William King (1650–1729) was perhaps the dominant Irish intellect of the period from 1688 until his death in 1729. An Anglican (Church of Ireland) by conversion, King was a strident critic of John Toland and the clerical superior of Jonathan Swift.

When his mother died, eight-year-old David Butler's life changed forever. Expectations for his future disappeared along with his mother's warm presence, but the days ahead still held promise. David set his own bar high, and this at risk child never let go of the idea that he would become something greater. Laughed at by his family when he announced his plan to go to college, David received little support for his dreams. But he never stopped asking himself whether he could really have that life, whether it was possible to transcend his current circumstances and reach higher. Do our limits stop us from

achieving or just provide opportunities to push past them? Young David used his natural optimism to keep working, and he made it to college. Today he holds a bachelor's degree and an MBA, and he has found a fulfilling career. One important lesson was that he was never really alone; the teachers and mentors who helped him along the way were a constant source of inspiration. This profound story shows how personal strength can overcome adversity. And it shows how the challenges we face in life can be our greatest teachers in the end.

INTERNATIONAL BESTSELLER "A remarkable book. Weigel's biography is likely to remain the standard one-volume reference on John Paul II for many years to come." — Pittsburg Post-Gazette
 ?"Fascinating. . . sheds light on the history of the twentieth century for everyone."
 —New York Times Book Review The definitive biography of Pope John Paul II

that explores how influential he was on the world stage and in some of the most historic events of the twentieth century that can still be felt today *Witness to Hope* is the authoritative biography of one of the singular figures—some might argue the singular figure—of our time. With unprecedented cooperation from John Paul II and the people who knew and worked with him throughout his life, George Weigel offers a groundbreaking portrait of the Pope as a man, a thinker, and a leader whose religious convictions defined a new approach to world politics—and changed the course of history. As even his critics concede, John Paul II occupied a unique place on the world stage and put down intellectual markers that no one could ignore or avoid as humanity entered a new millennium fraught with possibility and danger. The Pope was a man of prodigious energy who played a crucial, yet insufficiently explored, role in some of the most momentous events of our time, including the collapse of European communism, the quest for peace in the Middle East, and the democratic transformation of Latin America. With an updated preface, this edition of *Witness to*

Hope explains how this “man from a far country” did all of that, and much more—and what both his accomplishments and the unfinished business of his pontificate mean for the future of the Church and the world. *Congressional Record* Rowman & Littlefield Publishers

Verbal Judo Harvard University Press The untold story of the root cause of America’s education crisis--and the seemingly endless cycle of multigenerational poverty. It was only after years within the education reform movement that Natalie Wexler stumbled across a hidden explanation for our country’s frustrating lack of progress when it comes to providing every child with a quality education. The problem wasn’t one of the usual scapegoats: lazy teachers, shoddy facilities, lack of accountability. It was something no one was talking about: the elementary school curriculum’s intense focus on decontextualized reading comprehension “skills” at the expense of actual knowledge. In the tradition of Dale Russakoff’s *The Prize* and Dana Goldstein’s *The Teacher Wars*, Wexler brings together history, research, and compelling characters to pull back the curtain on this fundamental flaw in our education system--one that fellow reformers, journalists, and

policymakers have long overlooked, and of which the general public, including many parents, remains unaware. But *The Knowledge Gap* isn't just a story of what schools have gotten so wrong--it also follows innovative educators who are in the process of shedding their deeply ingrained habits, and describes the rewards that have come along: students who are not only excited to learn but are also acquiring the knowledge and vocabulary that will enable them to succeed. If we truly want to fix our education system and unlock the potential of our neediest children, we have no choice but to pay attention.

Waiting for God A&C Black

By 1979, we knew all that we know now about the science of climate change - what was happening, why it was happening, and how to stop it. Over the next ten years, we had the very real opportunity to stop it. Obviously, we

failed. Nathaniel Rich's groundbreaking account of that failure - and how tantalizingly close we came to signing binding treaties that would have saved us all before the fossil fuels industry and politicians committed to anti-scientific denialism - is already a journalistic blockbuster, a full issue of the New York Times Magazine that has earned favorable comparisons to Rachel Carson's Silent Spring and John Hersey's Hiroshima. Rich has become an instant, in-demand expert and speaker. A major movie deal is already in place. It is the story, perhaps, that can shift the conversation. In the book *Losing Earth*, Rich is able to provide more of the context for what did - and didn't - happen in the 1980s and, more important, is able to carry the story fully into the present day and wrestle with what those past failures mean for us in 2019. It is not just an agonizing revelation of historical missed opportunities, but a clear-eyed and eloquent assessment of how we got to now, and what we can and must do before it's truly too late.

Human rights offer a vision of international

justice that today's idealistic millions hold dear. Yet the very concept on which the movement is based became familiar only a few decades ago when it profoundly reshaped our hopes for an improved humanity. In this pioneering book, Samuel Moyn elevates that extraordinary transformation to center stage and asks what it reveals about the ideal's troubled present and uncertain future.

