The Grand Canyon continues to be the most popular of our national parks. While millions gaze at its cliffs each year, only 15,000 float through the canyon on the Colorado River. A landmark portrait of the Grand Canyon, this is the only photography book to document this amazing journey from river level. Now this classic is back in print, with an updated preface and introduction and a dozen new photographs. A journal in photos and words, *The Hidden Canyon* captures the desert landscape and the thrill of the rapids. Edward Abbey's journal filled with wry humor and respect for the canyon describes the journey as the dories (small wooden boats) alternately float and charge through the breathtaking landscapes and some of the roughest white water in North America.

"A convincing case for Powell's legacy as a pioneering conservationist."--The Wall Street Journal "A bold study of an eco-visionary at a watershed moment in US history."--Nature A timely, thrilling account of the explorer who dared to lead the first successful expedition down the Colorado through the Grand Canyon—and waged a bitterly-contested campaign for sustainability in the West. John Wesley Powell's first descent of the Colorado River through the Grand Canyon in 1869 counts among the most dramatic chapters in American exploration history. When the Canyon spit out the surviving members of the expedition—starving, battered, and nearly naked—they had accomplished what others thought impossible and finished the exploration of continental America that Lewis and Clark had begun almost 70 years before. With *The Promise of the Grand Canyon*, John F. Ross tells how that perilous expedition launched the one-armed Civil War hero on the path to becoming the nation's foremost proponent of environmental sustainability and a powerful, if controversial, visionary for the development of the American West. So much of what he preached—most broadly about land and water stewardship—remains prophetically to the point today.

Welcome back to Grace Valley, California, where the best things in life never change... Here in this peaceful community, folks look out for one another like family, though sometimes a little too well. In a town like this, it's hard to keep a secret—but Dr. June Hudson has managed to keep one heck of a humdinger.... Though visits from her secret lover, undercover DEA agent Jim Post, are as clandestine as they are passionate, somehow it fits with her demanding schedule as the town's doctor—a calling that requires an innate ability to exist on caffeine, sticky buns and nerves of steel. But how can a secret lover compete with a flesh-and-blood heartthrob from her past? June's old flame has just returned to town after twenty years—and he's divorced. June is seriously rattled. So when the town's most devoted wife takes buckshot to her husband and some human bones turn up in her aunt Myrna's backyard, she's almost happy for the distraction. Sooner or later, love will have its way in Grace Valley. It always does.

Every writer comes to the Colorado River in the Grand Canyon with a unique point of view. Ann Zwinger's is that of a naturalist, an "observer at the river's brim." Teamed with scientists and other volunteer naturalists, Zwinger was part of an ongoing study of change along the Colorado. In all

seasons and all weathers, in almost every kind of craft that goes down the waves, she returned to the Grand Canyon again and again to explore, look, and listen. From the thrill of running the rapids to the wonder in a grain of sand, her words take the reader down 280 miles of the "ever-flowing, energetic, whooping and hollering, galloping" river. Zwinger's book begins with a bald eagle count at Nankoweap Creek in January and ends with a subzero, snowy walk out of the canyon at winter solstice. Between are the delights of spring in side canyons, the benediction of rain on a summer beach, and the chill that comes off limestone walls in November. Her eye for detail catches the enchantment of small things played against the immensity of the river: the gatling-gun love song of tree frogs; the fragile beauty of an evening primrose; ravens "always in close attendance, like lugubrious, sharp-eyed, nineteenth-century undertakers"; and a golden eagle chasing a trout "with wings akimbo like a cleaning lady after a cockroach." As she travels downstream, Zwinger follows others in history who have risked—and occasionally lost—their lives on the Colorado. Hiking in narrow canyons, she finds cliff dwellings and broken pottery of prehistoric Indians. Rounding a bend or running a rapid, she remembers the triumphs and tragedies of early explorers and pioneers. She describes the changes that have come with putting a big dam on a big river and how the dam has affected the riverine flora and fauna as well as the rapids and their future. Science in the hands of a poet, this captivating book is for armchair travelers who may never see the grandiose Colorado and for those who have run it wisely and well. Like the author, readers will find themselves bewitched by the color and flow of the river, and enticed by what's around the next bend. With her, they will find its rhythms still in the mind, long after the splash and spray and pound are gone.

