In this exhilarating description of mysteries inside the Earth, Radu Cinamar presents a unique way to penetrate the Inner Earth through the process of feeling and the effects that will develop from such an experience. To enhance the readers understanding of this very guarded subject, this book includes multiple illustrations that include depictions of Inner Earth geography. Familiar characters from the Transylvania Series also reappear, including the enigmatic Tibetan lama, Repa Sundhi, also known as Dr Xien, who states: If someone had a device or machine that could start up and go everywhere they want, especially towards the centre of the Earth, the machine would be blocked and stop at a certain point because of the frequency of vibration to be found there. Just how far you can go with such a machine can be limited by reason of your own consciousness which can in and of itself restrict the dimensional range of such a device or the extent to which it can penetrate other realms. This applies to both human beings as well as material objects. Your ability to access such a region is determined by what your own individual frequency of consciousness can or will allow you to experience. This is not only the story of an exciting adventure, it is an opportunity for initiation as you explore the frequencies of your own inner nature.

An asteroid transformed Mars from a lush planet with rivers and oceans into a bleak and icy hell. Is Earth condemned to the same fate, or can we protect ourselves and our planet from extinction? In his most riveting and revealing book yet, Graham Hancock examines the evidence that the barren Red Planet was once home to a lush environment of flowing rivers, lakes, and oceans. Could Mars have sustained life and civilization? Megaliths found on the parched shores of Cydonia, a former Martian ocean, mirror the geometrical conventions of the pyramids at Egypt's Giza necropolis. Especially startling is a Sphinx-like structure depicting a face with distinguishable diadem, teeth, mouth and an Egyptian-style headdress. Might there be a connection between the structures of Egypt and those of Mars? Why does NASA continue to dismiss these remarkable anomalies as "a trick of light"? Hancock points to the intriguing possibility that ancient Martian civilization is communicating with us through the remarkable structures it left behind. In exploring the possible traces left by the Martian civilization and the cosmic cataclysm that may have ended it, The Mars Mystery is both an illumination of our ancient past and a warning--that we still have time to heed--about our ultimate fate.

In this work, Anne GIVAUDAN invites us to contact the men and women who have the painful sensation that their soul is not aligned with their body. Without any judgment, any a priori or any classification, she pushes back the limits of the known worlds to allow us to dive into an unknown world. What is hiding behind these faces with often tragic or guilt-generating situations? That is what we will discover behind the life stories of these beings who underwent extreme circumstances. This is not about indicting or glorifying anyone, or anything, but simply about uncovering a different and less-known facet of LIFE.

The groundbreaking, bestselling series—millions of copies sold worldwide! A classic of ancient human history—and one of the inspirations behind the History Channel's Ancient Aliens—Zecharia Sitchin's Earth Chronicles series is the revelatory and deeply provocative masterwork that forever altered humankind's view of our history and our destiny. The fantastic conclusion to the groundbreaking Earth Chronicles series brings together past and present to offer a radical vision of the future Thirty years ago, Zecharia Sitchin challenged established notions of the origins of Earth and man. In a series of provocative books, he offered a radical new theory, based on indisputable documentary evidence, of extraterrestrial beings—the Anunnaki—who arrived eons ago to plant mankind's genetic seed. In this triumphant final volume, he closes the circle, exploring the profound question that has troubled us throughout time—from the Bible's Daniel to Sir Isaac Newton to modern Americans—When will the end come? In *The End of Days*, Sitchin solves ancient enigmas, deciphers the original meaning of religious symbols, analyzes scientific calculations, explores Messianic expectation, and bridges the links between history and prophecy—between the 21st century, A.D. and the 21st century B.C.—to present a startling vision of what is to come for us all.

This is the only complete collection of all the important sightings of flying saucers and other unidentified flying objects throughout the world in 1955, written by the most influential UFO researcher of the 1950s, M.K. Jessup. Soon after writing this book, the controversial Jessup was found dead in Florida under mysterious circumstances. This book is an excellent way to understand the climate of fear that prevailed in the mid-1950s concerning the subject of UFOs. Jessup draws on Leonard Stringfield's CRIFO Newsletters and other sources to paint a troubling picture of a battle of the skies. Some of the topics covered include: Clyde Tombaugh's UFO and artificial satellite search, angel hair, moon anomalies, the race to develop a manmade UFO, antigravity research, Lincoln La Paz's investigations into fireballs/guided missiles, Wilbert Smith and Project Magnet, preparations for Operation Deep Freeze and the International Geophysical Year, the Kelly-Hopkinsville incident, the reasons why pilots don't report sightings, an invisible UFO formation, plus an abundance of incidents involving planes, fireballs, UFOs, explosions, dogfights, also explanations of the appearances of atmospheric phenomena and weather balloons (Jessup was a lecturer in Astronomy and Mathematics and a Doctor in Astrophysics). He concludes the book with the first public printing of

the entirety of the AFR 200-2 regulation. This is an extremely well-compiled book. Jessup has a great, informal writing style, as if he's chatting with you in person. It is also one of the rarest UFO books in existence, and a must-have for every serious ufologist.

