Learning French from Spanish and Spanish from French provides adult English speakers who have learned either Spanish or French as a second language with the tools to learn the other as a third language. Research in the growing fields of third-language acquisition and multilingualism documents how successful language learners intuitively build on their existing knowledge as they learn a new language. In this vein, Learning French from Spanish and Spanish from French takes advantage of the fact that learners with intermediate proficiency in a second language are used to thinking consciously about language, know themselves as language learners, and can capitalize on what they know about one language to understand the other. With chapters conveniently organized by grammatical concept and including

supplementary resources such as exercises, parallel reading texts, and audio files, this book will benefit students, travelers, and budding multilinguals alike.

As society becomes more global, you should equip yourself with knowledge of foreign languages. What better language to start with than French? If you don't have previous knowledge of the French language, this book is perfect for you. If you know some French and you're looking to improve your grammatical competence, you'll also find this book useful. You may be asking, what sets this book apart from other French learning books? First, this book isn't a phrase book, a dictionary, nor a scholarly resource regarding French grammar. Rather, Learn French for Beginners is a combination of useful words and phrases translated from English to French and practical grammar rules that are essential in understanding the basics of French. Basically, it offers an effective way for you to be able to actually communicate in the French language. And unlike other books, most of the French words introduced here are accompanied by a pronunciation guide so you learn not just the words but also how to properly say them. Here's what you will find inside this book:

The first chapter will be the foundation of your learning. It introduces the French alphabet, which is quite similar to the alphabet that you already know but sounds a bit different. You'll also learn how to deal with numbers, including telling date and time. At the end of this chapter, you'll be able to identify cognates, allowing you to expand your French vocabulary with ease. Chapter 2 is about nouns and their identifier, the articles. It explains how to differentiate masculine from feminine nouns and how to form the plural. Because it's best to learn not just the noun itself but also its gender, all nouns listed in this book include the definite article to alert you whether it's feminine or masculine. Chapter 3 deals with verbs and the rules of conjugation. It explains the different verb tenses and how their usage is similar to or different from the English language. It also briefly describes the moods of verbs, why it's important to understand them, and how to construct their different forms. Adjectives and adverbs are the main topics of Chapter 4. This chapter describes how to build the different forms of adjectives, lists the different types of adverbs, and how to properly position them in phrases and sentences. Chapter 5 is about the different types of sentences and how to build them. It explains the important elements needed to construct simple and complex sentences that will allow you to effectively express yourself in French. Chapters 6 to 8 contain words and phrases that you can use in everyday conversations at home, at work, and especially during your travels to French-speaking places. Most importantly, there are relevant exercises at the end of each chapter that will help you assess your existing knowledge and track your progress.
