### Scientific and Technical Books and Serials in

**Print** Butterworth-Heinemann  
This classic book in the Kemp and Young series has been fully revised and updated by David J Eyres, author of the well-known Butterworth-Heinemann title "Ship Construction," and will prove indispensable to the student reader. The contents cover, in numerous fully illustrated items, shipyard practices, principles of construction methods, the design and construction of the various component parts of the ship, and the overall arrangement of different types of merchant and passenger vessels.

*Notes on Meteorology*  
Osprey Publishing (UK)

This is the 15th annual edition of the Bibliography of Nautical Books, a reference guide to over 14,000 nautical publications. It deals specifically with the year 2000.

#### Ship Construction Sketches and Notes

Routledge  
Part of the Kemp and Young series, this book provides a concise introduction to meteorology. Information is presented using diagrams, illustrations and worked examples.

Mathematics is kept to a necessary minimum and there is a comprehensive index to aid quick reference. Notes on Meteorology is suitable for First Officer or Master Marine certification exams, those new to sea faring, and those whose practical experience is limited to narrow areas and wish to expand their

knowledge.

*Notes on Compass Work*  
Osprey Publishing (UK)  
*Notes on Meteorology* is intended to provide practical knowledge of meteorology. It describes some of the more common theory of weather phenomena as simply as possible. Drawings of instruments in this volume were from the Admiralty Manual of Seamanship while the map of the weather forecast areas supplied by the Meteorological Office. This second edition of the book contains several alterations in numerical quantities to reflect the changeover to metrication with SI units. Some chapters were revised and introductory notes were added on topics such as facsimile plotting and weather routeing in order the fulfill the book's original purpose of providing a basic text on

meteorology for examination candidates, yachtsmen and all interested in the subject of weather. This book will be of interest to students studying for their examinations and others interested in meteorology, particularly yachtsmen.

**Business Notes for Shipmasters** Sheridan House Incorporated  
The Kemp and Young series is designed to provide an introduction to the topic covered that will be suitable and useful for both those who are newly at sea and those whose practical experience is limited to narrow areas and wish to expand their knowledge. The concise presentation of the subject matter is made

possible by the reduction of the work to its simplest terms. This is generally achieved through the omission of unnecessary mathematics or mathematical concepts, and the generous use of diagrams and illustrations. Where appropriate, worked examples are used to reiterate the points being made in the text and will be found useful in furthering the reader's knowledge of the subject and familiarity with the contents. Rapid reference to the substance of each topic can be made by use of a carefully constructed index.

**General Catalogue of Printed Books** Routledge  
Includes entries for maps

and atlases.