Drawing on rarely examined diaries and journals, *Down the Great Unknown* is the first book to tell the full, dramatic story of the Powell expedition. On May 24, 1869 a one-armed Civil War veteran, John Wesley Powell and a ragtag band of nine mountain men embarked on the last great quest in the American West. The Grand Canyon, not explored before, was as mysterious as Atlantis—and as perilous. The ten men set out from Green River Station, Wyoming Territory down the Colorado in four wooden rowboats. Ninety-nine days later, six half-starved wretches came ashore near Callville, Arizona. Lewis and Clark opened the West in 1803, six decades later Powell and his scruffy band aimed to resolve the West's last mystery. A brilliant narrative, a thrilling journey, a cast of memorable heroes—all these mark *Down the Great Unknown*, the true story of the last epic adventure on American soil.

An exhilarating, powerful story from the bestselling author of *The River*. Some stories take generations to unfold. Gabriel Clarke has *The River* in his blood: The River that he loved as a child. The River that took his father, John. The River he feared, fled . . . and has come back to now. Jacob Fielding owes the last twenty years of his life to John Clarke—the stranger who drowned saving him

and his brother from their own boyish recklessness. Since that day, Jacob's gratitude has extended to everyone around him . . . especially Gabriel, that brave man's son. But while the death of John Clarke became a powerful force for good in Jacob, it has been an unshakable source of darkness in another man. When gratitude and guilt meet at the River, two decades after that fateful day, Gabriel finds himself face-to-face with a stark choice for his own future: anger or forgiveness, hatred or love, death or life. So much more than an allegory, *Into the Canyon* will inspire you to love deeply, forgive extravagantly, and live large.

Stretching for 170 miles across northern Arizona and southern Utah, Lake Powell is both a vacationer's paradise and the second-largest reservoir in the Western Hemisphere. Yet few visitors to the lake today are aware of the lost world that lies beneath its crystal waters. Once an enchanted landscape of sandstone cliffs and secret crevices, Glen Canyon has been but a memory since the damming of the Colorado River near Page, Arizona, in 1963. Often called "the place no one knew," Glen Canyon was in fact explored by thousands of visitors—including dozens of writers—before the dam's completion. River runner Mathew Gross has combed the literature of Glen Canyon to assemble this wide-ranging look at the history of this now-submerged natural treasure, the first book to bring together these voices of remembrance. Beginning with the first known written report of Glen Canyon in an eighteenth-century missionary journal, Gross has selected accounts of the canyon from both before and after the dam. Included are some of the West's best-known writers—Zane Grey and Katie Lee, Edward Abbey and Ellen Meloy—as well as Pulitzer Prize winners John McPhee and Wallace Stegner. Other authors range from David Brower, director of the Sierra Club when the dam was built, to Floyd Dominy, the federal bureaucrat responsible for the dam. *The Glen Canyon Reader* is a book that may be read straight through as entertaining and informative history. But as Gross suggests, "Perhaps more pleasurable is to flip through these pages, to poke around and explore, as one would have done in Glen Canyon . . . to visit and revisit the places contained in this book, these cool glens and embracing alcoves and hidden grottos, these canyons and dreams and ghosts that will always, always be with us."

