sea. Mount Sinai: The real Mount Sinai is in present-day Saudi Arabia, not the Sinai Desert as is generally assumed.

The Power of the Sea describes our struggle to understand the physics of the sea, so we can use that knowledge to predict when the sea will unleash its fury against us. In a wide-sweeping narrative spanning much of human history, Bruce Parker, former chief scientist of the National Ocean Service, interweaves thrilling and often moving stories of unpredicted natural disaster with an accessible account of scientific discovery. The result is a compelling scientific journey, from ancient man's first crude tide predictions to today's advanced early warning ability based on the Global Ocean Observing System. It is a journey still underway, as we search for ways to predict tsunamis and rogue waves and critical aspects of El Niño and climate change caused by global warming.

Although scholars have for centuries primarily been interested in using the study of ancient Israel to explain, illuminate, and clarify the biblical story, Megan Bishop Moore and Brad E. Kelle describe how scholars today seek more and more to tell the story of the past on its own terms, drawing from both biblical and extrabiblical sources to illuminate ancient Israel and its neighbors without privileging the biblical perspective. *Biblical History and Israel's Past* provides a comprehensive survey of how study of the Old Testament and the history of Israel has changed since the middle of the twentieth century. Moore and Kelle discuss significant trends in scholarship, trace the development of ideas since the 1970s, and summarize major scholars, viewpoints, issues, and developments.

The Power of the Sea Wm. B. Eerdmans Publishing
In this groundbreaking work that sets apart fact and legend, authors Finkelstein and Silberman use significant archeological discoveries to provide historical information about biblical Israel and its neighbors. In this iconoclastic and provocative work, leading scholars Israel Finkelstein and Neil Asher Silberman draw on recent archaeological research to present a dramatically revised portrait of ancient Israel and its neighbors. They argue that crucial evidence (or a telling lack of evidence) at digs in Israel, Egypt, Jordan, and Lebanon suggests that many of the most famous stories in the Bible—the wanderings of the patriarchs, the Exodus from Egypt, Joshua's conquest of Canaan, and David and Solomon's vast empire—reflect the world of the later authors rather than actual historical facts. Challenging the fundamentalist readings of the scriptures and marshaling the latest archaeological evidence to support its new

vision of ancient Israel, *The Bible Unearthed* offers a fascinating and controversial perspective on when and why the Bible was written and why it possesses such great spiritual and emotional power today.

We don't want to be out in the wilderness alone, we want to be in G-d's House, in Allah's Mosque. We want a foundation and some walls around us, then we feel comfortable. We settle down just like the quiet lake, or the quiet sea. All Praises due to Allah. So you see, Allah is the best teacher, the best knower, therefore He's the best teacher, and He taught his Prophets from Adam to Mohammed, until the very day, He has taught the leaders in the True Religion, so that they can bring home the message in the best way, to your mind.
