Neue Wege Des Haushaltsmanagements Internationale

2021-06-25

GIANNA JAYLA

Art of the 20th Century Taschen

Die Modernisierung des Haushaltswesens hat in den letzten Jahren zunehmend an Dynamik gewonnen und wird in einem immer breiteren Verständnis interpretiert, so dass in jüngster Zeit auch Reformen und Veränderungsprozesse in den Begriff eingeschlossen werden, die bislang nicht darunter subsumiert wurden. So beschränkt sich die Haushaltsmodernisierung nicht länger auf die Einführung von Kosten- und Leistungsrechnung oder doppischer Rechnungslegung, auf mittel- und langfristige Budgetmodelle oder auf die Flexibilisierung bzw. verstärkte Ergebnisorientierung von Haushalten, sondern sie entwickelt sich zu einem integrativen Verwaltungsführungsinstrument. Die Neuausrichtung des Haushalts auf Nachhaltigkeit und Ergebnisorientierung resultiert im Idealfall in einer neuen Steuerungsphilosophie und umfasst strategische Aspekte sowie Organisations- und Personalmanagement. Die Autorinnen und Autoren dieses Bandes präsentieren und diskutieren internationale und nationale Trends, Best Practices und Herausforderungen für eine erfolgreiche Umsetzung. Sie stellen die erforderlichen Verknüpfungen der einzelnen Elemente des Haushaltswesens dar und verweisen auf unverzichtbare Eckpunkte der Implementierung integrierter Systeme.

Arme und reiche Städte Combat Poverty Agency

This report synthesises main findings and recommendations from a survey of 13 countries on international engagement in fragile states.

Verwaltung der unternehmerischen Stadt SAGE

This volume brings together two hitherto disparate domains of scholarly inquiry: organization and management studies on the one hand, and the study of visual and multimodal communication on the other. Within organization and management studies it has been recognized that organizational reality and communication are becoming increasingly visual, and, more generally, multimodal, whether in digital form or otherwise. Within multimodality studies it has been noted that many forms of contemporary communication are deeply influenced by organizational and managerial communication, as formerly formal and bureaucratic types of communication increasingly adopt promotional language and multimodal document presentation. Visual and Multimodal Research in Organization and Management Studies integrates these two domains of research in a way that will benefit both. In particular, it conceptually and empirically connects recent insights from visual and

multimodality studies to ongoing discussions in organization and management theory. Throughout, the book shows how a visual/multimodal lens enriches and extends what we already know about organization, organizations, and practices of organizing, but also how concepts from organization and management studies can be highly productive in further developing insights on visual and multimodal communication. Due to its essentially interdisciplinary objectives, the book will prove inspiring for academics and scholars of management, the sociology of organizations as well as related disciplines such as applied linguistics and visual studies.

Topics in Public Economics Oxford University Press

This book provides a comparative analysis of performance budgeting and financing implementation, and examines failures and successes across both developed and developing countries. Beginning with a review of theoretical research on performance budgeting and financing, the book synthesises the numerous studies on the subject. The book describes the situation in the US, Australia, New Zealand, Germany, Austria and Switzerland, Netherlands and Italy, as well as in seven developing countries - Bulgaria, Czech Republic, Slovakia, Slovenia, Ukraine, Russia and South Africa, at the national, and at the local level. Each chapter provides historical and descriptive details of successful or failed experiments in performance budgeting and performance financing.

Learning How to Be an Active Citizen in Dublin's Docklands Taylor & Francis

Auf globaler Ebene lassen sich für die vergangenen Dekaden drei dominierende Verwaltungspfadparadigmen identifizieren: Public Administration, New Public Management und Public Governance. Tobias Polzer untersucht, wie sich diese Paradigmen in den Reformen des österreichischen Bundeshaushaltsgesetzes über die letzten 30 Jahre widerspiegeln. Die Studie zeigt zum einen, dass in jedem Zeitabschnitt Kernideen aus allen drei Paradigmen im Reformdiskurs auftreten. Darüber hinaus findet keine Ablösung von Reformparadigmen statt; vielmehr kann eine Hybridisierung und Sedimentierung des Feldes beobachtet werden.

Neue Wege des Haushaltsmanagements : internationale Erfahrungen, Herausforderungen und Trends Cambridge University Press

This collection examines the leadership training of public administration in 19 countries and provides information on where, what, and how the training occurs as well as the up-to-date cultural, political, economic background for each. Factors affecting perceived importance, quality and robustness of top civil servant training are examined.

