Of all the ships human beings have constructed to navigate the waters of the world — from a hollowed-out log sharpened at both ends to modern ocean liners weighing thousands of tons — those powered by the wind are among the most interesting and beautiful. In this classic review, noted maritime artist Gordon Grant has created 80 magnificent line illustrations of some of history's most important sailing ships, beginning with a graceful Egyptian galley (c. 1600 B.C.) and ending with a splendid five-masted clipper ship of 1921. Also depicted are a Roman trireme, a Viking longship, a sixteenth-century caravel, an East Indiaman of 1750, an early nineteenth-century brigantine, a New Bedford whaling bark, and dozens of lesser-known vessels, among them the galleass, carrack, buss, and flute. Henry B. Culver, well-known authority on naval history, has provided a detailed, meticulously researched text for each vessel, describing the materials and details of construction, how the ship's design matched its function, the period in which the vessel flourished, romance and lore surrounding the craft, and more. Naval historians and model shipbuilders will value this work as an excellent sourcebook and reference with much information on the evolution of sailing vessels, the origins of shipping, customs of the sea and other pertinent matters; sailing enthusiasts will find it a wonderful browsing book, offering an informative, handsomely illustrated look back at 3,000 years of sailing history.

The Magnificent Max Baer The Salariya Book Company New, superbly translated omnibus of five of Jules Verne's most renown stories. "One of the best storytellers who ever lived."-- Arthur C. Clarke In one dazzling decade, French novelist Jules Verne took readers places they'd never gone before. . .the age of dinosaurs. . .the undersea realm of Atlantis. . .the craters and crevices of the moon. . .and a whirlwind aerial tour of the planet earth! Though he penned his unforgettable yarns in French, Verne plunked big parts of them down in America. And he himself possessed an American sassiness, nerve, and sense of humor, so Americans have returned the compliment: we've released dozens of Hollywood films based on his astonishing tales, and we've created the U.S.S. Nautilus, the NASA space missions, and other technological triumphs that have turned Verne's visions into practical reality. Here are Jules Verne's best-loved novels in one convenient omnibus volume, but with a huge difference. This book features new, accurate, accessible, and unabridged translations of these five visionary classics, translations that are complete down to the smallest substantive detail, that showcase Verne's farseeing science with unprecedented clarity and accuracy, capture the wit, prankishness, and showbiz flamboyance of one of literature's leading humorists and satirists. This is a Verne almost completely unknown to Americans. . .yet a Verne who has an uncannily American mindset! So these heroes and happenings are part of our heritage: Phileas Fogg chugging

across the wild, wild west. . .the impossible underground journey of Professor Lidenbrock. . . the deep-sea exploits of secretive Captain Nemo. . .and a moon shot so realistic, it inspired U.S. astronaut Frank Borman a full century later. Jules Verne was a science buff with a showbiz background, and finally these classic stories have a translator with the same orientation: Frederick Paul Walter is one of America's foremost Verne scholars. . . But he's also a scriptwriter, broadcaster, and part-time fossil hunter! Enriched with dozens of classic illustrations, *The Amazing Journeys of Jules Verne* will be a family favorite in every home library. Jules Verne was born in 1828 into a French lawyering family in the Atlantic coastal city of Nantes. Though his father sent him off to a Paris law school, young Jules had been writing on the side since his early teens, and his pet topics were the theater, travel, and science. Predictably enough, his legal studies led nowhere, so Verne took a day job with a stock brokerage, in his off hours penning scripts for farces and musical comedies while also publishing short stories and novelettes of scientific exploration and adventure. His big breakthrough came when he combined his theatrical knack with his scientific bent and in 1863 published an African adventure yarn, *Five Weeks in a Balloon*. After that and till his death in 1905, Jules Verne was one of the planet's best-loved and best-selling novelists, publishing over sixty books. In addition to the five visionary classics in this volume, other imaginative favorites by him include *The Mysterious Island*, *Hector Servadac*, *the Begum's Millions*, *Master of the World*, and *The Meteor Hunt*. Verne ranks among the five most translated authors in history, along with Mark Twain and the Bible. Frederick Paul Walter is a scriptwriter, broadcaster, librarian, and amateur paleontologist. A Trustee of the North American Jules Verne Society, he served as its Vice President from 2000 to 20008. Walter has produced many media programs, articles, reviews, and papers on aspects of Jules Verne and has collaborated on translations and scholarly editions of three Verne novels: *The Meteor Hunt*, *The Mighty Orinoco*, and a special edition of *20,000 Leagues Under the Seas* for the U.S. Naval Institute in Annapolis. Known to friends as Rick Walter, he lives in Albuquerque, New Mexico.

