STEVENS BREANNA	
Race and Religion Among the Chosen People of Crown Heights Cambridge University Press Benjamin Fagan shows how the early black press helped shape the relationship between black chosenness and the struggles for black freedom and equality in America, in the process transforming the very notion of a chosen American nation.	
Stripping Bare the Body Lexington Books Where are all the bodies? Political institutions are populated by living, breathing human beings, who eat, sleep, gesture, desire and suffer. And yet participants of the political realm are often depicted as disembodied minds, detached and distinct from their corporeal existence. Amanda Machin considers six embodied modes of democratic politics: representation, deliberation, disagreement, protest, occupation and counsel. Drawing on diverse thinkers such as Maurice Merleau-Ponty, Michael Polanyi, Simone de Beauvoir, Donna Haraway and Judith Butler, she offers an absorbing illustration of the ways human bodies are not only the disciplined objects of politics, but the generative subjects of democracy.	
American Body Politics University of Toronto Press International Relations, in both theory and practice, has been increasingly concerned with a proliferation of modes of violence that use, target, and construct bodies in complex ways that challenge notions of security. The central argument of this work is that the bodies that practices of violence take as their object are deeply unnatural bodies, constituted in reference to historical political conditions as well as acting upon our world.	
Bodies of Democracy Vintage This special issue is animated by the necessary entanglement of theory and history, the cortical relationship between theory and practice, and the transboundary relations that help to constitute systems of thought and practice.	
<i>Church And Israel After Christendom</i> Houghton Mifflin Harcourt This book presents two seismic events. The first is the demise of the Christendom paradigm, in which the church was positioned as the spiritual sponsor of Western civilization. The second event is the Holocaust, the Shoah, the systematic attempt by a "Christian nation" to eradicate the Jews.	
<i>Encountering Palestine</i> Stanford University Press An Inspector Alvarez Mystery - Inspector Alvarez is just considering whether he can surreptitiously leave work early when a colleague calls to tell him that an Englishman has been found dead in his car in his garage, the engine on and the tank empty. Alvarez, chafing over the prospect of an evening on the job, proceeds to the scene, but his hopes of a quick and easy case are dashed - for while the man was found in a car full of fumes, it appears the cause of death was not carbon-monoxide poisoning . . .	
<i>Body/Politics</i> Emerald Group Publishing Felipe Smith tracks the emergence of particular gender images--such as white witch, black madonna, mammy, and white lady--and their impact on early African American literature. Smith gives us a remarkable synthesis of historical readings combined with a highly original contribution to the comprehension of racial thought and literary writing.	
<i>The Chosen</i> BoD - Books on Demand New York City is still regaining its balance in the years following 9/11, when four twenty-somethings meet in a bar, each hungry for something: connection, recognition, a place in the world, a cause to believe in. Nearly fifteen years later, as their city recalibrates in the wake of the 2016 election, their bond has persisted--as has their hunger--but almost everything else has changed. As freshmen at Cooper Union, Tess and Tazio were the ambitious, talented future of the art world--but by thirty-seven, Tess has become a reliable Broadway understudy (though not yet the star). She is also married to David, Tazio's high school best friend, who has recently been suffering from unremitting dizziness and disorientation caused by a freak accident. Tazio has left the artworld for a career in politics, but in December 2016, fresh off the astonishing loss of his candidate, he is adrift, and not even Angelica, his accomplished and beautiful fiancée, seems able to get through to him. With tensions rising on the national stage, the four friends are forced to reckon with elements of their individual and shared histories that they can no longer ignore--including a long-ago betrayal that has shaped every aspect of their friendship. Deft and elegant, incisive and humane, <i>The Body Politic</i> explores how buried secrets always find their way to the surface, and how everything can shift--and eventually erupt--over the course of a relationship and a life.	
<i>Avondale of Avondale, a political romance</i> Penguin Analyzes the growing divide between the incomes of the wealthy class and those of middle-income Americans, exonerating popular suspects to argue that the nation's political system promotes greed and under-representation.	
<i>The Chosen Body</i> Simon & Schuster View our feature on Virna DePaul's Chosen by Blood. Five years after the Second Civil War ends, humans and otherborn- humanlike creatures with superhuman DNA-still struggle for peace. To ensure the continued rights of both, the FBI forms a Para-Ops team with a unique set of skills. Watch a Video	
Democracy as the Political Empowerment of the People transcript Verlag	
The chosen place is Bourneville, a remote, devastated part of a Caribbean island; the timeless people are its inhabitants—black, poor, inextricably linked to their past enslavement. When the advance team for an ambitious American research project arrives, the tense, ambivalent relationships that evolve, between natives and foreigners, black and whites, haves and have-nots, keenly dramatize the vicissitudes of power. “An important and moving book . . . Marshall is as wise as she is bold, for in compromising neither her politics nor her understanding of people, she makes better sense of both.”—Village Voice	
<i>The Political Theory of The Federalist</i> University of Chicago Press The left and right in America are now divided by politically irreconcilable worldviews, and the root of that divide is authoritarianism.	
