Today's science standards reflect a new vision of teaching and learning. | How to make this vision happen Scientific literacy for all students requires a deep understanding of the three dimensions of science education: disciplinary content, scientific and engineering practices, and crosscutting concepts. If you actively engage students in using and applying these three dimensions within curricular topics, they will develop a scientifically-based and coherent view of the natural and designed world. The latest edition of this best-seller, newly mapped to the Framework for K-12 Science Education and the Next Generation Science Standards (NGSS), and updated with new standards and research-based resources, will help science educators make the shifts needed to reflect current practices in curriculum, instruction, and assessment. The methodical study process described in this book will help readers intertwine content, practices, and crosscutting concepts. The book includes: • An increased emphasis on STEM, including topics in science, technology, and engineering • 103 separate curriculum topic study guides, arranged in six categories • Connections to content knowledge, curricular and instructional implications, concepts and specific ideas, research on student learning, K-12 articulation, and assessment Teachers and those who

The Apex Book of World SF, edited by Lavie Tidhar, features award-winning science fiction and fantasy short stories from Asia, Eastern Europe and around the world. The world of speculative fiction is expansive; it covers more than one country, one continent, one culture. Collected here are sixteen stories penned by authors from Thailand, the Philippines, China, Israel, Pakistan, Serbia, Croatia, Malaysia, and other countries across the globe. Each one tells a tale breathtakingly vast and varied, whether caught in the ghosts of the past or entangled in a postmodern age. Among the spirits, technology, and deep recesses of the human mind, stories abound. Kites sail to the stars, technology transcends physics, and wheels cry out in the night. Memories come and go like fading echoes and a train carries its passengers through more than simple space and time. Dark and bright, beautiful and haunting, the stories herein represent speculative fiction from a sampling of the finest authors from around the world. Table of Contents: S.P. Somtow (Thailand) — “The Bird Catcher” Jetse de Vries (Netherlands) — “Transcendence Express” Guy Hasson (Israel) — “The Levantine Experiments” Han Song (China) — “The Wheel of Samsara” Kaaron Warren (Australia/Fiji) — “Ghost Jail” Yang Ping (China) — “Wizard World” Dean Francis Alfar (Philippines) — “L’Aquilone du Estrellas (The Kite of Stars)” Nir Yaniv (Israel) — “Cinderers” Jamil Nasir (Palestine) — “The Allah Stairs” Tunku Halim (Malaysia) — “Biggest Baddest Bomoh” Aliette de Bodard (France) — “The Lost Xuyan Bride” Kristin Mandigma (Philippines) — “Excerpt from a Letter by a Social-realist Aswang” Aleksandar Žiljak (Croatia) — “An Evening in the City Coffehouse, With Lydia on My Mind” Anil Menon (India) — “Into the Night” Mélanie Fazi (France, translated by Christopher Priest) — “Elegy” Zoran Živković (Serbia, translated by Alice Copple-Tošić) — “Compartments” Cover art and design by Sarah Anne Langton. Reviews: “From S.P. Somtow’s World Fantasy Award-winning “The Bird Catcher,” a restrained horror tale of a young boy’s friendship with Thailand’s most infamous human “monster,” to “Wizard World,” Galaxy Award winner Yang Ping’s story of high-tech gamers, this extraordinary anthology of 16 tales introduces English-speaking readers to some of the world’s best writers of sf, horror, fantasy, and metafiction. Contributors include Jamil Nasir (Palestine), Aleksandar Žiljak (Croatia),

Guy Hasson (Israel), Kaaron Warren (Australia/Fiji), and Jetse de Vries (Netherlands). VERDICT This literary window into the international world of imaginative fiction, the first in a new series, is sure to appeal to adventurous sf fans and readers of fiction in translation.” —Library Journal “The great thing about Tidhar’s collection is that it is full of such masterpieces. You do have to get used to having your mind warped as if by some powerful psychedelic. You’ll definitely feel that way after Zoran Živkovic and his Godot-like explorations. Or after Guy Hassan’s thought experiment about the nature of mind and thought. But once you get used to the idea, you can settle in and enjoy the ride.” —42SciFi-Fantasy.com, Randy Lazarus “These stories deserve to be heard!” —Frederik Pohl

A classic mystery from Dick Francis, the champion of English storytellers. Daniel Roke owns a stud farm in Australia. He's young, smart, hard-working and desperate for some excitement - all of which makes him the ideal candidate for the Earl of October, who has come visiting. The Earl is concerned about a horse-doping scandal that is destroying English racing. He wants to pay Daniel to come back with him, pose as a highly corruptible stable lad and discover who is behind it. Unfortunately, when Daniel agrees he doesn't realise how close he'll have to get to find the truth. Nor how determined the criminals will be to prevent him living long enough to tell anyone... Praise for Dick Francis: 'As a jockey, Dick Francis was unbeatable when he got into his stride. The same is true of his crime writing' Daily Mirror 'Dick Francis's fiction has a secret ingredient - his inimitable knack of grabbing the reader's attention on page one and holding it tight until the very end' Sunday Telegraph 'The narrative is brisk and gripping and the background researched with care . . . the entire story is a pleasure to relish' Scotsman 'Francis writing at his best' Evening Standard 'A regular winner . . . as smooth, swift and lean as ever' Sunday Express 'A super chiller and killer' New York Times Book Review Dick Francis was one of the most successful post-war National Hunt jockeys. The winner of over 350 races, he was champion jockey in 1953/1954 and rode for HM Queen Elizabeth, the Queen Mother, most famously on Devon Loch in the 1956 Grand National. On his retirement from the saddle, he published his autobiography, *The Sport of Queens*, before going on to write forty-three bestselling novels, a volume of short stories (*Field of 13*), and the biography of Lester Piggott. During his lifetime Dick Francis received many awards, amongst them the prestigious Crime Writers' Association's Cartier Diamond Dagger for his outstanding contribution to the genre, and three 'best novel' Edgar Allan Poe awards from The Mystery Writers of America. In 1996 he was named by them as Grand Master for a lifetime's achievement. In 1998 he was elected a fellow of the Royal Society of Literature, and was awarded a CBE in the Queen's Birthday Honours List of 2000. Dick Francis died in February 2010, at the age of eighty-nine, but he remains one of the greatest thriller writers of all time.

This document is a response to teachers' requests for practical assistance in implementing California's history-social science framework. The document offers stimulating ideas to enrich the teaching of history and social science, enliven instruction for every student, focus on essential topics, and help make learning more memorable. Experiences and contributions of ethnic groups and women in history are integrated in this course model. The framework is divided into 11 units: (1) Connecting with Past Learnings: Uncovering the Remote Past; (2) Connecting with Past Learnings: the Fall of

Rome; (3) Growth of Islam; (4) African States in the Middle Ages and Early Modern Times; (5) Civilizations of the Americas; (6) China; (7) Japan; (8) Medieval Societies: Europe and Japan; (9) Europe During the Renaissance, the Reformation, and the Scientific Revolution; (10) Early Modern Europe: The Age of

Exploration to the Enlightenment; and (11) Linking Past to Present. Six of the 11 units delineated in the framework's 7th grade course description are developed in these course models. All units follow the same format. Each begins with a rationale and overview. Ways are suggested for

teachers to coordinate the model with the state-adopted textbook for 7th grade. A presentation of activities to introduce and continue the sample topic are suggested to encourage students to apply what they have studied through projects. Each unit ends with an extensive annotated list of sample resources. (DK)