Governance Networks in the Public Sector presents a comprehensive study of governance networks

and the management of complexities in network settings. Public, private and non-profit organizations are increasingly faced with complex, wicked problems when making decisions, developing policies or delivering services in the public sector. These activities take place in networks of interdependent actors guided by diverging and sometimes conflicting perceptions and strategies. As a result these networks are dominated by cognitive, strategic and institutional complexities. Dealing with these complexities requires sophisticated forms of coordination: network governance. This book presents the most recent theoretical and empirical insights into governance networks. It provides a conceptual framework and analytical tools to study the complexities involved in handling wicked problems in governance networks in the public sector. The book also discusses strategies and management recommendations for governments, business and third sector organisations operating in and governing networks. *Governance Networks in the Public Sector* is an essential text for advanced students of public management, public administration, public policy and political science, and for public managers and policymakers.

Methods of Critical Discourse Studies transcript Verlag

"Public Management" stellt Führungskräften öffentlicher Institutionen ein IOP-Konzept mit Instrumenten des Innovations- und Informationsmanagements (I), der organisatorischen Gestaltung (O) und des Personalmanagements (P) zur Verfügung und unterstützt den gegenwärtigen Strategie-, Struktur- und Kulturwandel. Sechs Fallstudien aus Verwaltung, Schule und Krankenhaus sowie 16 Praxisfenster, die von Experten aus Dänemark, Deutschland, Österreich und der Schweiz verfasst wurden, vertiefen praxisnah die konzeptionellen Inhalte. Für die 4. Auflage wurde das Buch vollständig aktualisiert.

Enlargement of the European Union Policy Press

This double volume presents a collection of 23 papers on how institutions matter to socio-economic life. The effort was seeded by the 2015 Alberta Institutions Conference, which brought together 108 participants from 14 countries and 51 different institutions.

Visual and Multimodal Research in Organization and Management Studies Springer-Verlag

Explore the turbulent times and revolutionary ideas of 20th-century art. From Surrealism to Land Art, Fluxus to Bauhaus, this readable and comprehensive survey is your be-all, end-all guide to the people and works that redefined 'art' as we knew it, from 1900 to 2000. Ranging across the full spectrum of disciplines, including photography and new media, this encyclopedic masterwork does just what it says on the cover.

Public Management Cambridge University Press

What is "European Angst"? Is it the extension of "German Angst" to a whole continent? The latter term is often used disparagingly to describe the German tendency to problematise, weigh up and hesitate, especially when reasons for this seem slight and insignificant. But European Angst has nothing to do with stereotypical overscrupulousness. It is a mass of powerful emotions which transcend national borders and therefore seemed a fitting title for a conference which was to address disturbing developments, including populism, extremism and Euroscepticism. Was ist das: European Angst? Etwa die Ausweitung der German Angst auf einen ganzen Kontinent? Mit German Angst beschreibt man im Ausland oft abschätzig das Problematisieren, Abwägen und Zögern der Deutschen, besonders dann, wenn die Gründe dafür nichtig und klein erscheinen. European Angst

aber hat nichts mit stereotyper Bedenkenträgerei zu tun. Sie ist vielmehr ein Bündel starker Emotionen über viele Ländergrenzen hinweg und war deshalb ein treffender Titel für eine Konferenz, auf der über beunruhigende Entwicklungen, über Populismus, Extremismus und Europaskepsis gesprochen werden sollte.

New Themes in Institutional Analysis Routledge

It is widely agreed that there is a need to transform care and support services. 'Supporting People' explores with service users, practitioners, carers and managers what person-centred support means to them, what barriers stand in the way and how these can be overcome.

The SAGE Handbook of Organizational Institutionalism Emerald Group Publishing

The second edition of the bestselling *The SAGE Handbook of Organizational Institutionalism* has been thoroughly revised with new chapters added, bringing together extensive coverage of aspects of Institutional Theory.

Conflict and Fragility International Engagement in Fragile States Can't We Do Better? edition sigma

This volume presents the refereed papers given at the International Conference on Managing the Asian Century, held in Singapore in July 2013. The proceedings of this conference include original papers contributed by researchers from many countries on different continents. The papers cover multi-disciplinary areas such as management, the social sciences, development economics, banking & finance, engineering management, and education, all in connection with the development of countries in Asia. Further, the papers are based on the 9 tracks at the conference: Transnational Education Antecedents of Asia's Competitiveness Emerging Trends in Banking, Finance and Accounting Business and Revenue Models in the Gaming Industry Psychological Issues in Asia Emerging Retail and Service Industries Entrepreneurship, Creativity and Innovation Systems Thinking and Systems Practices Tourism Initiatives, Relationships and Issues in the Asia-Pacific Region

Die unbekanntenen Europäer BoD - Books on Demand

Institutions - the structures, practices, and meanings that define what people and organizations think, do, and aspire to - are created through process. They are 'work in progress' that involves continual efforts to maintain, modify, or disturb them. Institutional logics are also in motion, holding varying degrees of dominance that change over time. This volume brings together two streams of thought within organization theory - institutional theory and process perspective - to advocate for stronger process ontology that highlights institutions as emergent, generative, political, and social. A stronger process view allows us to challenge our understanding of central concepts within institutional theory, such as 'loose coupling', 'institutional work', the work of institutional logics on the ground, and institutionalization between diffusion and translation. Enriched with an emphasis on practice and widened by taking a broad view of institutions, this volume draws on the Ninth International Symposium on Process Organization Studies to offer key insights that will inform our thinking of institutions as processes.

