<i>Students as Suspects?</i> Unesco Press Praised on both sides of the Atlantic as well as in the author’s native Uganda, Moses Isegawa’s first novel Abyssinian Chronicles was a “big, transcendently ambitious book” (Boston Globe) that “blasts open the tidy borders of the conventional novel and redraws the literary map to reveal a whole new world” (Elle). In Snakepit, Isegawa returns to the surreal, brutalizing landscapes of his homeland during the time of dictator Idi Amin, when interlocking webs of emotional cruelty kept tyrants gratified and servants cooperative, a land where no one—not husbands or wives, parents or lovers—is ever safe from the implacable desires of men in power. Men like General Bazooka, who rues the day he hired Cambridge-educated Bat Katanga as his “Bureaucrat Two”—a man too good at his job—and places in his midst (and his bed) a seductive operative named Victoria, whose mission and motives are anything but simple. Ambitious and acquisitive, more than a little arrogant, Katanga finds himself steadily boxed in by events spiraling madly out of control, where deception, extortion, and murder are just so many cards to be played.	
<i>Bulletin signalétique</i> Legare Street Press Even among people who would never subscribe to its more dramatic claims, the "Eurabia" movement has popularized a set of seemingly common-sense assumptions about Muslim immigrants to the West: that they are disloyal, that they have a political agenda driven by their faith, that their nhigh reproduction rates will soon make them a majority. These beliefs are poisoning politics and community relations in Europe and North America--and have led to mass murder in Norway. Rarely challenged, these claims have even slipped into the margins of mainstream politics. Doug Saunders believes it's time to debunk the myth that immigrants from Muslim countries are wildly different and pose a threat to the West. Drawing on voluminous demographic, statistical, scholarly and historical documentation, Saunders examines the real lives and circumstances of Muslim immigrants in the West: their politics, their beliefs, their observances and their degrees of assimilation. In the process he shatters the core claims that have built a murderous ideology and draws haunting historical parallels showing how the same myths stuck to earlier groups, such as Jews and Roman Catholics. His work will become a vital handbook in the culture wars that threaten to dominate North American and European elections and media discussions in 2012 and afterwards, and will provoke considerable debate over the actual nature of our polyglot societies.

<i>A Systems Approach to Teaching and Learning Procedures</i> McGraw-Hill Education (UK) In the tradition of such trailblazing books as No Logo and The Tipping Point, In Praise of Slow heralds a growing international movement of people dedicated to slowing down the pace of our contemporary times and enjoying a richer, fuller life as a result. These days, almost everyone complains about the hectic pace of their lives. We live in a world where speed rules and everyone is under pressure to go faster. But when speed is king, anyone or anything that gets in our way, that slows us down, becomes an enemy. Thanks to speed, we are living in the age of rage. Carl Honore has discovered a movement that is quickly working its way into the mainstream. Groups of people are developing a recipe for living better in a fast-paced,	

modern environment by striving for a new balance between fast and slow. In an entertaining and hands-on investigation of this new movement, Honore takes us from a Tantric sex workshop in a trendy neighbourhood in London, England to Bra, Italy, the home of the Slow Food, Slow Cities and Slow Sex movements. He examines how we can continue to live productive lives by embracing the tenets of the slow movement. A challenging take on the cult of speed, as well as a corrective look at how we can approach our lives with new understanding, In Praise of Slow uncovers a movement whose time has come.

A classic of modern French literature, the thrilling real-life story of the military hero, ambassador, ladies man, writer, and loving son I grew up longing for the day when I could tear down the veil of darkness and absurdity concealing the true face of the universe and discover at last a smile of kindness and wisdom; I grew up in the certitude that one day I should help my fellow men to wrest the world from our enemies and give back the earth to those who ennoble it with their courage and warm it with their love. Promise at Dawn begins as the story of a mother’s sacrifice: alone and poor, she fights fiercely to give her son the very best. Romain Gary chronicles his childhood in Russia, Poland, and on the French Riveria; he recounts his adventurous life as a young man fighting for France in World War II. But above all he tells the story of the love for his mother that was his very life—their secret and private planet, their wonderland “born out of a mother’s murmur into a child’s ear, a promise whispered at dawn of future triumphs and greatness, of justice and love.”

This publication assesses progress towards Sustainable Development Goal 4 (SDG 4) on education and its ten targets, as well as other related education targets in the SDG agenda. It addresses inclusion in education, drawing attention to all those excluded from education, because of background or ability. The report is motivated by the explicit reference to inclusion in the 2015 Incheon Declaration, and the call to ensure an inclusive and equitable quality education in the formulation of SDG 4, the global goal for education. It reminds us that, no matter what argument may be built to the contrary, we have a moral imperative to ensure every child has a right to an appropriate education of high quality.

Private supplementary tutoring, widely known as shadow education because of the way that it mimics mainstream schooling, has greatly expanded

worldwide. It consumes considerable family resources, provides employment for tutors, occupies the time of students, and has a backwash on regular schools. Although such tutoring has become a major industry and a daily activity for students, tutors and families, the research literature has been slow to catch up with the phenomenon. The topic is in some respects difficult to research, precisely because it is shadowy. Contours are indistinct, and the actors may hesitate to share their experiences and perspectives. Presenting methodological lessons from diverse cultures, the book contains chapters from both high-income and low-income settings in Asia, Caribbean, Europe and the Middle East. Separately and together, the chapters present valuable insights into the design and conduct of research. The book will assist both consumers and producers of research. Consumers will become better judges of the strengths, weaknesses and orientations of literature on the theme; and producers will gain insights for design of instruments, collection of data, and interpretation of findings. The popular text that helped readers better understand and practice qualitative research has been completely updated and revised. To help readers better visualize and grasp the concepts, issues, and complexities of qualitative inquiry, the authors introduce each chapter with discussions among three 'characters'--students whose research projects demonstrate the challenges and excitement of qualitative research. Woven into the chapters and the characters' stories are three themes that make up the tapestry of qualitative research: First, research is a learning process. Second, research can and should be useful. Finally, a researcher needs to have a clear vision of the audience and purpose of a study.