The first capital ships were intended as flagships - conspicuous in their size, flying the banner of an admiral, and acting as a lead vessel to a fleet of smaller craft. But by the end of the 16th century, their value as fighting machines encouraged the maritime countries of Europe to build more big warships. What followed was three centuries of big-gun sailing warships, before steam power took over. The Golden Age of Sail selects the best of these vessels, from Henry Grace a Dieu, launched in 1514, through to the 19th century ironclad steam-and-sail ships, such as HMS Alexandra and Knig Wilhelm. The book devotes a spread to each featured vessel, with expert text putting each ship into its historical, military and naval context. Throughout specifications are provided for each ship, with feature boxes outlining development and annotations pointing out particular details. Unique graphics allow the reader to compare specific features. Featuring spectacular color profile artworks, The Golden Age of Sail is a superb celebration of 100 ships from 400 years of nautical history.

Everybody has a story, but nobody's story is quite like Wally and Zizza's. Told by their son now they have passed, Wally and Zizza's Amazing Journey is more than a family history, exploring the dramatic twentieth century through the lens of his parents. Through wars, emigration and exploration, the couple took on the world together, searching for new discoveries in both outer and inner landscapes. They lived on four continents, met with great teachers, dealt with wars and passed on lessons to their children. All of this astounding adventure is illustrated throughout by the extensive use of documents and photographs Louis shares, along with personal recollections and historical research. Told with humour and great affection, Wally and Zizza's Amazing Journey chronicles the laughs, the lows and every little and large moment that made up a spectacular life. Readers who enjoy road stories, as well as a detailed look at the events of the twentieth century, will delight in a story that examines history through an intrepid couple's eyes - and perhaps inspire a change in perspective for those open to it.

Sultan Suleyman the Magnificent (r.1520-1566) dominated the eastern Mediterranean and Ottoman worlds - and the imagination of his contemporaries - very much as his fellow sovereigns Charles V, Francis I and Henry VIII in the west. He greatly expanded the Ottoman empire, capturing Rhodes, Belgrade, Hungary, the Red Sea coast of Arabia, and even besieging Vienna. Patron and legislator as well as conqueror, he stamped his name on an age. These specially-commissioned essays by leading experts examine Suleyman's reign in its wider political and diplomatic context, both Ottoman and European. The contributors are: Peter Burke; Geza David; Suraiya Faroqhi; Peter Holt; Colin Imber; Salih Uzbaran; Metin Kunt; Christine Woodhead; and Ann Williams.

Few people would argue with the films selected for detailed notices and reviews in this book. Many of the movies are award-winners, and most chalked up impressive figures at the box-office. Who would dispute the inclusion of Citizen Kane or Rebecca or The Best Years of Our Lives? However, along with The Yearling and Reap the Wild Wind and Hello, Frisco, Hello, I've also included a few surprises. A magnificent publication. -- Rodney Bourke in International Movie Making (April 2006).

In the 16th century, Spain's control over its vast new World empire depended on the sailors and officers who manned the galleons and merchant vessels of its Atlantic fleets. Suleiman the Magnificent, most glorious of the Ottoman sultans, kept Europe atremble for nearly half a century. In a few years he led his army as far as the gates of Vienna, made himself master of the Mediterranean and established his court in Baghdad. Faced with this redoubtable champion, who regarded it as his duty to extend the boundaries of Islam farther and farther, the Christian world struggled to unite against him. 'The Shadow of God on Earth', but also an expert politician and all-powerful despot, Suleiman ruled the state firmly with the help of his viziers. He extended the borders of the empire beyond what any of the Ottoman sultans had achieved, yet it is primarily as a lawgiver that he is remembered in Turkish history. His empire held dominion over three continents populated by more than thirty million inhabitants, among whom nearly all of the races and religions of mankind were represented. Prospering under a well-directed, authoritarian economy, Suleiman's reign marked the apogee of Ottoman power. City and country alike experienced unprecedented economic and demographic growth. Istanbul was the largest city in the world, enjoying a remarkable renaissance of arts and letters; a mighty capital, it was the seat of the Seraglio and dark intrigue. 'Clot's informed and intelligent study is to be commended ... Brings back to life a man, an empire and an era.' -- Digest of Middle East Studies 'Excellent ... The best book from which to gain an introduction to Suleiman's era.' -- Middle East Journal