This is a once-in-a-lifetime experience--an end-to-end, rim-to-river exploration of the Grand Canyon. The authors have debuted a film-Into the Canyon-in February of 2019 that explores their hike through the canyon Award-winning photographer Pete McBride, along with best-selling authors Kevin Fedarko and Hampton Sides, takes us on a gripping adventure story told through stunning, never-before-seen photography and powerful essays. By hiking the entire 750 miles of Grand Canyon National Park--from the Colorado River to the canyon rim--McBride captures the majesty of as well as calling us to protect America's open-aired cathedral. The 2019 Public Lands Alliance Partnership Book of the Year, this is the most spectacular collection of Grand Canyon imagery ever seen, showing beauty from vantages where no other photographers have ever stood. It will also highlight the conservation challenges this iconic national park faces as visitation numbers grow and development pressures surrounding it mount. This photography will inspire and remind us why we protect such a cherished public space. Proceeds benefit the Grand Canyon Conservancy, and the accompanying documentary *Into the Canyon* has been shown at the Flagstaff Mountain Film Festival and the Aspen Film Festival in February of 2019 as well as debuting on the National Geographic Channel--all in time for the national park's centennial.

A motley crew of saboteurs wreaks havoc on the corporations destroying America's Western wilderness in this "wildly funny, infinitely wise" classic (The Houston Chronicle). When George Washington Hayduke III returns home from war in the jungles of Southeast Asia, he finds the unspoiled West he once knew has been transformed. The pristine lands and waterways are being strip mined, dammed up, and paved over by greedy government hacks and their corrupt corporate coconspirators. And the manic, beer-guzzling, rabidly antisocial ex-Green Beret isn't just getting mad. Hayduke plans to get even. Together with a radical feminist from the Bronx; a wealthy, billboard-torching libertarian MD; and a disgraced Mormon polygamist, Hayduke's ready to stick it to the Man in the most creative ways imaginable. By the time they're done, there won't be a bridge left standing, a dam unblown, or a bulldozer unmolested from Arizona to Utah. Edward Abbey's most popular novel, *The Monkey Wrench Gang* is an outrageous romp with ultra-serious undertones that is as relevant today as it was in the early days of the environmental movement. The author who Larry McMurtry (Lonesome Dove) once dubbed "The Thoreau of the American West" has written a true comedic classic with brains, heart, and soul that more than justifies the call from the Los Angeles Times Book Review that we should all "praise the earth for Edward Abbey!" "Mixes comedy and chaos with enough chase sequences to leave you hungering for more."—The San Francisco Chronicle

**In & Around the Grand Canyon** Rizzoli Publications

Dismissed by the first Spanish explorers as a wasteland, the Grand Canyon lay virtually unnoticed for three centuries until nineteenth-century America rediscovered it and seized it as a national emblem. This extraordinary work of intellectual and environmental history tells two tales of the Canyon: the discovery and exploration of the physical Canyon and the invention and evolution of the cultural Canyon—how we learned to endow it with mythic significance. Acclaimed historian Stephen Pyne examines the major shifts in Western attitudes toward nature, and recounts the achievements of explorers, geologists, artists, and writers, from John Wesley Powell to Wallace

Stegner, and how they transformed the Canyon into a fixture of national identity. This groundbreaking book takes us on a completely original journey through the Canyon toward a new understanding of its niche in the American psyche, a journey that mirrors the making of the nation itself.

Will Hobbs's classic tale of whitewater adventure is back in print with an exciting new look. No adults, no permit, no river map. After fifteen-year-old Jessie gets sent to Discovery Unlimited, an outdoor education program, she and six companions "borrow" the company's rafting gear and take

off down the Colorado River through the Grand Canyon on their own. Floating beneath sheer red walls, camping on white sand beaches, and exploring caves and waterfalls, Jessie and the others are having the time of their lives—at first. But when they're pursued by helicopters, they boldly push on into the black-walled inner gorge, the heart of the Grand Canyon, only to encounter huge rapids, bone-chilling rain, injuries, and conflict within the group. What will be the consequences of their reckless adventure? This riveting novel includes an author's note about his own rafting experiences and has been ranked by the American Library Association as a "100 Best of the Best" for twenty-five years—a testament to the enduring popularity of the action and adventure that await in Downriver.
