*The Long Road Home: An Account of the Author's Experiences as a Prisoner-of-war in the Hands of the Germans During the Second World War* World Bank Publications 'A superb book...genuinely innovative' Jack Spence OBE, King's College London Over the last half century, sub-Saharan Africa has not had one history, but many. Histories that have intertwined, converged and diverged. They have involved a continuing process of decolonization and state-building, conflict, economic problems but also progress and the perpetual

interplay of structure and agency. This new view of those histories looks in particular at the relationship between territorial, economic, political and societal structures and human agency in the complex and sometimes confusing development of an independent Africa. The story starts well before the granting of independence to Ghana in 1957, but the book also looks at Africa in the closing decades of the old millennium and opening ones of the new. This is a book, too, about the history of the peoples of Africa and their struggle for economic development against the global economic straitjacket into which they were strapped by colonial rule and decolonisation. The importance of imposed or inherited

structures, whether the global capitalist system, of which Africa is a subordinate part, or the artificial and often inappropriate state borders and political systems is discussed in the light of the exercise of agency by African peoples, political movements and leaders.

*Unbroken* Vintage

At the end of World War II, long before an Allied victory was assured and before the scope of the atrocities orchestrated by Hitler would come into focus or even assume the name of the Holocaust, Allied forces had begun to prepare for its aftermath. Taking cues from the end of the First World War, planners had begun the futile task of preparing themselves for a civilian health crisis that, due in large

part to advances in medical science, would never come. The problem that emerged was not widespread disease among Europe's population, as anticipated, but massive displacement among those who had been uprooted from home and country during the war. Displaced Persons, as the refugees would come to be known, were not comprised entirely of Jews. Millions of Latvians, Poles, Ukrainians, and Yugoslavs, in addition to several hundred thousand Germans, were situated in a limbo long overlooked by historians. While many were speedily repatriated, millions of refugees refused to return to countries that were forever changed by the war—a crisis that would take years to resolve and would become the defining legacy of World War II. Indeed many of the postwar questions that haunted the Allied planners still confront us today: How can humanitarian aid be made to work? What levels of immigration can our societies absorb? How can an occupying power restore prosperity to a defeated enemy? Including new documentation in the form of journals, oral histories, and essays by actual DPs unearthed during his research for this illuminating and radical

reassessment of history, Ben Shephard brings to light the extraordinary stories and myriad versions of the war experienced by the refugees and the new United Nations Relief and Rehabilitation Administration that would undertake the responsibility of binding the wounds of an entire continent. Groundbreaking and remarkably relevant to conflicts that continue to plague peacekeeping efforts, *The Long Road Home* tells the epic story of how millions redefined the notion of home amid painstaking recovery.

Japan will recover and its economic achievements will once again earn the world's admiration, with sustained annual growth of three percent, perhaps more, well within reach. This is the confident forecast that begins *Japanese Phoenix: The Long Road to Economic Revival* by the author of *Japan: The System That Soured*, which several years ago accurately predicted Japan's current travails at a time when others were prematurely pronouncing full recovery. Katz warns however that there is bad news to go with the good. So deep-seated are Japan's

dysfunctions that, even if it did everything right today, it would take at least five years for truly vibrant growth to take hold. But Japan will not do everything right. Opposition to reform is deep-seated and a myriad of vested interests and millions of jobs are at stake. Still he notes, there is little doubt that reform will succeed. *Japanese Phoenix* tells the story of the struggle between the forces of reform and the forces of resistance. It dissects Prime Minister Koizumi's role in the process, and explains why Japan is in so much trouble and what needs to be done. It explores the debates among economists and gives a careful progress report on all the moves made so far in the name of reform - from greater direct foreign investment, to the financial "Big Bang", to ending one-party rule by the Liberal Democratic Party. Katz concludes that this is just the second round of a 15-round fight. Japan is a great nation currently trapped in obsolete institutions. As it has before, Japan will find a way to surmount its problems and regain its forward progress.