Boxing might not have survived the 1930s if not for Max Baer. A contender for every heavyweight championship 1932-1941, California's "Glamour Boy" brought back the "million-dollar gate" not seen since the 1920s. His radio voice sold millions of Gillette razor blades; his leading-man appeal made him a heartthrob in *The Prizefighter and the Lady* (1933). The film was banned in Nazi Germany--Baer had worn a Star of David on his trunks when he TKOed German former champ Max Schmeling. Baer defeated 275-pound Primo Carnera in 1934 for the championship, losing it to Jim Braddock the next year. Contrary to *Cinderella Man*, (2005), Baer--favored 10 to 1--was not a villain and the fight was more controversial than the film suggested. His battle with Joe Louis three months later drew the highest gate of the decade. This first comprehensive biography covers Baer's complete ring record, his early life, his career on radio, film, stage and television, and his World War II army service.

Amazing Arizona! Penguin

Arizona is unique among American states, not only in its geography and geology but also in the diversity of its climate, in its indigenous animal and plant life, and in the history of its first

inhabitants-communities of Indians whose ancestors arrived on the scene more than 20,000 years ago. Arizona is also the youngest of the contiguous mainland states of America...precisely because of these very same factors. Its climate, geography and Indian tribes were major barriers that prevented the territory from becoming widely populated by the Spanish, Mexicans and early European-Americans, and from being used as a cross-roads by American fur/pelt trappers, gold prospectors and settlers who began pushing west in the mid-1800s. Now, it is exactly these same factors that make Arizona a great place to live as well as a world-famous travel destination. The stories of how Arizona finally became what it is today are as amazing as the lay and the beauty of the land. Great background reading for residents and visitors alike, and an ideal gift.

World history conventionally ignores or underestimates the importance of Manila, the Manila galleons, and the Philippines as key stages in the development of trans-Pacific contact and of the world economy. Essays in this volume discuss Philippine-Asian exchanges prior to the entry of Europeans, and then look at European influences and the impact of Magellan's voyage, and the emergence of Manila as one of global trade's crucial linchpins during four centuries. Linkages between Latin America and China, and Spanish-Japanese competition for the Chinese marketplace are important topics. Tensions and cooperation among Chinese, Japanese, Iberians, Africans, Christians, Muslims and others on Philippine soil are also covered. This volume suggests the need for thorough re-evaluation of the Philippines' central role in terms of both Pacific history and global history as perhaps the single most important stage in the traffic that linked China and Latin America.

"This volume is the first anthology of poetic writings on slavery from America, Britain, and around the Atlantic during the Enlightenment - the crucial period that saw the height of the slave trade but also the origins of the anti-slavery movement. Bringing together more than four hundred poems and excerpts from longer works that were written by more than two hundred and fifty poets, both famous and unknown, the book charts the emergence of slavery as part of the collective consciousness of the English-speaking world. The book includes: poems by forty women, ranging from abolitionists Hannah More and Mary Robinson to Frances Seymour, the Countess of Herford; works by more than twenty African or African American poets, including familiar names (Phillis Wheatley), intriguing figures (Afro-Dutch Latin scholar Johannes Capitein), and newly rediscovered black poets (an anonymous veteran of the Revolutionary War); and poetry by such canonical writers as Dryden, Defoe, Pope, Johnson, Blake, Boswell, Burns, Wordsworth, and Coleridge." "The poems speak of the themes of slavery: capture, torture, endurance, rebellion, thwarted romances, and spiritual longing. They also raise intriguing questions about the contradictions between cultural attitudes and public policy of the time. Writers such as these, suggests editor James Basker, were not complicit in the imperial project or indifferent about slavery but actually laid the groundwork for the political changes that would follow."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. The story behind *The Magnificent Seven* could have been a movie in itself. It had everything—actors' strike, writers' strike, Mexican government interference and a row between the screenwriters that left one removing his name from the credits, all under the lingering gloom of post-McCarthy era Hollywood. A flop on release, it later became a box office hit. This book tells the behind-the-scenes story: how Yul Brynner became the biggest independent producer in Hollywood; why John Sturges was not the first choice after Brynner surrendered the director's chair; why Sturges quit; the truth about the Mirisch Company (producers); the details of the film's botched release and unlikely redemption; the creation of Elmer Bernstein's classic score; and how internecine fighting prevented the making of the television series in 1963. Myths about Steve McQueen, his feud with Brynner and the scene-stealing antics of the cast are debunked. A close examination of the various screenplay drafts and the writers' source material—Akira Kurosawa's *Seven Samurai*—shows who wrote what. Extensive analysis of Sturges' directorial work is provided.
