Student attrition has been a perennial theme in South African higher education throughout the decade. In its National Plan for Higher Education (2001), the Department of Education attributed high dropout rates primarily to financial and/or academic exclusions. Four years later, it reported that 30% of students dropped out in their first year of study and a further 20% during their second and third years. Against this backdrop, the erstwhile research programme on Human Resources

Development initiated a research project to investigate more thoroughly why students dropped out, what led them to persist in higher education to graduation, and what made for a successful transition to the labour market. The chapters in this volume address these issues in relation to one or more of seven institutional case studies conducted in 2005.

senior management education. There are clearly a large number of US directories to North American MBA courses, and other countries produce similar publications. However, information on shorter courses as covered by this Guide are rare. Now in its seventh edition, this directory to worldwide courses for middle and senior management has been extensively revised, and is linked to a dedicated website. The directory is backed up by a series of articles from leading business schools, management academics, and executives from leading companies. These articles focus on different aspects and approaches to executive education, pr [Courage to Lead](#) HSRC Publishers

A fresh and innovative route to business and personal success - Polar Bear Pirates contains a whole new universe of characters and terminology that everyone will instantly recognize and relate to. Polar Bear Pirates, highly focused, successful, fun-loving people who truly believe in life before death, are on a quest to reach Fat City. But as we follow the fortunes of

these highly motivated bears, we see how they must fight off some pretty ruthless and often highly elusive enemies - enemies who are determined to block their paths and shatter their dreams... Here's a brief sketch of just some of these treacherous characters... Sinkers...the bitter losers who, as disciples of the pear shape, despise anyone else's success and derive immense pleasure from torpedoing it... Head treads...those who block anyone coming up the success ladder; they are devoid of talent, having only got where they are through brown nosing, knife throwing and luck! Neg ferrets...the pessimistic warriors of doom with insatiable appetites for other people's problems... Molasses Man.. the sweet but slow, well-meaning people who are burdened by the beliefs of others... Bloaters...boasting, lazy, obnoxious and tediously egotistical reptilian saddos who are absolutely full of it! Written in the tradition of the bestselling, *Who Moved My Cheese*, Polar Bear Pirates is a uniquely entertaining and often hilarious look at business and personal development. A 'game

book' of questions, answers, traps and signposts, this book delivers powerful, inspirational messages as it helps you to unravel a series of complex motivational issues on your journey to personal and professional success. *Managing Training and Development* International Monetary Fund

Black professionals in business have become an important grouping in South African society. But this is a relatively recent development. *Defining Moments* presents the stories of three decades of black executives, drawing on significant aspects of management theory and practice in the context of the changing socio-economic conditions that prevailed in each decade. The first generation of black professionals who braved the corporate world in the 1970s was handicapped by Bantu Education and apartheid legislation, but they were imbued with a vigorous culture of debate born of the struggle. During the 1980s they increased in numbers and included black females with qualifications in commerce and finance. The 1990's generation was supported by

changes in the political landscape in South Africa which gave birth to the country's new democracy and universally admired Constitution. This book offers the experiences and attitudes of black executives of the past three decades to future generations and invites professionals to use this book as a tool to create a better understanding and bridge the gap between cultures.

World Economic Outlook, October 2009
Capstone

This book inquires into the global wave of student mobilizations that have arisen in the aftermath of the economic crisis of 2008, accounting for their historical and sociological significance. More specifically, its eleven chapters explore the role of students as political actors: their ability to build effective organizations, to make political alliances with other actors, and to win public consensus, as well as their impact on cultural, political, and policy outcomes. To do so, the volume examines case studies in England, Chile, South Africa, Quebec, and Hong Kong, covering Europe, Africa, Asia, and North and Latin America. Grouped into

two major sections, the collection covers the organizational structures of student movements and their alliances and outcomes. Ultimately, this volume examines the understudied political aspects of student unrest, exploring how student mobilizations—driven by indebtedness, precariousness, the corporatization of the university, and other issues—correspond to larger processes of change with wider implications in society.

This edition of the World Economic Outlook explores the prospects for growth in the aftermath of the financial crisis. The fragile nature of the recovery will present many challenges. These include the need for continued strong monetary, fiscal, and financial policies, ongoing efforts to restore the financial sector to health, improvements in private demand, and preparation of exit strategies on the fiscal, monetary, and financial fronts. The first of two analytical chapters included in this edition, "Monetary Policy and Asset Prices: What Do We

Learn from Booms and Busts?" explores whether there is a role for monetary policy in preventing asset price busts. The second, "Medium-Run Output Evolutions after Crises: A Historical Perspective," explores the effect of large economic shocks on output and its composition, including variations related to initial conditions, the type of shock, and economic policies.

The story of climbing a mountain has much to do with every leader's story of leadership. This book shows you the way. Courage to Lead is based

on Daphna Horowitz's life-transforming journey up Africa's tallest mountain. It was a journey that posed challenges for this executive life coach. Used to a yuppie life in the corporate capital, Daphna had to adapt to the back-to-basics approach to life. Jimmy Choos and designer suits were swapped for sensible climbing boots and thermal clothing. Courage to Lead is a practical guide to leadership. This is a 'how to' of leadership development, so that you can walk away with useful tips to develop and enhance your leadership. Don't expect abstract leadership concepts, theories and frameworks. This book extends beyond the boardroom and is a relevant read for anyone who needs to take charge of their leadership and life. Like the mountain that loomed constantly ahead of Daphna Horowitz, leadership is not the domain of a select few, but for anyone who wants to rise to the challenge. - If you're a leader, an aspiring leader or if you work with leaders to enhance their leadership effectiveness, this book, with its lessons and challenges, can serve as your coach and guide. - If you're an ordinary

person thinking of taking on an extraordinary challenge, like climbing Kilimanjaro, this book contains tips and tools to transform any challenge into a purposeful adventure. Courage to Lead is a book that inspires, challenges and transforms.