Jean-Pierre Petit, astrophysicien, directeur de recherche, spécialiste de cosmologie théorique et de propulsion électromagnétique « MHD », reçoit, ainsi que d'autres humains, d'étranges courriers émanant des Ummites qui se prétendent extraterrestres. S'agit-il d'un canular ou d'un authentique contact avec des visiteurs venus d'une autre planète ? L'auteur affirme que seuls des scientifiques très en pointe pourraient envoyer ces informations qu'il transforme, depuis vingt ans, en une suite impressionnante de publications. Mais quel intérêt des scientifiques terrestres auraient-ils d'agir ainsi ? Après l'exceptionnel succès de son Enquête sur des extraterrestres qui sont déjà parmi nous, Jean-Pierre Petit poursuit ses investigations. L'organisation sociale, l'habitat, la technologie, la psychologie et l'histoire de ces Ummites sont cette fois abordés. L'auteur de Enquête sur les OVNI et des Enfants du diable ouvre ce dossier volumineux et troublant, qui dérange nos certitudes et fonde une hypothèse plus plausible que nous voudrions le croire.

Actes et memoires des negociations de la paix de Nimegue. Tome premier [-quatrieme. Partie 2.] Par le sieur De S. Disdier Harper Collins

Since 1947, the mysterious crash of an unidentified aircraft at Roswell, New Mexico, has fueled a firestorm of speculation and controversy with no conclusive evidence of its extraterrestrial origin -- until now. Colonel Philip J. Corso (Ret.), a member of President Eisenhower's National Security Council and former head of the Foreign Technology Desk at the U.S. Army's Research & Development department, has come forward to tell the whole explosive story. Backed by documents newly declassified through the Freedom of Information Act, Colonel Corso reveals for the first time his personal stewardship of alien artifacts from the crash, and discloses the U.S. government's astonishing role in the Roswell incident: what was found, the cover-up, and how these alien artifacts changed the course of 20th century history.

The Los Angeles Air Raid on February 24/25, 1942 opened an unprecedented chapter in the evolution of the U.S. Navy. In response to this incident, a covert research program to investigate the feasibility of exotic antigravity propulsion technologies was developed. In addition, Navy operatives were embedded in Nazi occupied Europe to learn about the Germans' advanced flying saucer programs, and they discovered the Nazis were receiving assistance from two extraterrestrial groups with very different agendas. The debriefing of the operatives took place at Naval Air Station, San Diego, led by Rear Admiral Rico Botta. He instructed a -Disseminator of Naval Research and Information-, William Tompkins, to take confidential briefing packets to select think tanks, corporations and university departments around the country. Later, Tompkins worked with a number of leading aerospace companies to design massive spacecraft for a secret U.S. Navy space program, and was fatefully assisted by extraterrestrial visitors described as -Nordics-. An extensive number of documents substantiate Tompkins' claims of the existence of a covert Navy program created to study, design and build deep space battle groups. They became operational in the 1980's. Now the Navy has a new goal to enact a plan to level the universal playing field, and the election of President Donald Trump may just be the wild card they needed to reveal ... everything!

Exposing perceived fault lines in our banking and financial systems and explaining how unemployment could be cut in half in two years and worldwide prosperity restored, this book argues the existence of exotic energy sources to replace fossil fuels and consequently recommends an immediate end to fracking and offshore drilling for oil. It further urges an immediate worldwide mobilization to replace the energy source in every car, truck, tractor, ship, airplane, and house on Earth in seven years in a desperate effort to save the planet from further overheating. The book blasts government secrecy, and more than 65 years of supposed lies and disinformation, and demands full disclosure of what they know about visitors from other realms and their technology and the extent of their collaboration, including any treaties that may have been signed by them. With more than 65 years of participation in and observation of political and economic systems—beginning with the Great Depression, extending through World War II, the postwar era of hope for a better life, the Cold War, the subjugation of democracy by oligarchy, and the subtle but continuous militarization of America—Paul T. Hellyer analyzes what he believes has gone wrong with the world and its economy and suggests radical measures to introduce a universal culture of peace and cooperation.

SHOCKING. CONTROVERSIAL. UNPRECEDENTED. A CASE LIKE UNLIKE ANY OTHER IN THE ANNALS OF UFO INVESTIGATION, DNA RESEARCH, OR ALIEN ABDUCTION. Sydney, Australia. July 23, 1992.