Rethinking Governance Emerald Group Publishing

Despite predictions that 'new public management' would establish itself as the new paradigm of Public Administration and Management, recent academic research has highlighted concerns about the intra-organizational focus and limitations of this approach. This book represents a

comprehensive analysis of the state of the art of public management, examining and framing the debate in this important area. *The New Public Governance?* sets out to explore this emergent field of research and to present a framework with which to understand it. Divided into five parts, the book examines: Theoretical underpinnings of the concept of governance, especially competing perspectives from Europe and the US Governance of inter-organizational partnerships and contractual relationships Governance of policy networks Lessons learned and future directions Under the steely editorship of Stephen Osborne and with contributions from leading academics including Owen Hughes, John M. Bryson, Don Kettl, Guy Peters and Carsten Greve, this book will be of particular interest to researchers and students of public administration, public management, public policy and public services management.

Multimodality, Meaning, and Institutions Springer-Verlag

This is a sophisticated and nuanced introduction to critical discourse analysis (CDA) that covers a range of topics in an accessible, engaging style. With international examples and an interdisciplinary approach, readers gain a rich understanding of the many angles into critical discourse analysis, the fundamentals of how analysis works and examples from written texts, online data and images. This new edition: expands coverage of multimodality adds two new chapters on social media and analysis of online data supports learning with a guided introduction to each chapter includes a new and extended glossary Clearly written, practical and rigorous in its approach, this book is the ideal companion when embarking on research that focuses on discourse and meaning-making.

Macrofoundations SAGE

Global Themes and Local Variations in Organization and Management: Perspectives on Glocalization offers a broad exposition of the relations between the global and the local with regard to organizational and managerial ideas, practices, and forms. This edited volume forges ahead to capture the complexity of modern management and organization that results from the processes of glocalization. Universality is among the core underlying principles of the management of organizations, as well as of organization and management science itself. Yet, reality reveals enormous variation across social and cultural contexts. For instance, multinational corporations must adjust their management practices to adhere to national regulation and local standards; manufacturers and service providers routinely tailor their products to suit the local preferences of consumers; and non-profit organizations amend their advocacy agenda to appeal to local sentiments. The work assembled here goes beyond merely describing such patterns of variation and adaptation in organization and management; research and commentary engage directly with the tensions between homogeneity and heterogeneity, convergence and divergence, global and local. With contributions from leading scholars in the field of comparative organization studies, this collection offers a substantive contribution to the investigation of organization and management, as

well as providing a valuable resource for students of organization studies, international business, and sociology.

Public Sector Reform and Performance Management in Developed Economies Kluwer Law International B.V.

On January 2009, President Obama signed the Memorandum on Transparency and Open Government. The memorandum declares the new Administration's commitment to creating an unprecedented level of openness in Government and establishing a system linking three principles: transparency, public participation and collaboration. Since then, federal agencies in the United States and public administrations around the world have embarked on open government initiatives and have worked to redefine their relationship with citizens and with each other. On September 20th, 2011, eight governments gathered in New York City to launch the Open Government Partnership, a new multilateral initiative to promote open government. The benefits attributed to open government are many and by no means universally shared. They include the claims that open government leads to more effective decision making and services, safeguards against corruption, enables public scrutiny, and promotes citizens' trust in government. However, the speed of events and pressure to implement has given rise to confusion and ambiguity. Although many of the initiatives have been based on opening data and on promoting open action, governments have followed different directions and interpretations when it has come to implement them and development of open government has become unequal and heterogeneous. This book provides a comprehensive study of recent major developments of open government around the world, and analyzes the importance of open government efforts for public governance, making it of interest to academics and practitioners worldwide.

Die Friedens-Warte Routledge Studies in Management, Organizations and Society

Several problems plague contemporary thinking about governance. From the multiple definitions that are often vague and confusing, to the assumption that governance strategies, networks and markets represent attempts by weakening states to maintain control. *Rethinking Governance* questions this view and seeks to clarify how we understand governance. Arguing that it is best understood as 'the strategies used by governments to help govern', the authors counter the view that governments have been decentred. They show that far from receding, states are in fact enhancing their capacity to govern by developing closer ties with non-government sectors. Identifying five 'modes' of government (governance through hierarchy, persuasion, markets and contracts, community engagement, and network associations), Stephen Bell and Andrew Hindmoor use practical examples to explore the strengths and limitations of each. In so doing, they demonstrate how modern states are using a mixture of governance modes to address specific policy problems. This book demonstrates why the argument that states are being 'hollowed out' is overblown.