Skills shortages in South Africa are widely seen as a major obstacle to the achievement of targeted economic growth rates. Yet there is some dispute as to the nature and extent of these shortages, given the large number of unemployed graduates. The case studies presented here explore the question of shortage in nine key professions and artisanal trades, and find evidence of skills scarcity in most fields. The case studies provide insight into the reasons for shortages and surpluses in relation to South Africa's own context and history. They also consider the international market for knowledge and skills, in which South African qualifications are highly prized. The monograph emanates from a study on sector specific research

and related skills requirements commissioned by the South African Department of Labour in 2006. It formed part of a wider research project on scarce and critical skills related to the National Skills Development Strategy and the National Industrial Policy Framework of 2007, for which the Human Sciences Research Council led a research consortium comprising the Development Policy Research Unit at the University of Cape Town and the Sociology of Work Unit at the University of the Witwatersrand.

Study and Master Life Sciences Grade 11 CAPS Study Guide United Nations Environment Programme Education, Economy & Society is a compelling and comprehensive antidote to the misconstrued nature of the relationship between education and society in South Africa. It provides a constructive critique of conventional discourses, but also alternative approaches to understanding the connections between education and the triple scourge of unemployment, inequality, and poverty. The book's contributors

passionately argue that South African education finds its value and purpose in a focus on social justice, transformation, and democratic citizenship. The joy of education is to capture human imaginations and unleash their creativity towards a more humane and compassionate society. This rich resource explores the possibilities for a new pedagogy in post-school education and training through empirical research on skills, technology, and issues of employment on the shop floor; a critical analysis of the youth wage subsidy; and workers' education. The book will appeal to a wide audience including students and academics in the fields of industrial sociology, economics, adult education, further education and training, and those in youth development.

What the Moon Saw

Springer Nature

An intimate, award winning story of immigrants and their families, the borders they cross, and the ties that bind us all together. Fourteen-year-old Clara Luna's name means "clear moon" in Spanish. But lately, her life has felt anything but clear. A letter has arrived from her grandparents in Mexico inviting her to stay with them for the summer. But Clara has never met her father's parents. All she knows is that he snuck over the border from Mexico as a teenager. When she arrives, she's stunned by how different her grandparents' life is from her own in the United States. They live in simple shacks in the mountains of southern Mexico, where most people speak not only Spanish, but an indigenous language, Mixteco. Their village of Yucuyoo holds other surprises, too—like the

spirit waterfall, which is heard but never seen. And Pedro, a young goatherder who wants to help Clara find the waterfall. But as Clara discovers more about where she comes from, what will it mean for who she is now? What The Moon Saw is an enchanting story of family, home, and discovering your true self in the most unexpected place. "Filled with evocative language that is rich in imagery and nuance and speaks to the connections that bind us all. . . . a thrilling adventure . . ."—Kirkus Reviews, Starred "Readers . . . will find themselves swept up in this powerful, magical story, and they'll feel, along with Clara, 'the spiderweb's threads, connecting me to people miles and years away'."—Booklist, Starred *Student Retention & Graduate Destination* African Books Collective Public Audit (Wales) Act 2004, written by HM Government describes about an Act to confer further functions on the Auditor General for Wales; to make provision about the audit of accounts of public bodies in Wales and related matters. *Public Audit (Wales) Act*

2004 Yearling Polar Bear Pirates and Their Quest to Reach Fat City is a unique experience. It has the appealing appearance and feel of a child's book but contained within it, is a whole new universe of characters and terminology that anyone striving for success in whatever they do will instantly recognise and be able to relate to. Adrian Webster brings to life a group of audacious characters called Polar Bear Pirates who do battle with obstacles of the likes of Sinkers, Neg Ferrets and BLOATERS along the road to success. And just what is at the end of the road? Well it's Fat City. It's where the winners want to be. You'll immediately relate to the animated characters, viruses and terminology throughout the book, whether categorising yourself or your colleagues and friends. (We all have dealt with NegFerrets and BLOATERS ... we just didn't know what they were called before). But it's more than just a laugh and light read. Although highly engaging and entertaining, Adrian Webster also gives you the tools and tips to become the success you want to be. Polar Bear

Pirates and Their Quest to Reach Fat City is a completely unique, easy, quick and fun book to read. It unravels complex motivational issues, delivers powerful, serious messages and provides inspirational career and business advice in a refreshingly new, simple and engaging way.

Shafts and Tunnels

This book explores a noteworthy variety among economically advanced countries in the competences fostered by

higher education, and the emphasis placed either on laying a broad basis of knowledge or direct preparation for professional tasks. In some countries, universities are closely involved in ensuring a rapid transition from student to employee; in others, students typically face a long period after graduation for the search of a suitable career.

Since the 1960s, the Italian altarpiece has attracted unprecedented

scholarly attention, bringing artistic, liturgical, social and technical considerations to bear on the subject. The eight contributors to this book provide an impressive synopsis of the different approaches developed in order to enlarge and deepen our knowledge of paintings in terms of their historical functions. Patronage, morphology, religious meaning, pictorial composition, reception, and original setting are all discussed. In several cases, new light is shed on paintings that

until a few years ago were dealt with only as elements within a history of style. In nearly all the contributions there is an overwhelming concern with reconstruction, and much new material is presented concerning the historical significance of a specific category of painting. This volume is the result of an international symposium held in June 1988 at the Harvard University for Italian Renaissance Studies at Villa I Tatti in Florence.