Twenty-eight-year-old Peter Khoury was awoken by what appeared to be two females—both striking and unearthly—kneeling on his bed. What transpired between them was a physical assault as bizarre and disorienting as it was unnatural. Then, as quickly as they had arrived, they vanished. Khoury had become one of a legion of alien abductees with inexplicable experiences, but this particular incident stood apart from all the others. This time, there was evidence—two strands of white-blond hair from one of the females. Khoury's case would result in the very first forensic DNA analysis of "alien abduction" evidence and revealed an extraordinary biological anomaly—one genetically close to human yet almost impossibly far from the human mainstream. A gripping account of one of the great mysteries of our time, *Hair of the Alien*, brings us closer than ever before to understanding our past, our origins, and our place in the universe.

« On pourrait dire que c'est l'histoire d'un jeune glandeur qui devient gourou-star des médias. Et que c'est l'occasion d'une charge terrible, une vision du siècle nouveau et de l'époque. Gravement décadente, la vision. Bien sûr. On pourrait dire aussi que le sujet du livre, c'est l'occultisme, ou les extra-terrestres. Voire les vampires. Notre jeune héros a des flashes, des rêves, se croit détenteur du message des grands anciens... Pénibles, les grands anciens, pas très rock and roll dans l'ensemble. D'ailleurs, il se révolte. Façon sataniste, luciférien et tout le bataclan. Rock and roll. Justement. On peut croire que tout cela existe. Que notre héros prend vraiment le thé avec Kurt Cobain, Sid Vicious, Claude François ou Jean Yanne, qu'il a prévu la mort de Johnny Hallyday. Qu'il est le vrai Rael et que, les extraterrestres, l'Antéchrist, toute la Sainte Famille, reviennent pour le Jugement Dernier. Ou pas. Peu importe finalement, notre héros lui même ne sait plus trop. Ce qui est sûr, c'est que les années 2000 sont parties pour courir après les extraterrestres : ils seront les nouveaux Steevy et Loana ! De l'authentique chair à hit parade. On trouve d'ailleurs dans le livre des citations de Friedrich Nietzsche, de la Bible comme d'Annie Cordy. Normal, l'époque est ainsi. Bric-à-brac culturel. Le médium est le message. Le bouquin s'arrête avec la fin du monde. Ce qui peut se comprendre. Commentée en direct live par Nikos Aliagas de Star Academy, comme il se doit. L'affaire est donc une sorte d'OVNI qui tient autant du "matin des magiciens" que d'un film culte de Jean Yanne. Mais très Rock and roll. Quand même. On se refait pas. » P.E.

Antarctica is a land about to be exposed over its well-guarded secrets and ancient hidden mysteries ... In 1955, as a result of a secret agreement reached between the Eisenhower Administration and a German breakaway group in Antarctica, a transnational corporate space program began to emerge.

The secret infusion of personnel and resources from US military contractors into Antarctica allowed this transnational corporate program to steadily grow into a major space power, which would eventually surpass and eclipse the secret space programs run by the US Navy, Air Force, and the classified space programs of other nations. Whistleblower claims substantiate that many of the classified programs conducted there violate the 1961 Antarctic Treaty, and constitute crimes against humanity due to the abuse of a captive slave labor force. Dr. Michael Salla daringly exposes the major corporations involved in these illegal programs, and how the truth is hidden from company shareholders and the public. Today, Antarctica's secrets are slowly being revealed by the increasing volcanic activity that is melting the massive ice shelves, exposing ancient artifacts and crashed extraterrestrial spacecraft. Full disclosure of Antarctica's history, and current events involving multiple space programs and transnational corporations, will vitally aid in transforming our planet, and prepare humanity for the major geological events that lie ahead as the melting ice unveils all that has previously been hidden.

In this revealing book, Ricardo Gonzalez shares his incredible experiences with the Apunians, extraterrestrial beings that come from the future with a powerful message. "The messages of the Beings are very precise and they have the elements to verify them. There is a hopeful future, but some old structures have to be transformed. What I would say to people is not to be afraid because fear is the antithesis of love. Fear paralyzes and does not allow us to make the right decisions. We have to open our consciousness to react according to that and to create a better future for us all. Extraterrestrials may support us but they will never solve our problems. The real contact is with ourselves." -Ricardo Gonzalez"

For decades, neuroscientists, psychologists, and an army of brain researchers have been struggling, in vain, to explain the phenomenon of consciousness. Now there is a clear trail to the answer, and it leads through the dense jungle of quantum physics, Zen, and subjective experience, and arrives at an unexpected destination. In this tour-de-force of scientific investigation, Evan Harris Walker, a pioneer in the science of consciousness, describes the outcome of his fifty-year search for the true nature of reality. Drawing on a deep knowledge of quantum physics and Zen philosophy, Walker shows how the operation of bizarre yet actual properties of elementary particles support a new and exciting theory of reality, based on the principles of quantum physics; a theory that answers questions such as "What is the nature of consciousness, of will?" "What is the source of material reality?" and "What is God?" Clearly written in non-technical, lyrical prose, *The Physics of Consciousness* is more than just the explanation of a science—it is a new vision of life.