The Chosen Place, The Timeless People Simon and Schuster This is an interdisciplinary study of the state funerals that were celebrated in France between the French Revolution and the death of François Mitterand. Its aim is to explain how the funerals of such prominent figures as Voltaire, Napoleon, Gambetta, Hugo, and de Gaulle became major public events that helped to mould the national memory. Combining the insights of anthropologists and sociologists with a historical analysis, it argues that the dual character of the ceremony, a political festival and final rite of passage, turned the state funeral into a gripping event to which few French people could remain indifferent. The book focuses on the republican tradition of state funerals, which emerged in the French Revolution and has continued through the Fifth Republic. Whether in power or in opposition, the republicans used the funerals of their leaders and militants to educate the masses and mobilize public support. This book, the first comprehensive analysis of French state funerals, is also a major contribution to the study of republican culture.	
Funerals, Politics, and Memory in Modern France 1789-1996 Cambridge University Press This book, along with its companion volume, Democracy as the Political Empowerment of the Citizen, relates the democratic potential of the latest electronic technologies to the idea of direct-participatory democracy. Taking a critical look at the past and present theories of democracy, this volume clarifies the original meaning of the idea of democracy and explains the distortions it has suffered throughout its long history.	
<i>International Origins of Social and Political Theory</i> UPNE For the first time, the award-winning reportage of Mark Danner--one of America's most brilliant foreign correspondents--brought together at last in a single volume	
Authoritarianism and Polarization in American Politics Oxford Studies in Gender and I Can a church that is compromised through dependence on temporal, political power speak with a powerful prophetic voice in the world? As the body of Christ, the church has a prophetic role in the world. Prophets have always spoken clearly to people in power. They have been willing to challenge the decisions made by people who thought they were not accountable to anyone. Sometimes the prophets were respected, sometimes persecuted, but they were never ignored or regarded as irrelevant. So why is it that the church today cannot speak truth effectively to power? In <i>The Politics of Witness</i> , Dr. Allan R. Bevere asks these questions and proposes an answer. The church has come to depend too much on temporal power and has thus forgotten its divine authority. In finding this answer he goes back to the founding of the church and how it first became dependent on the state. He examines those who have followed, mostly building a political theory that takes the responsibility of ministry from the church and gives it to the state. You'll find some names in this that might surprise you. Any discussion of Christianity and the state will involve Emperor Constantine, but what about his modern lieutenants, such as Locke, Jefferson, Franklin, and others? While the theology applies to the church in any country, Dr. Bevere takes a particular look at the peculiarly American view that the United States of America is somehow God's chosen people, a nation of destiny in accomplishing the gospel mission. This book balances brevity with a broad intellectual and historical reach. You will be taken from the founding and foundation structure of Christian theology today to a proposal for how we, as the Church can reclaim our prophetic witness. In the current political atmosphere, every Christian needs to read this book.	
<i>American Political Rhetoric</i> Rutgers University Press Of all the Biblical heroes, the character of King David is perhaps the most paradoxical and also the most difficult to grasp. He is the Biblical Man for all seasons: a warrior, a lover, a poet, a killer and a restorer. This elaborate and fascinating archetypal hero influenced and inspired the representation of the Israeli soldier in Israeli media, art and cinema, from the establishment of the State of Israel until the present day. This book investigates whether Israeli art and film now place a focus on soldiers not as fighters, but as victims and the relationship between David as an adult and the State of Israel half a century after its establishment. As in gender studies, it is only in the last twenty years that research on masculinities has become a prominent part of film studies. Although studies of men and masculinity have gained momentum, little has been published that focuses on the media and their relationship to men as men. In carrying out a study on the representation of the Israeli Defense Force in Israeli cinema, the matter of gender becomes fundamental, especially in relation to the Motherland of Israel: Eretz Israel, which is feminine by definition. Israeli films are also deeply concerned with territory and territoriality. As such, the book also carries out an ethnography of Israeli cinema, with a focus on the significant relationship between 'gender and nation' and 'body and space'.	
Body and Nation Cambridge University Press <i>American Political Rhetoric</i> is the only reader for introductory classes in American politics, government, and political communication designed to	

explore fundamental political principles through classic examples of political rhetoric. Now in its seventh edition, its selections include the entire political spectrum and contributors range from our nation's founders to contemporary elected public officials, Supreme Court opinions, and representatives of historic movements for social change.

THE CHOSEN FEW BY REBAZAR TARZS University of Delaware Press

Understanding American Politics provides a unique introduction to the contemporary political landscape of the United States by using as its core organizing feature the idea of "American exceptionalism," a concept that is at least as old as Tocqueville's study of American democracy. The second edition of Understanding American Politics maintains the unique strengths of the first edition while offering improved coverage of political institutions. A single omnibus chapter on institutions has been reorganized and split into three separate chapters on Congress, the presidency, and the courts. A new chapter on public opinion has also been included, and the chapter on religion and politics has been completely rewritten with a deeper appreciation of religion's influential role. The book has been revised throughout, taking into account the dramatic changes that have emerged since the 2010 congressional elections and the 2012 presidential election. The text also pays close attention to what is seen as the irreversible decline in America's global influence. Visit www.utpamericanpolitics.com for additional resources.
