How smart companies are opening up strategic initiatives to involve front-line employees, experts, suppliers, customers, entrepreneurs, and even competitors. Why are some of the world's most successful companies able to stay ahead of disruption, adopting and implementing innovative strategies, while others struggle? It's not because they hire a new CEO or expensive consultants but rather because these pioneering companies have adopted a new way of strategizing. Instead of keeping strategic deliberations within the C-Suite, they open up strategic initiatives to a diverse group of stakeholders—front-line employees, experts, suppliers, customers, entrepreneurs, and even competitors. *Open Strategy* presents a new philosophy, key tools, step-by-step advice, and fascinating case studies—from companies that range from Barclays to Adidas—to guide business leaders in this groundbreaking approach to strategy. The authors—business-strategy experts from both academia and management consulting—introduce tools for each of the three stages of strategy-making: idea generation, plan formulation, and implementation. These are digital tools (including strategy contests), which allow the widest participation; hybrid digital/in-person tools (including a “nightmare competitor challenge”); a workshop tool that gamifies the business model development process; and tools that help companies implement and sustain open strategy efforts. *Open Strategy* has an astonishing track record: a survey of 200 business leaders shows that although open-strategy techniques were deployed for only 30 percent of their initiatives, those same initiatives generated 50 percent of their revenues and profits. This book offers a roadmap for this kind of success.

In the rogue Wild West, laws don't apply equally to everyone. They are made by the corrupt people and for the corrupt people. But Lone Ranger is on a mission. A mission to deliver justice and bring the rogue ones under the ambit of laws. Together with Tonto, Lone Ranger will do everything in his power to survive and outwit his enemies. Read the original inspiration behind the famous radio series and the Disney movie featuring Armie Hammer and Johnny Depp! Excerpt: "In a remote basin in the western part of Texas, the Cavendish clan raised cattle. From the vast level acreage, where longhorns grew fat on lush grass, the surrounding hills looked verdant and hospitable; but this was pure deceit on Nature's part. Those hills were treacherous, and Bryant Cavendish loved them for that selfsame treachery. Sitting on the porch of his rambling house, the bitter old man spat tobacco-flavored curses at the infirmities that restricted him. His legs, tortured by rheumatism, were propped on a bentwood chair, and seemed slim and out of proportion to his barrel-shaped torso. His eyes, like caves beneath an overhanging ledge, were more restless than usual, as he gazed across the basin. He rasped a

heavy thumbnail across the bristle of his slablike jowl..."

Towering high above the Old Town, the mighty Fortress Hohensalzburg, with its thousand-year history, looks down over the Salzach Valley. After the Prince-Archbishopric of Salzburg was secularized in 1803, the Fortress was used as barracks, depot and prison. But deep within its walls, far from the "tourist trail", are ancient chambers, store-rooms and soldiers' quarters; untouched for centuries, these are not accessible to visitors. In this dual-language pictorial book, Fortress guide Stefan Haslacher and photographer Michael Günther reveal new perspectives and hidden corners of Hohensalzburg Fortress.

This book is the long awaited completely revised and extended edition of Gunther Ohloff's standard work "Scent and Fragrances: The Fascination of Odors and Their Chemical Perspectives". The prominent chemists Gunther Ohloff, Wilhelm Pickenhagen, and Philip Kraft convey the scientist, the perfumer, as well as the interested layman with a vivid and up-to-date picture of the state of the art of the chemistry of odorants and the research in odor perception. The book details on the molecular basis of olfaction, olfactory characterization of perfumery materials, structure-odor relationships, the chemical synthesis of odorants, and the chemistry of essential oils and odorants from the animal kingdom, backed up by ca. 400 perfumery examples and historical aspects. It will serve as a thorough introductory text for all those interested in the molecular world of odors. This book is written for everyone who wants to know more about the molecular basis of odor, and the relationships between chemical structures and olfactory properties. The great structural diversity of odorants, their synthesis, natural occurrence and their structure?odor correlation demonstrate what a fascinating science *Fragrance Chemistry* indeed is.

What did ancient Christians and pagans believe makes the unity of the nations? Just as he began serving as a major adviser at the Second Vatican Council in 1962, Joseph Ratzinger (the future Pope Benedict XVI) studied this question in lectures delivered at Austria's University of Salzburg. These lectures, originally published in German, are now made available in English in this volume.