The End was just the beginning of the struggle to survive....The turmoil that

Gordon and his family dealt with in the first 6 weeks will seem trivial, as they now are outside the gates of Rancho Valentino. The journey to Idaho will show them and their small group how far civilization has deteriorated in a very short time. The family's sanity will be bitterly tested, as challenges along the way will shake them to their core. Sebastian, now free has been deposited in a San Diego unrecognizable to him. The savagery of a people fighting for limited resources comes into stark relief as he navigates the deadly roads in search of his brother. Along the way he will discover that some still hold the torch of civility and hope for a better tomorrow. With the presumed death of President Connor, Vice President Cruz must lead the fledgling federal government out of the bunker of Cheyenne Mountain and towards a new purpose of revitalizing the United States, but this will come with great cost and difficulty as tough choices will have to be made. Col. Barone's grief at the loss of his son has changed him. No longer does he feel constrained by the "old" code of conduct he once pledged himself to. He now leads a powerful force of over 4,000 well-armed Marines to settle not just a

new country but also a score against those he thinks have wronged him. One thing that is certain: "The Long Road" will take its toll on all of them.

### **Tracks to Infinity, The Long Road to Justice** W. W. Norton & Company

A man fights to protect his family in this postapocalyptic survival novel—the first in the New World series. Young Gordon Van Zandt valued duty and loyalty to country above all, so after 9/11, he dropped out of college and joined the Marine Corps. This idealism vanished one fateful day in a war-torn city in Iraq. Ten years later, he is still struggling with the ghosts of his past when a new reality is thrust upon him and his family: North America, Europe and the Far East have all suffered a devastating Super-EMP attack, which causes catastrophic damage to the nation's power grid and essential infrastructures. Everything from cell phones to cars to computers cease to function, putting society at a standstill. With civilization in chaos, Gordon must fight for the limited and fast dwindling resources. He knows survival requires action and cooperation with his neighbors, but as the days wear on, so does all sense of civility within his community—and so he

must make some of the most difficult decisions of his life in order to ensure his family's safety.

The ratification of the Good Friday Agreement in 1998 was the culmination of a lengthy and contentious peace process that involved the efforts of a committed team of political actors. In 2001, Marianne Elliott brought together a collection of essays by many of these pivotal figures in *The Long Road to Peace in Northern Ireland*, an invaluable resource for students, scholars, and politicians. Now Elliott, one of the most prominent chroniclers of Irish history, presents a fully updated edition with new essays commissioned to explore the events of the past five years. A period that saw successes such as the decommissioning of the Provisional IRA but also a rise in drug trafficking and organized crime, as a generation of men who have done nothing other than serve as paramilitaries are now finding their skills most valued as criminals. With contributions from U.S. Senator George J. Mitchell, Sir David Goodall, Jan Egeland, Lord Owen, and Peter Mandelsohn, the second edition of

The Long Road to Peace in Northern Ireland is an illuminating record of the ongoing peace process—and its consequences—told by the people directly involved in its evolution.

*The Long Road Home* Liverpool University Press

This anthology explores disability in fictional tales told from the viewpoint of disabled characters, written by disabled creators. With stories in various genres about first loves, friendship, war, travel, and more, *Unbroken* will offer today's teen readers a glimpse into the lives of disabled people in the past, present, and future. The contributing authors are awardwinners, bestsellers, and newcomers including Kody Keplinger, Kristine Wyllys, Francisco X. Stork, William Alexander, Corinne Duyvis, Marieke Nijkamp, Dhonielle Clayton, Heidi Heilig, Katherine Locke, Karuna Riazi, Kayla Whaley, Keah Brown, and Fox Benwell. Each author identifies as disabled along a physical, mental, or neurodiverse axis—and their characters reflect this diversity.