The Narcotics Anonymous Step Working Guides Ballantine Books

'You cannot get far in these essays without sensing yourself in the presence of a writer of immense intellectual power and fierce independence of mind.' - Janet Soskice, from the Introduction to the Routledge Classics edition Simone Weil (1909-1943) is one of the most brilliant and unorthodox religious and philosophical thinkers of the twentieth century. She was also a political activist who worked in the Renault car factory in France in the 1930s and fought briefly as an anarchist in the Spanish Civil War. Hailed by Albert Camus as 'the only great spirit of our times,' her work spans an astonishing variety of subjects, from ancient Greek philosophy and Christianity to oppression, political

freedom and French national identity. *Waiting for God* is one of her most remarkable books, full of piercing spiritual and moral insight. The first part comprises letters she wrote in 1942 to Jean-Marie Perrin, a Dominican priest, and demonstrate the intense inner conflict Weil experienced as she wrestled with the demands of Christian belief and commitment. She then explores the 'just balance' of the world, arguing that we should regard God as providing two forms of guidance: our ability as human beings to think for ourselves; and our need for both physical and emotional 'matter.' She also argues for the concept of a 'sacred longing'; that humanity's search for beauty, both in the world and within each other, is driven by our underlying desire for a tangible god. Eloquent and inspiring, *Waiting for God* asks profound questions about the nature of faith, doubt and morality that continue to resonate today. This Routledge Classics edition includes a new Introduction by Janet Soskice and retains the Foreword to the 1979 edition by Malcolm Muggeridge.

A Political Biography of William King
Routledge

Volumes III and IV of this edition bring together all the extant letters of Henry Wadsworth Longfellow for the period 1844-1865, most of which have never before been published. These letters carry Longfellow through the remarkable period when he was gaining renown both at home and abroad as the poet laureate of America. His influence swelled with the publication of such works as *Evangeline*, *The Song of Hiawatha*, *The Courtship of Miles Standish*, and Part One of *Tales of a Wayside Inn*. During these twenty-two years his correspondence proliferated, reaching at least 4000 letters, of which 1500 are known to have survived and are reproduced in these two volumes. The letters offer further insight not only into the poet's personal life but into his time as well. They document the manifold burdens placed on a popular man of letters, from responding to pleas for advice from unpublished poets to dealing with critical attacks on his own poetry to warding off the importunities of scores of admirers. The letters further reveal a political interest not hitherto suspected in Longfellow. His exchanges with Senator Charles Sumner shed light on the political

dramas of the day, including presidential elections, the Mexican War, the slavery controversy, the founding of the Republican party, and the Civil War. From a social viewpoint, the letters provide an absorbing account of the settled and elegant life of a member of the Boston-Cambridge upper class, into which Longfellow had moved with his marriage to Frances Appleton. They also reveal him as a warm-hearted family man, devoted to his wife and children and solicitous for the welfare of an unhappy brother, a widowed sister, and two wayward nephews. The letters of Volume III span the publication of five volumes of verse, three anthologies, and a novel. They document the numerous private events that vied with literary production for Longfellow's attention, such as the birth of his six children and the complicated summer migrations to Nahant or Newport. They also follow Longfellow through his resignation from the liaryard professorship in 1854, which was prompted by a desire to devote himself more fully to writing. Andrew Hilen, who is author of Longfellow and Scandinavia and Professor of English at the University of Washington, has included numerous

contemporary photographs to illustrate the letters. His scrupulous annotations supply relevant identifications of individuals, explain allusions, and provide information regarding the addresses of letters, endorsements, postmarks, and the location of manuscripts.

This is the Final Report of Canada's Truth and Reconciliation Commission and its six-year investigation of the residential school system for Aboriginal youth and the legacy of these schools. This report, the summary volume, includes the history of residential schools, the legacy of that school system, and the full text of the Commission's 94 recommendations for action to address that legacy. This report lays bare a part of Canada's history that until recently was little-known to most non-Aboriginal Canadians. The Commission discusses the logic of the colonization of Canada's territories, and why and how policy and practice developed to end the existence of distinct societies of Aboriginal peoples. Using brief excerpts from the powerful testimony heard from Survivors, this report documents the residential school system which forced children into

institutions where they were forbidden to speak their language, required to discard their clothing in favour of institutional wear, given inadequate food, housed in inferior and fire-prone buildings, required to work when they should have been studying, and subjected to emotional, psychological and often physical abuse. In this setting, cruel punishments were all too common, as was sexual abuse. More than 30,000 Survivors have been compensated financially by the Government of Canada for their experiences in residential schools, but the legacy of this experience is ongoing today. This report explains the links to high rates of Aboriginal children being taken from their families, abuse of drugs and alcohol, and high rates of suicide. The report documents the drastic decline in the presence of Aboriginal languages, even as Survivors and others work to maintain their distinctive cultures, traditions, and governance. The report offers 94 calls to action on the part of governments, churches, public institutions and non-Aboriginal Canadians as a path to meaningful reconciliation of Canada today with Aboriginal citizens. Even though the

historical experience of residential schools constituted an act of cultural genocide by Canadian government authorities, the

United Nation's declaration of the rights of aboriginal peoples and the specific recommendations of the Commission offer

a path to move from apology for these events to true reconciliation that can be embraced by all Canadians.