Textiles are "talking testimonies" of mythology, identity, prosperity, and way of life. Settlers, traders, and conquerors came to Indonesia from all over the world, bringing with them a variety of ethnicities, languages, religions, and cultures. The Harms collection of songkets--Indonesian hand-woven, intricately-patterned brocade of silk or cotton--have many stories to tell. There are the splendid, prestigious cloths to be worn at court, family heirlooms depicting ancient codes of conduct, ritual cloths with magic powers attributed to them and, not least, fashionable dress. All the items show outstanding craftsmanship and are still of great significance, particularly for ceremonial occasions. Haio

Harms traces the stories of the cloths and their background, seeking to convey something of the charm of these superb textiles.

Available in English for the first time, *Encouragement Makes Good Things Happen* is a translation of the bestselling German book *Mut Tut Gut*. It describes a courageous and encouraging style of living and focuses on the belief that human encouragement is the most important natural ingredient for the healthy development of human beings. Written in an engaging and conversational tone, the book first explores the negative consequences of discouragement on the individual and on society as a whole. It then discusses what encouragement is, why it is important in people's lives, and how a person can encourage both himself and others. Several exercises are also included to help guide readers in the encouragement of others. Mental health practitioners of all disciplines and in any setting will find that both they and their clients will benefit from the insights garnered and tested by the author of this engaging and compelling book.

Standing speechless with admiration before the marvel of a Gothic cathedral, do we not wonder at the achievements of the great master builders and the late mediaeval stonemasons' lodges? The secrets that lie within these awe-inspiring structures started as drawings on parchment. The Graphic Collection of the Academy of Fine Arts in Vienna is fortunate enough to possess the world's largest collection of original Gothic 14th- and 15th-century architectural drawings. Art historian Johann Josef Böker has for the first time collated and commented this priceless collection of 428 drawings. In the history of art, his research constitutes an event of prime importance, providing a new basis for examining the history of Gothic architecture. No future researcher can afford to ignore it; no lover of Gothic art should neglect the opportunity to gain access to these treasures - 464 pages of architectural drawings presented in four-colour print, together with historical black-and-white photographs of the buildings themselves. Judged Austria's Finest Book in 2005, the collection, now restored and digitized, received a European Union Prize for Cultural Heritage/Europa Nostra Award.

Built in 1969 at the same time as the old Österreichring, the high-speed circuit at Salzburg's gates was often the scene of legendary slipstream duels and highly dramatic battles in the rain. 50 years of Salzburgring also means victories and defeats, triumphs and tragedies, along with plenty of racing passion. But above all else: motor sports at the highest level. The re-issued and revised anniversary edition of *Legend of Salzburgring* has been supplemented with not just the events of the past five years since the publication of the first book, but also the astonishingly diverse present-day race circuit and its future in the fast-moving and extremely challenging 21st century. Following its rich history of ups and downs, Salzburgring is once again facing some important strategic decisions on its 50th birthday. Accordingly, *Legend of Salzburgring-Tradition meets Innovation* is not just a fascinating look back at the past, but also a glimpse ahead of the

next 50 years of this race circuit.

Ferdinand Aichhorn's passion for traditional Asian textiles began in Jakarta, Indonesia, in 1977. This volume presents those items of the collection produced in the ikat technique of dyeing and weaving. Salzburg architect Ferdinand Aichhorn is an aficionado of traditional Asian textiles, which he has been collecting for over 40 years. On his frequent and extensive travels - mainly in Indonesia, India, Burma, Thailand and Cambodia - he seeks out towns, villages and textile workshops where rare and ancient techniques are still cultivated. The main focus of his collection is on the resist techniques batik, plangi and particularly ikat. The collection is completed by a wide variety of embroideries, as well as quilts, appliqués, prints, felt rugs and an extensive selection of Kashmiri textiles dating from the 18th century up to the present day.