*The Long Road* Penguin

About the Book Many of us take this journey in life daily, and sometimes we are

not sure where we are going or where we will end up. *The Long Road Home* captures Theron H Cyrus's journey throughout his life. It captures his pain, tears, achievements, triumphs, and failures. It tells of his spirituality and driving force within to succeed. When Cyrus fell, he got up. When he abandoned God, He did not give up on Cyrus, and restored him to his place in His Kingdom. This book is a must read, especially for those who may have fallen and are wondering how to get back up! About the Author The fourth of his parents' five children, Theron H Cyrus was born into a poor family with an uncompromising Christian faith, and a strong belief in service to God and their fellowmen. His mother was saved before he was born. Though they were poor, Theron grew up in a home filled with laughter and love. Taught to pray and love God, he gave his life to Christ at the age of 14 and began to exercise his Christian faith and beliefs. This has continually been a driving force in his life and what has made him the man he is today. Theron enjoys reading and studying the Bible. It gave him the foundation in his military service, his daily life, and in the love for

his family.

*The Long Haul: A Trucker's Tales of Life on the Road* Anchor

*The Long Road Home* is a companion work to the recently published book on the prisoner of war experience in Southeast Asia-Honor Bound by Stuart I. Rochester and Frederick Kiley. The two books were prepared at the request of former Deputy Secretary of Defense William P. Clements, Jr. Some of the early research and drafts of a few chapters are the contribution of Wilber W Hoare, Jr., and Ernest H. Giusti, former JCS historians who helped initiate the project. Davis carried forward the research and writing to completion over a period of many years and is entitled to the fullest credit for production of the final text and documentation. This history of Washington's role in shaping prisoner of war policy during the Vietnam War reveals the difficult, often emotional, and vexing nature of a problem that engaged the attention of the highest officials of the U.S. government, including the president. It examines frictions and disagreements between the State and Defense Departments and within Defense itself as a sometimes conflicted organization

struggled to cope with an imposing array of policy issues: efforts to ameliorate the brutal conditions to which the American captives were subjected; relations with families of prisoners in captivity; the proper mix of quiet diplomacy and aggressive publicity; and planning for the prisoners' return. At a pivotal juncture the Department of Defense exerted a major influence on overall policy through its insistence in 1969 that the government "Go Public" with information about the plight of prisoners held by the North Vietnamese and the Viet Cong. There is evidence that this powerful campaign contributed to the gradual improvement in the treatment of the prisoners and to their safe return in 1973. The detailed account of negotiations with the North Vietnamese for the withdrawal of American forces from South Vietnam makes clear how important in all U.S. calculations was securing the release of the prisoners.

*The End* Penguin

WINNER OF THE PULITZER PRIZE • NATIONAL BESTSELLER • A searing, post-apocalyptic novel about a father and son's fight to survive, this "tale of survival and the miracle of goodness only adds to

McCarthy's stature as a living master. It's gripping, frightening and, ultimately, beautiful" (San Francisco Chronicle). • From the bestselling author of *The Passenger* A father and his son walk alone through burned America. Nothing moves in the ravaged landscape save the ash on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark. Their destination is the coast, although they don't know what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the road, the clothes they are wearing, a cart of scavenged food—and each other. *The Road* is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, "each the other's world entire," are sustained by love. Awesome in the totality of its vision, it is an unflinching meditation on the worst and the best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation. Look for Cormac McCarthy's latest bestselling novels, *The Passenger* and *Stella Maris*.

*The Long Road Home* Oxford University Press

The End was just the beginning of the new world... Only six weeks have passed since a super-EMP attack devastated the United States, but already, life has changed dramatically. Most of America has become a wasteland filled with starving bands of people, mobs and gangs. Millions are dead and millions more are suffering, with no end in sight. For Gordon, Samantha, Sebastian, Cruz and Barone, the turmoil and chaos they dealt with in the early weeks after the attack will seem trivial in comparison to the collapse of society that plays out before their eyes. Uncertainty abounds as they all travel different paths in search of a safe place to call home. The only thing that is definite is that *The Long Road* will take its toll on all of them. For readers of *Going Home* by A. American, *Lights Out* by David Crawford, *Lucifer's Hammer* by Jerry Pournelle and *One Second After* by William Forstchen **The Road** W. W. Norton & Company This novel tells the story of Aiden Chapman, a young man who returns from Vietnam, having survived a tragic ambush that resulted in the loss of many close

friends. After recovering from his wounds, he decides to leave the Marine Corps and return home, hoping to escape the images that continuously haunt him. Shortly after the homecoming, he meets a young woman who is ironically connected to the ambush that nearly took his life. Thus begins their story, a story of heartache, hope, and healing. This novel is set in 1967, South Carolina. Like many Southern novels, *The Long Road Home* embraces what is wonderful about the region; faith, family, loyalty, and tradition. This novel is different from most commercial mainstream stories in several ways. First, is the ironic tragedy that unites the characters. Second, is the stylistic blend of humor, romance, and suspense. Most important, is the fatal climax that puts love and friendship to the ultimate test. *The Long Road to Gold* OUP Oxford

