From the mind of #1 New York Times bestselling author Larry Niven, come twenty-six tales and vignettes from this interplanetary gathering place, collected for the first time in one volume. When a tremendous spacecraft took orbit around the Earth's moon and began sending smaller landers down toward the North Pole, the newly arrived visitors quickly set up a

permanent spaceport at Mount Forel in Siberia.

Their presence attracted many, and a few people grew conspicuously rich from secrets they learned from talking to the aliens. One of these men, Rick Schumann established a tavern catering to all of various species of visiting aliens, a place he named the Draco Tavern. This collection includes: "The Subject Is Closed": A priest visits the tavern and goes one-on-one with a chirpsithra alien on the subject of God and life after death. "Table

Manners: A Folk Tale": Rick Schumann is invited to hunt with five folk aliens, but he's not quite sure what their hunt entails, or if he will be the hunted. "Wisdom of Demons": The age-old question of wisdom vs. knowledge is asked when Rick is confronted by a human who has been granted the wisdom of an individual gligstith(click)optok alien. "Losing Mars" in this unpublished tale, a group of aliens who call Mars and its moon home, arrive at the Tavern only to find

that humans have mostly forgotten about their neighboring planet. The Legacy of Heorot

Our memory of Sixties New Left radicals often evokes marches in the streets, battles with the police, or urban bombings. However, the New Left was a multi-faceted movement, with diverse tendencies. One of these tendencies promoted electoral as the way to change America. In

every city that was a center of New Left activism, this "Electoral New Left" entered the political arena. A surprisingly large number of these New Left radicals were elected to office: City Council, Mayor, State Senate, even the U.S. Senate. Once in office, they persisted and prevailed. Cities and places we think of today as eternally liberal-- Berkeley, Madison, Ann Arbor, even the state of Vermont--were, deeply conservative and deeply Republican before the

triumphs of the local Electoral New Left. These "Radicals in Power," however, brought about a lasting political realignment in their locales, and embodied the vision of a better future that was at the heart of all New Left activism. However, the accomplishments of the Electoral New Left, even its very existence, are almost completely unexplored. Historians of the social and political movements of the Sixties have focused on anti-Vietnam War protest

movements, or on the Revolutionary New Left. Radicals in Power corrects that oversight and, in doing so, rewrites the history of the Sixties and the New Left. Based on interviews with the elected New Left radicals in each of their cities, Davin details the birth and evolution of a local and regional progressive politics that has, heretofore, been overlooked.

 In the far future, Earth is about to be swallowed by a black hole in this

sweeping SF epic from one of the masters of the genre. In a time so far from our own that we cannot comprehend it, humanity has spread amongst the stars and changed in more ways than we can count. But they have never forgotten their birthplace - Earth. But now Earth stands on the brink of catastrophe, at risk of being swallowed by a black hole. One man, Hanosz Prime, ruler of his world, is determined to visit Earth before it is destroyed. His abdication from his throne and his

wanderlust are to prove the beginning of a much longer journey - one that will see him fall in love, meet the Oracles of Earth and perhaps, if he is very lucky, provide a means to save the cradle of humanity. Originally started by Robert Silverberg more than 20 years ago but never completed, Hanosz's story is taken up by Alvaro Zinos-Amaro. Silverberg hand-picked Zinos-Amaro to complete the book, and provided notes and

guidance. The result is a remarkable collaboration between one of the masters of SF and one of the most exciting new voices in the genre.