Previously published in the US as *The Girl in the Castle*. The #1 international bestseller about the enduring bond between three women and the castle they will never forget. Their lives were mapped out ahead of them. But love and war will change everything... It's the early 1900s and Castle Deverill stands staunchly untouched by time, hidden away in the rolling Irish hills. Within the castle walls, three friends have formed a close bond: affluent, flame-haired Kitty Deverill; Bridie Doyle, Kitty's best friend and daughter of the castle's cook; and Celia Deverill, Kitty's flamboyant English cousin. They've grown up together, always sheltered from the conflict embroiling the rest of the country. But when Bridie learns of a secret Kitty has been keeping, their idyllic world is forever torn apart. Later, the three women scatter to different parts of the globe. Kitty must salvage what she can before Castle Deverill and everything she has ever known is reduced to ash. *Songs of Love and War* is an epic generational saga about the lasting bonds of true friendship and the powerful ties we all have to the place we call home.

What happens to lakes when the swimming season is over and the beaches are locked up? What remnant of the summer lingers on? Who returns to these abandoned areas, maybe to spend the winter there? Writer Christoph Janacs and photographer Peter Schlager took a journey to the deserted beaches in the province of Salzburg, the Salzkammergut Region and on the lake "Chiemsee". They captured their melancholy poetic charm, sometimes even recorded unintentionally humorous images. *Off Season* lets you watch the fog creeping over these forsaken places and cold lakes, shows you things left behind, buried in deep snow, deprived of forms and colors. Locked up bathing cabins, deserted playgrounds and abandoned objects, the lake is tranquil, noble, and eternally beautiful. The following lakes are included: Abtsee, Attersee, Chiemsee, Fuschlsee, Grabensee, Holzöstersee, Ibmer See, Imsee, Irrsee, Mattsee, Mondsee, Obertrumsee, Traunsee, Wallersee, Wolfgangsee

As ever, it is in the central square that a city's heart beats. In the Middle Ages, the market held here was the nucleus and the mainspring for the development of the city. It was the political and economic centre, the focus of the bustle of urban life. 0All across the continent there are fantastic squares, each contributing to the unique character of its city. This volume illustrates vividly that Austria need have no fear of international competition. It presents a choice selection of splendid city squares, taking their various features to explain essential political, social, economic and artistic aspects of historical urban development.0The book illustrates impressively the broad spectrum of urban design to be found in Austria, ranging from romantic idyll through bourgeois elegance to princely splendour.

Jews form only a tiny proportion of the Australian population, yet they have made outstanding contributions and have influenced Australian society immeasurably. Stories such as that of Sir John Monash, Australian commander-in-chief during World War I, whose legacy continues through Monash University, show how Jews have reached the highest echelons of Australian society. The Jews in Australia explores what makes the Australian Jewish community different from other Jewish communities around the world. It traces the community's history from its convict origins in 1788 through to today's vibrant Jewish culture in Australia, and highlights the social and cultural impact the Jews have had on Australia. As well as looking at the emergence of a specific faith tradition in Australia, the book also explores how Jews, as Australia's first ethnic group, have integrated into multicultural Australia.

Already a much loved classic in Austria, "Tante Jolesch or the Decline of the West in Anecdotes" is Friedrich Torberg's tribute to the Jewish coffee-house world that flourished in Vienna in the afterglow of the Austro-Hungarian Empire until its final collapse in 1938. Based on Torberg's personal memories of intellectuals and eccentrics of the time, including Egon Friedell, Fritz Grünbaum, Egon Erwin Kisch, Alfred Polgar, and Franz Werfel, this work evokes the storytelling and humour prominent among Vienna's coffee-house denizens. These anecdotes allow one to see into the lives of assimilated Jews before the Shoah, beginning in the living room of Tante Jolesch, revolving around the coffee-house, and extending to summer resorts, sports matches, dinner parties, a psychiatric clinic under the care of Sigmund Freud, and the office of a U.S. consular official in charge of granting visas to the United States. In this volume, Torberg builds a literary monument to a group of people, a time, and a culture of which he saw himself as one of the last representatives. Despite being one of the most prominent Austrian literary figures of the twentieth century, Friedrich Torberg is not well known in the English-speaking world. He joined the literary elite of pre-war Austria at the age of twenty-two, but his career was cut short by the Nazi ban on Jewish writers. Invited by the New York PEN Club as one of "ten outstanding German anti-Nazi writers", Torberg was able to flee to the United States where he wrote screenplays and articles for German-language newspapers. In 1951 Torberg returned to Vienna, where he became a journalist, critic, and translator. In 1979 he received the Austrian State Prize for Literature.