Introducing a remarkable new character from #1 New York Times bestselling writer David Baldacci: Atlee Pine, an FBI agent with special skills assigned to the remote wilds of the southwestern United States who must confront a new threat . . . and an old nightmare. Eeny, meeny, miny, moe. Catch a tiger by its toe. It's seared

into Atlee Pine's memory: the kidnapper's chilling rhyme as he chose between six-year-old Atlee and her twin sister, Mercy. Mercy was taken. Atlee was spared. She never saw Mercy again. Three decades after that terrifying night, Atlee Pine works for the FBI. She's the lone agent assigned to the Shattered Rock, Arizona resident agency, which is responsible for protecting the Grand Canyon. So when one of the Grand Canyon's mules is found stabbed to death at the bottom of the canyon and its rider missing-Pine is called in to investigate. It soon seems clear the lost tourist had something more clandestine than sightseeing in mind. But just as Pine begins to put together clues pointing to a terrifying plot, she's abruptly called off the case. If she disobeys direct orders by continuing to search for the missing man, it will mean the end of her career. But unless Pine keeps working the case and discovers the truth, it could spell the very end of democracy in America as we know it... "Love it!" --Lisa Gardner "Atlee Pine is unforgettable." --James Patterson "David Baldacci's best yet." --Lisa Scottoline "Heart-poundingly suspenseful." --Scott Turow "A stunning debut." --Douglas

Preston "A perfect blend of action, secrets, and conspiracies." --Steve Berry "Baldacci is at the top of his game." --Kathy Reichs  
**The Long Road Ahead** Arcadia Publishing

"There's nothing semi about Finn Murphy's trucking tales of *The Long Haul*."—Sloane Crosley, *Vanity Fair* More than thirty years ago, Finn Murphy dropped out of college to become a long-haul trucker. Since then he's covered more than a million miles as a mover, packing, loading, hauling people's belongings all over America. In *The Long Haul*, Murphy recounts with wit, candor, and charm the America he has seen change over the decades and the poignant, funny, and often haunting stories of the people he encounters on the job.

*The Long Road* Penguin

The diplomatic historian examines the ideas, policies and actions that led from Vietnam to the Iraq War and America's disastrous role in the Middle East. "What will stand out one day is not George W. Bush's uniqueness but the continuum from the Carter doctrine to 'shock and awe' in 2003." —from *The Long Road to Baghdad* In this revealing narrative of America's

path to its “new longest war,” one of the nation’s premier diplomatic historians excavates the deep historical roots of the US misadventure in Iraq. Lloyd Gardner’s sweeping and authoritative narrative places the Iraq War in the context of US foreign policy since Vietnam, casting the conflict as a chapter in a much broader story—in sharp contrast to the dominant narrative, which focus almost exclusively on the actions of the Bush Administration in the months leading up to the invasion. Gardner illuminates a vital historical thread connecting Walt Whitman Rostow’s defense of US intervention in Southeast Asia, Zbigniew Brzezinski’s attempts to project American power into the “arc of crisis” (with Iran at its center), and the efforts of two Bush administrations, in separate Iraq wars, to establish a “landing zone” in that critically important region. Far more disturbing than a simple conspiracy to secure oil, Gardner’s account explains the Iraq War as the necessary outcome of a half-century of doomed US policies. “A vital primer to the slow-motion conflagration of American foreign policy.” —Kirkus Reviews  
*Stephen King's The Dark Tower:*

*Beginnings* HarperCollins UK

The war might be over, but trying to get life back on track is anything but easy for Alice Watts.

**Names, Games, and the Long Road Trip** Lulu.com

All of God's Creatures Are Talking in Bubbles! See the creation of the earth and the parting of the sea like you've never seen them before. With cool artwork and loads of humor, Names, Games, and the Long Road Trip gives the first two books of the Bible a totally different look. It's manga style, where pictures tell the story--and the action moves fast. Everyone--including Adam, Eve, Noah, and Moses--talks and thinks in word bubbles. Who knew discovering the important truths in Genesis and Exodus could be so exciting and fun?

*The Long Road Home* Farrar, Straus and Giroux (BYR)

Ranger, the time-traveling golden retriever, is back for the third book in Kate Messner's new chapter book series. This time, he helps two kids navigate the Underground Railroad! Ranger is a time-traveling golden retriever with search-and-rescue training. In this adventure, he goes

to a Maryland plantation during the days of American slavery, where he meets a young girl named Sarah. When she learns that the owner has plans to sell her little brother, Jesse, to a plantation in the Deep South, it means they could be separated forever. Sarah takes their future into her own hands and decides there's only one way to run -- north.

**Africa's Long Road Since Independence** Penguin

From the former secretary of state and bestselling author -- a sweeping look at the global struggle for democracy and why America must continue to support the cause of human freedom. "This heartfelt and at times very moving book shows why democracy proponents are so committed to their work...Both supporters and skeptics of democracy promotion will come away from this book wiser and better informed." -- The New York Times  
From the end of the Cold War and the collapse of the Soviet Union to the ongoing struggle for human rights in the Middle East, Condoleezza Rice has served on the front lines of history. As a child, she was an eyewitness to a third awakening of freedom, when her hometown of

Birmingham, Alabama, became the epicenter of the civil rights movement for black Americans. In this book, Rice explains what these epochal events teach us about democracy. At a time when people around the world are wondering whether democracy is in decline, Rice shares insights from her experiences as a policymaker, scholar, and citizen, in order to put democracy's challenges into perspective. When the United States was founded, it was the only attempt at self-government in the world. Today more than half of all countries qualify as democracies, and in the long run that number will continue to grow. Yet nothing worthwhile ever comes easily. Using America's long struggle as a template, Rice draws lessons for democracy around the world -- from Russia, Poland, and Ukraine, to Kenya, Colombia, and the Middle East. She finds that no transitions to democracy are the same because every country starts in a different place. Pathways diverge and sometimes circle backward. Time frames for success vary

dramatically, and countries often suffer false starts before getting it right. But, Rice argues, that does not mean they should not try. While the ideal conditions for democracy are well known in academia, they never exist in the real world. The question is not how to create perfect circumstances but how to move forward under difficult ones. These same insights apply in overcoming the challenges faced by governments today. The pursuit of democracy is a continuing struggle shared by people around the world, whether they are opposing authoritarian regimes, establishing new democratic institutions, or reforming mature democracies to better live up to their ideals. The work of securing it is never finished. **NEW YORK TIMES BESTSELLER**  
Long Road Home University of Toronto Press  
 A masterful account of the Civil War's turning point in the tradition of James McPherson's *Crossroads of Freedom*. In the summer of 1862, after a year of protracted

fighting, Abraham Lincoln decided on a radical change of strategy—one that abandoned hope for a compromise peace and committed the nation to all-out war. The centerpiece of that new strategy was the Emancipation Proclamation: an unprecedented use of federal power that would revolutionize Southern society. In *The Long Road to Antietam*, Richard Slotkin, a renowned cultural historian, reexamines the challenges that Lincoln encountered during that anguished summer 150 years ago. In an original and incisive study of character, Slotkin re-creates the showdown between Lincoln and General George McClellan, the “Young Napoleon” whose opposition to Lincoln included obsessive fantasies of dictatorship and a military coup. He brings to three-dimensional life their ruinous conflict, demonstrating how their political struggle provided Confederate General Robert E. Lee with his best opportunity to win the war, in the grand offensive that ended in September of 1862 at the bloody Battle of Antietam.
